

Another Attempt to Lynch Negroes WILL NOT ALTER PEACE TERMS

Tewksbury Man Victim of Shooting Accident

British Put Forward Everything It Could Possibly Concede to Purchase Peace and Good Will of Irish

FINAL TERMS, SAYS PREMIER

Lloyd George Declares Letter to De Valera Contained Whole of Proposals

Nothing Held Back—Outline Cannot be Altered, Nor the Basis Changed

Lord Curzon Also Says Government Went Limit—Minor Clash in Cork

LONDON, Aug. 18.—(By the Associated Press.)—The British government, declared Premier Lloyd George today, in making its proposals to Ireland had decided on putting the whole of its terms into the letter to Eamon De Valera without keeping anything back, and the sequel had proved, he said, that it was right in adopting that course.

He had heard no suggestions from any part of the world except Ireland, he remarked, that the proposals had not gone to the limit of possible concession.

"I want to make it clear," continued the prime minister, "that the government did not put in haggling terms, but put forward everything they could possibly concede to purchase peace and the good will of the Irish people. In Ireland it seems, as far as I can see, the doubt is not so much as to the terms but as to whether the government really means them."

"That is a question of working out the terms—of elaboration and elaboration, and not a changing of the terms. The outline cannot be altered nor the basis changed."

"In view of the fact that the house is about to separate and the fact that

COX APPEALS TO WAREHAM FOLK

Urges People, Incensed Over Attack on Girl, Not to Let Mob Spirit Rule

Promises Whole Power of State to Punish Those Guilty of Atrocious Crime

BOSTON, Aug. 18.—Gov. Cox today appealed to the people of Wareham, where three Cape Verde negroes have been arrested for an attack on a young white woman, not to let the mob spirit rule. He urged that they have confidence in their court, and promised that the whole power of the common-

SANK WITHOUT WARNING

Five Men Barely Had Time to Scramble Onto Wharf When Sloop Went Down

ROCKLAND, Me., Aug. 19.—Five men barely had time to scramble onto McLoon's Wharf early today when the fishing sloop Minerva sank without warning and from an unknown cause. William Smith of Gloucester who escaped, with practically no clothing, made his way to the police station in a very much exhausted condition.

The sloop, owned by Captain Charles Jordan and C. N. Trefethen of Portland, came into harbor yesterday with a 3000-pound cargo of fish. Captain Jordan said that when he and the other four men were aroused shortly after four o'clock, there was four feet of water over the stern and it was rushing into the companionway to the forecabin. The underwriters were notified of the mishap.

SECOND ATTEMPT IN TWO DAYS

Barnstable County People up in Arms Over Assault on White Woman

Move on Jail to Get Three Negroes Halted When Guards Fired into Air

Chief Threatens to Shoot Members of Mob "Like Rats" if They Attack Jail

BARNSTABLE, Aug. 19.—A Barnstable county mob of nearly 200 men and women carrying ropes early today stormed the local jail threatening to lynch three Cape Verde negro prisoners charged with highway robbery and criminal assault on a young white woman at Buzzards Bay.

This was the second early morning mob that threatened violence to the negroes, a crowd of the same size yesterday having attempted to get John Dies from the Wareham lock-up, from which he was rushed after the police there had dispersed the crowd by firing over their head.

At 2.30, 25 automobiles whose occupants included women as well as men, drove up to the jail. A crowd of nearly 200 persons assembled and marched to the jail entrance, where they demanded the three negroes, John Dies.

FORMER GREEK PREMIER

Demetrios Rhallis, Active in Politics for Many Years, Dies in Athens.

ATHENS, Aug. 19.—(By the Associated Press.)—Demetrios Rhallis, former premier of Greece, is dead, as the result of an illness, from which he had been suffering for many months.

M. Rhallis, although an octogenarian, had been active in political circles until recently, forming a ministry late last fall in succession to Premier Venizelos after the latter's defeat in the elections. It was his cabinet that authorized the plebiscite on the return of King Constantine to the throne and that was in office at the time of the king's recession.

SWEEPING CHANGES IN CAVALRY UNITS

WASHINGTON, Aug. 19.—Sweeping changes in cavalry units of the army were ordered today, the second cavalry division being placed on the inactive list and many units of the eighth, ninth, tenth, eleventh, twelfth, thirteenth and fifteenth regiments ordered demobilized.

CATS ANNOYED SURPRENANT

Borrowed Gun to Kill Them and Met With Fatal Accident

Gun Went Off When He Tripped Over Threshold and Fell

While preparing to kill a couple of cats, which had been annoying him for some time, George E. Surprenant, a well known resident of Tewksbury, was killed near his camp at North Wilmington last evening, when a shot gun he was holding was accidentally discharged. The shot tore off part of his left wrist and then entered the left side of the head. The accident occurred at about 10.30 o'clock. The remains were viewed by Medical Examiner Terley of Melrose, who signed the death certificate, "accidental shooting."

According to information received this morning, Surprenant, who was spending the summer at his camp with his wife and child, became disturbed over the noise made by a couple of cats, which seemed to have settled for the night in the vicinity of his camp. In order to put a stop to the disturbance he went to the house of a neighbor and borrowed a loaded shotgun. As he was stepping out of the house onto the piazza with the gun in his hands, he tripped on the threshold and fell. The gun went off and the young man was instantly killed.

Deceased, who was 35 years of age, leaves to mourn his loss his wife, Mrs. Evelina (Marion) Surprenant; a daughter, Gertrude; his parents, Mr. and Mrs. Joseph Surprenant; five sisters, Mrs. Eugene Doucette, Bertha, Irene, Beatrice and Antoinette Surprenant, and two brothers, Edmund and Alexander Surprenant, all of North Wilmington. He was a member of Wilmington post, American legion and the Artisans of Salem. His body was removed to the funeral parlors of Undertakers Amodeo Archambault & Sons in this city and later to the home of the father-in-law in James street, Tewksbury Centre.

PRESIDENT OF MIDDLEBURY MIDDLEBURY, Vt., Aug. 19.—The Rev. Paul Dwight Moody, youngest son of the late Dwight L. Moody the evangelist, today was elected president of Middlebury college. He succeeds President John M. Thomas, who resigned after 13 years to become president of Pennsylvania State college.

Book publishers in Chicago convention declare that next to juvenile stories, the Bible is the best seller today.

'Twas Ever and Often Thus

When we look over the present market values of Stocks and Bonds that I, YOU, WE, THEY and Some others have purchased during last year or two, the thought that comes home is something like this: HOW MUCH BETTER IF THE PURCHASE MONEY HAD REMAINED AS A SAVINGS DEPOSIT.

Ah, dear friend, history of investing is but repeating. Your present experience and condition is but the repetition of the experiences of Billions of others, since the world began or since money was invented. The strangest of all is, that it always will be so. The Cupidity of the Majority of individuals is beyond understanding. Remember this: The Man, Woman, or Child who sneers at the humble Savings Account, has a Tremendous Future awaiting—Tremendous as to the volume of wisdom that is coming to them to partially fill the present vacant spaces in and about their intellects—SOMETIME. Sure Pop.

The School Bell Will Call Kiddies to Their Movie Lessons

JOHNNIE WALKER. HE IS ONE OF THE YOUNGER PLAYERS OF THE SCREEN WHO HAVE BEEN RECENTLY ELEVATED TO A STAR'S PLACE. HIS LATEST IS "THE DRIFTER," IN WHICH HE CO-STARS WITH EDNA MURPHY.

ANN HASTINGS. SHE'S A FEMININE DAREDEVIL WHO PERFORMS RISKY STUNTS WITH CHARLES HUTCHINSON IN "HURRICANE HUTCH," SHE ALMOST WAS DROWNED DURING THE FILMING OF THE FIRST SCENES OF THAT SERIAL.

BY JAMES W. DEAN
NEW YORK, Aug. 19.—When the school bell rings in September the children of the nation will be called back to their books—and to their movies.

Motion pictures will be used for instruction in schools for the coming year more than ever before. Between 20,000 and 25,000 schools will supplement book lessons with moving picture lessons.

One firm alone has sold 4000 projectors to schools in the past year. Among cities that have supervisors of instruction by motion pictures and plan extensive use of that agency in training the young mind are New York, Chicago, Detroit, Cleveland, Kansas City and Newark, N. J.

In those cities one person, at least, devotes full time to visual instruction and 50 per cent. of this instruction is through the motion picture. School films are divided into three general classes, entertainment, semi-educational and instructive. Under the first classification come fairy tales and classics of literature. Under the second, news reels and reviews and scenes. Under the third, biology, geography, nature studies, civics and government, mathematics and literature.

Biology is taught through intimate studies of animal and insect life. The industrial and economic phases

of geography are shown in which the world is clothed, fed, sheltered and served.

Civics and government classes are shown pictures of congress, senate and state departments in actual work.

Normal schools and extension courses now have classes in visual instruction for teachers in which tutors are shown the best way of using films in teaching various subjects. Columbia university has two hours' instruction a week in this feature.

Charles H. Mills, formerly head of visual instruction in Kansas City, is now head of a department of Pathé which handles films for schools exclusively. His indices to the film library are a library within themselves.

"There is danger of the movie being used to too great an extent for instruction," Mills told me. "When a lesson is made too easy for a child the purpose of schooling is lost."

"However, actual tests made in Chicago, Evanston, Ill., Detroit and New York show that in classes in which film studies had supplemented book studies the instruction had been 15 to 40 per cent. more efficient than in classes in which the motion picture was not used."

This will probably be of interest to fathers and mothers who had only their books and their imaginations to learn how Chinamen eat with chop

sticks, the wild tribes of Africa hold their war dances and the jungle beasts care for their young.

Curuso in Celluloid

One of the most impressive incidents since the invention of the motion picture and the talking machine is the combination of the two in presenting Curuso.

The camera presents Curuso in the various roles in which thousands saw him and the phonograph reproduces the songs he sang.

A hush settled over the audience at the Rivoli in New York at the first presentation.

And when the waxen record yielded the tender sob in "Pagliacci" and his shadow moved across the screen as Curuso, a man in front of the writer sniffled, tried to restrain himself and then sobbed aloud.

THE MOVIEFORUM

Daughter born to Fred Niblo and Emil Henneberg, "My Wife," Max Linder's film, to be released by Goldwyn.

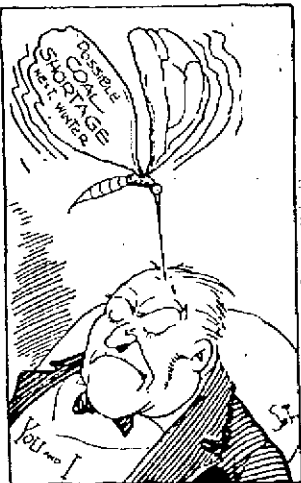

New York censors endorse Dempsey-Carpenter fight pictures. "Phroso," made by Louis Mercanton in Paris, to be released in America. Wallace MacDonald will be leading man for Carmel Myers in "Breaking Through," a Vitaphone serial.

The forty-reel version of the bible made in Italy is to be cut to ten reels for American audiences.

"The Young Diana," Marion Davies plays the part of an "old maid" restored to youth by a scientist.

An elephant lives 400 years, a cat 15, a dog, 11 and a whale 300.

SUMMER PESTS

GIRLS! BLEACH SKIN WHITE WITH LEMON

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemonbleach. Massage this gently fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate—Ady.

Adventures of the Twins

SPRINKLE-BLOW'S PROMISE

THE TWINS WAVED FAREWELL TO THEIR LITTLE FAT FURRY FRIEND

"All right," promised Sprinkle-Blow. "Set your mind at rest, Wally, and go home and tell Mrs. Woodchuck to pack whenever she likes. I'll see to it that West Wind and East Wind blow no black clouds to bother you on your vacation, also that Howly Thunder and Jumpy Lightning don't meddle with my rain-barrels. Sometimes, when I'm not there to watch, they turn the spigot and it rains perfect frog's legs."

"Thank you," said Wally gratefully, waddling off to his house to tell his wife the good news. "We'll start for the blue mountain at once, for I'm anxious to get a taste of that white frosting."

"Good-bye and good luck!" called the fairy weatherman, and the twins waved farewell to their little fat, furry friend.

"How would you like to follow him on his vacation?" Sprinkle-Blow asked them. "It isn't very polite to follow folks, I know, but Wally was glad to have us before he kept home again."

"Oh, yes, let's," cried Nancy, clapping her hands. "But tell me, Mr. Sprinkle-Blow, is the mountain made of cake and is the white stuff frosting? Daddy always told us it was."

"Shhh!" whispered Sprinkle-Blow. "That was my little joke. Your daddy was right. But that's frost, isn't it, even if it isn't frosting, and it isn't not mistaken, by the time a certain woodchuck gentleman gets to it he'll be more than satisfied to find out the truth. We shall see what we shall see. Are you ready to start? Are your green shoes in pretty good shape?"

"They were, and so was Mr. Sprinkle-Blow's umbrella, which he mounted at once, just as you slide a broom-handle on your travels. For, although Wally is fat, he is fast also. (To Be Continued.) (Copyright 1921 by The Lowell Sun)

Spaniards and Tribesmen in Battle

MADRID, Aug. 19.—Serious fighting is taking place at Sidi Ameran, south of Melilla, according to an official statement. It was said that there had been sharp firing along the Spanish positions there, and that reinforcements and provisions had been dispatched to the front. The Spanish forces at Tizza, nearby, have already been reinforced. The tribesmen have attacked Spanish positions at Cabo de Agna, near the frontier of French Algeria, the statement declaring that the Spanish forces there were under fire.

Greek Forces Continue to Advance

ATHENS, Aug. 10.—Greek forces engaged in the offensive against the Turkish nationalists in Asia Minor are making progress, especially on the northern end of the battle line, where they have penetrated the Turkish front to a depth of over sixty miles.

FOLKS WHO ARE THIN

SCRAWNY, ANGULAR, HOLLOW-NECKED AND CHEEKED,
SHOULD BUILD FIRM, STAY-THERE FLESH
You Are Too Thin In Your Face, Others In Chest, Shoulders or Neck,
While Others Are Angular All Over

It matters little whether you have thin face, sunken neck or chest, or a thin, weak, angular body; it proves you lack that important flesh and tissue-building nourishment called vitamins, which scientists say modern cookery totally destroys in our foods. You should eat more vitamin-containing vegetables, such as lettuce, spinach and apples and reinforce them by taking from time to time with your meals a little harmless and pleasant MEDIC-YEEST, which is rich in vitamins like the vitamins in your blood and the vitamins in bits of grain and skins of apples. MEDIC-YEEST represents fresh building vitamins in such a highly condensed form that one dose of it is estimated to be approximately equal (in vitamin content) to eating two heads of lettuce, one-half quart of spinach, one quart green vegetables or six apples. It's like taking extract of thin face, sunken neck or chest, or a thin, weak, angular body; it proves you lack that important flesh and tissue-building nourishment called vitamins, which scientists say modern cookery totally destroys in our foods. You should eat more vitamin-containing vegetables, such as lettuce, spinach and apples and reinforce them by taking from time to time with your meals a little harmless and pleasant MEDIC-YEEST, which is rich in vitamins like the vitamins in your blood and the vitamins in bits of grain and skins of apples. FRED HOWARD, The Druggist

SEEK PERSON WHO FIRED SHOT AT SEN. BALL

WASHINGTON, Aug. 19.—Washington police began today an investigation to find the person who fired a shot about two months ago which struck Senator Ball of Delaware while he was driving through the city in an automobile. He was not injured.

About two years ago, when the senator introduced his district rent control bill, he received many anonymous threatening letters. One which declared that his property would be destroyed was turned over to the police. In June he introduced an amendment extending the life of the rent act and received additional letters. The shot that struck him was fired about this time, as his car was near Thomas Circle in the residence section. The senator said he felt a prickly sensation near his right knee and found his trousers had been torn by a bullet which rested against the knee cap but had not broken his knee. He heard no report of the weapon and the bullet entered an open window at his left elbow, indicating that it had been fired from a roof or window.

"Threatening letters never worry me," said Senator Ball today, "and I have done everything possible to prevent publicity in this matter. The fact that the incident occurred shortly after I introduced my amendment suggests, of course, that the shot may have been fired by opponents of the bill to frighten me and deter me from working to have the law extended."

Certify 3011 Signatures

Continued

of more than 4000 signatures, 3011 had been found to be correct. The law provides that at least 2924 correct names must be on an initiative petition to make it valid, thus giving the petitioners a safe margin of 87 names. Upon completing its work the election commission, through its chairman, Hugh C. McOsker, returned the petition to City Clerk Flynn who immediately notified Mayor Thompson that he had attached his certificate of sufficiency to the petition and that it was ready for presentation to the municipal council. The mayor then announced that a special meeting of the council would be called for either Tuesday or Wednesday of next week at which the petition will be presented.

The gas plant petition had 23 less correct names than were certified on

FINED \$3 FOR HUGGING GIRL IN AUTO

NEWBURYPORT, Aug. 19.—In the police court yesterday Judge Simpson had one of the most unusual cases before him.

It was alleged that Norman S. Brightman of 299 Sutton street, North Andover, was driving an automobile a few nights ago through the town of West Newbury, along the main highway, and had a girl companion. Chief of Police Meador of West Newbury objected to the man hugging his female companion.

Brightman was given a severe lecture by Judge Simpson and was advised to stop the hugging while driving an automobile, as it was dangerous to the traffic.

Brightman was fined \$3 and his case filed.

The chamber of commerce street council work petition. The latter document had 3034 correct names when the election commission stopped checking. Work on comparing the signatures with the voting list was started last Monday morning.

When the petition is presented to the municipal council that body will have two avenues of action open to it. One will be to vote outright to grant the petition by taking over the plant of the Lowell Gas Light Co., at a cost conservatively estimated at \$5,000,000. The other will be to refer the matter to the people at a special election. It is very improbable that the council will see fit to shoulder the responsibility of so great an undertaking without consulting the wishes of the voters. In fact, one member of the council, Mayor Thompson, has frankly declared that the issue is one which should be decided by the electorate.

If the council refuses to vote to establish a municipal gas plant here or to take over the existing plant within 20 days, the question automatically goes to the voters. A special election will have to be held not less than 40 days after the date that the council first receives the petition and not more than 60 days. A state law also says that all elections must be held on Tuesdays. Therefore, the special election must come on Oct. 4 or Oct. 11. It cannot be combined with the special election on Oct. 18 at which the voters will be called upon to accept or reject the proposed new city charter.

Second Attempt in Two Days

Continued

Benjamin Gomez and Joseph Andrews, from Sheriff Irving L. Rosenthal.

Jail Defenders Fire Into Air

There were shouts of "Let's get them," as the mob approached the

brick structure, but when the jail defenders, five men in all, fired in the air the crowd came to a halt.

Chief Warden James Boland warned the mob back, shouting that at the first attempt to attack the jail they would "be shot down like rats."

The warning had its effect, but the crowd remained outside the jail nearly one hour and a half, still threatening an attack, while Sheriff Rosenthal, Chief Warden Boland and three others stood guard with shot guns.

May Ask for Troops

There are ten prisoners in the Barnstable jail. Usually two men are considered sufficient to guard it. Last night, because of the Weymouth incident of the night before the sheriff personally took command and augmented the force to five. Today more guards will be added, and Sheriff Rosenthal intimated that he might also ask for state troops to help him. The Second Field Artillery, M.N.G., is stationed five miles away on its summer encampment.

The third of the negro trio was arrested yesterday. He was Joseph Andrews of Onset, and was brought here from Weymouth last night, to be arraigned in court today. Dix and Gomez were held in \$15,000 bail each yesterday. All three have been identified by Miss Gertrude Butler and William Eldridge as the men who held them up and criminally assaulted Miss Butler at Buzzards Bay early in the week.

Chief Warden Boland said the crowd came within ten feet of the jail. Among the women he saw several not more than 20 years of age. The three negro prisoners are being kept in separate parts of the jail.

Andrews Held In \$15,000

Andrews was arraigned this morning and held in \$15,000 bail. The trial for all three men has been scheduled for August 29.

Jail Guard Increased

Sheriff Rosenthal announced that he had increased the jail guard to 15 men for tonight, all armed, to defend the institution against assault. He said he had not called for troops or state police and did not at this time intend removing the prisoners elsewhere.

"We expect to take care of the situation right here," he said.

Quiet prevailed during the forenoon.

State Police Go to Scene

BOSTON, Aug. 18.—Ten members of the state police patrol have been ordered to proceed from camp in Framingham to Barnstable, where a crowd early today attempted to take three prisoners accused of assault upon a white girl from the jail. The men will go over the road in motorcycles.

Public Safety Commissioner Alfred B. Foote said the men would be used to assist in preserving order, but the main purpose of their going was to assist in the search for an automobile alleged to have been stolen and used by the trio in the assault.

LAW OF AERONAUTICS

Matter Will Come Before Convention of American Bar Association

CINCINNATI, Aug. 19.—One of the most interesting and unusual features to be introduced and discussed at the convention of the American Bar association, to be held here Aug. 30 to Sept. 2, will be the matter of recommending the enactment of constitutional law to bring about the proper solution of the demands of aeronautics.

The recommendation that such action be taken comes from a special committee on the law of aviation, which in its report to the executive committee of the association expressed its hope that in the enactment of any legislation by congress, the most careful preliminary consideration be given to the constitutional features of any proposed legislation, to the end that it may be determined whether the proper development and regulation of aeronautics does not require a constitutional amendment conferring complete jurisdiction over aeronautics upon the United States through its appropriate departments, instead of attempting to adopt devices of questionable constitutionality to make existing national powers supply to this new branch of human activity.

The report further states that the

neither the public nor the legal profession appears to be alive to the demands of the situation. There is a prevalent tendency, it is asserted, to regard the problem as primarily, if not exclusively, a military problem; whereas in fact it is primarily a commercial and economic problem, with grave implications for the future of the nation.

The two fundamental legal problems of aeronautics in this country are emphasized by the committee as follows:

Whether control should be exerted by the national government; and whether the power of such control should be conferred by constitutional amendment, or seized under the claim of the exercise of existing powers.

The committee after thorough investigation finds and will report that the embarrasment arising from the present state of the law may be conveniently contributed to the following specific difficulties in existing laws: the uncertainty as to what the law is; the conflict of laws; the insufficiency of law; the hazard of unregulated flight; the hazard of personnel responsibility; the hazard of personnel unlicensed or unequipped or inadequately equipped pilots; the hazard of deficient air worthiness of aircraft.

Together these make up a bunch of uncertainties and a bunch of embarrasment which make the proper conduct of the business of aircraft insurance extremely difficult if not impossible.

The committee expresses the belief that recourse to a constitutional

GIVES IT CREDIT FOR RESTORING HEALTH

Gains 12 Pounds and Feels Like New Man Since Taking Tan-lac, He Says

"Other people, of course, may have the medicine they want, but I'll take Tan-lac for mine every time," says the characteristic statement made by Harry (Bill) of 422 Broadway, South Boston, who has been in the trucking business in Boston for 10 years.

"For the last four years I have been all out of sorts. My stomach gave me no end of trouble, and it seemed like everything else was the matter with me, too. My appetite was so poor I had to force down the little I ate, and my food hurt me instead of doing me good. Pains in my stomach caused me such agony that at times I thought I would die, and I bloated with gas until I nearly cut off my breath. My nerves were unstrung, and my sleep was restless that mornings I felt tired out and just about 'all in.' I lost weight, was thin and frail and almost past going.

"However, a friend got me to take Tan-lac and four bottles of this medicine has me feeling like a brand new man. I eat whatever I want, never feel a sign of indigestion or stomach trouble and have gained 12 pounds in weight. My nerves are as steady as steel, I sleep like a log at night and am in the pink of condition. In fact, I feel like all the time, and owe Tan-lac all the credit for my good health."

Tan-lac is sold in Lowell by Green's drug store under the personal direction of a special Tan-lac representative, by Wright Drug, Boston, Mass., A. D. Falls, Chelmsford, Mass., Snow's Pharmacy, Concord, Mass., and by the leading druggist in every town.—Adv.

amendment is desirable in providing regulation of air service and at the same time admonishes that the greatest care should be taken to make it a comprehensive one because of the fact that the art of flying is still in its infancy. The committee also submits a tentative constitutional amendment suggested by Major Elia C. Johnson of the United States army, legal adviser to the air service, as follows:

"Congress shall have power to provide for regulating the use for travel of all air spaces over the earth and within the limits of the United States and its territories, and all countries over which the United States has jurisdiction, including the three mile limit on the seas; and to provide for regulations of landing fields, a fixed code of signals, and signs for the navigation of the air and the landing of aircraft."

"Congress shall have further power to provide for the enforcement of said regulations and establish air admiralty courts, or grant to the existing courts the jurisdiction of the admiralty law of the air, which jurisdiction shall include the punishment of all crimes committed on aircraft, over the air or in port or in landing fields, and over all civil cases over which admiralty courts now, or hereafter, generally have jurisdiction, which have their source in air travel."

The committee adds that the time has certainly come when it can no longer be said that this is not a subject of general interest, or about which there can be any doubt as to the necessity of legislation.

Justice Taft to Preside

CINCINNATI, O., Aug. 19.—William Howard Taft, chief justice of the supreme court of the United States will preside at the banquet to be given in connection with the annual convention of the American Bar association, to be held here from August 30 to September 2. It was definitely announced here in connection with the making public of the official program. The banquet will be held on the evening of September 2.

Governor Harry L. Davis and Mayor John L. Galvin of Cincinnati will welcome the association at the opening session on Wednesday, August 25. James M. Beck of New York will speak on "The Spirit of Lawlessness," and Harry M. Dougherty, attorney-general of the U. S. will deliver an address at the afternoon session.

With Elihu Root presiding at the evening session, John W. Davis, former ambassador to Great Britain will address the bar association on the subject, "Our Brethren Overseas."

It. Hon. John A. Simon, K.C., of London, former attorney general of England is also scheduled to speak at the evening session which will conclude with memorial tributes to the late Edward Douglas White, chief justice of the supreme court. William A. Bennett and Stephen S. Gregory, of the election of a general council.

Charles S. Thomas, former senator from Colorado will speak on the subject, "Without A Friend" at the Thursday afternoon session which will also be taken up with the reports of committees. An outing is on the program for the forenoon.

A symposium on the general subject, "The Administration of Criminal Justice," will be taken up at the morning session on Friday, Sept. 2. The nomination and election of officers will also be held. The afternoon session will be consumed with committee reports and Saturday, the final day, will see an all day excursion to Dayton, Ohio, as guests of the Montgomery County Bar association.

CONGRESSWOMAN REPLIES TO CRITICS

WASHINGTON, Aug. 19.—Aroused by a statement by the National League of Women voters as to her attitude on feminine representation on the disarmament conference, Representative Alice Robertson, issued a statement declaring she had been misquoted in the league's statement.

Miss Robertson contended she never has told President Harding there was no woman qualified to sit in as an American commissioner. She did say, her statement continued, "show me the woman properly qualified," and her statement added that the league officers did not suggest such a woman to Mr. Harding.

League is the main cause for promoting state of the U. S.

ANTI-BEER BILL IS BLOCKED IN SENATE

WASHINGTON, Aug. 19.—The Stanley amendment to the anti-beer bill—designed to safeguard through heavy penalties a man's home and property from illegal search for liquor—was regarded last night as the stumbling block in the way of the measure's final enactment, prior to the recess next week of congress.

House managers were said to have agreed to leave it intact, so far as it related specifically to the searching of a home on a warrant obtained under the general law, with a demand that severe penalties, but there as a means of protecting the home, be sharply cut.

During the senate debate, there were insistent demands that a man's property, including his barn, his baggage, automobile or garage, should be subjected to the same safeguards that surrounded his actual place of abode. But the conferees were reported to have about agreed to a modification that a warrant would not be required to search "other property," providing a prohibition officer had reason to believe the suspect was guilty and if the search was not prompted by malice.

In other respects, the differences in the senate and house measures were reconciled, but they had not been expected to provoke a fight. Leaders said the house would accept the changes indicated, although they frankly expressed doubt as to the possible attitude of the senate, even if the senate managers should meet the house demands.

So pronounced was the opposition of house prohibition leaders to the Stanley amendment that they indicated privately a willingness to let the beer regulations be issued rather than accept it as drawn. At all events, there were grave doubts as to whether the bill could be sent to the president for his approval before the recess.

The reported presence of Wayne R. Wheeler, general counsel for the Anti-Saloon league, at the discussions between senate and house conferees, which always are secret, was denounced on the floor of the senate by Senator Reed, democrat, Missouri, as "unwarranted and unmitigated insolence."

Both Senator Sterling and Mr. Wheeler denied that the latter had participated.

After the Reed attack, Mr. Wheeler issued a statement attacking the senator, which the latter obtained and read to the senate. This provoked another flurry. Senator Reed and others indignantly denying that any filibuster had been attempted by the senate to delay passage of the bill Senator Reed declared that when the league attorney charged filibustering, he

knew "it was a deliberate, wilful and premeditated falsehood."

The fight over this provision of the bill, adopted unanimously by the senate broke unexpectedly in the senate yesterday, and prohibition leaders declared it was more than likely all beer legislation would go over until fall, with the possibility that the treasury department meanwhile might issue regulations under which beer could be manufactured and prescribed for the sick.

Because of the "evilest intention" of senate conferees to destroy the effect of the Stanley amendment, Senator Ashurst, democrat, Arizona, "bolted" the conference, announcing that he would take no part therein or sign any report unless the amendment was retained precisely as originally written.

At the end of an all-day wrangle in conference and in the senate, according to leaders the whole course of the proposed anti-beer legislation hung upon hope of agreement by senate and house managers.

MUST REDUCE FREIGHT RATES

WASHINGTON, Aug. 19.—Railroads must share with the farmers and others the burden of the present economic situation by reducing freight rates, Secretary Wallace said yesterday before the Interstate Commerce commission, which is investigating rates on grain and hay.

High freight rates have stopped production, the secretary said, adding that if the present situation continued production from the farms would be reduced materially.

GEN. PERSHING EXPECTED TO VISIT DEVENS

CAMP DEVENS, Aug. 19.—New England's first citizens' military training camp was yesterday subjected to a thorough inspection by a member of the general staff from Washington.

Col. H. G. Bishop was the general

staff officer who made the inspection. He was accompanied on his visit by Col. Marcellus G. Spinks and Col. Buchanan of the 1st corps area.

With Col. Frank C. Bolles, executive officer of the camp, Col. Bishop made a tour of the entire plant.

Col. Bishop declared himself pleased with all he had observed. While there was no official announcement to this effect, it is generally understood that Col. Bishop's visit is preliminary to that of Gen. Pershing. No date has yet been set for Pershing's arrival here and while it is understood that he will visit the C. M. T. C. at Plattsburg, N. Y., and this camp on the same trip, no one seems to know which camp he will take in first. He is expected to arrive within the next few days, however, and notice of his coming is almost hourly looked for.

Few of the students have ever seen the famous "Black Jack" and the prospect of being inspected, reviewed and addressed by him has filled many a lad with a veritable frenzy of energy and excitement. When he arrives he will find these New England youngsters ready for him.

LITTLE TALK ON THRIFT

American Society for Thrift
President Talks on Thrift in Schools

School days will soon be here again. With them will come renewed opportunities for imparting lessons of thrift in the minds and hearts of those who shall rule the destinies of the nation tomorrow.

It is gratifying that progress is being made in the development of teaching thrift in the schools, for greater attention is being given to this important fundamental of education than ever before. Until recent years those who practiced thrift did so very largely as a result of inherited instincts or through the encouragement given them by their parents. But we are finding out that thrift has a natural place in the school curriculum, and to some extent our youthful citizens are being given systematic instructions in the values of thrift practice.

Humanity's needs have shown that a practical understanding of thrift must be universal and accidental. It seems strange that the substantial principles of economy never have been taught in our schools. Washington, Franklin, Lincoln and many others of the nation's immortals counseled the teachings of this virtue. Washington said, "Economy means happy homes and sound nations; in still it deep." What he saw was that the happiness of the people of this nation really depends very largely on their practices of thrift, homely virtues. Lincoln's words on the subject are immortal. He said, "Teach economy—that is one of the first and highest virtues; it begins with saving money."

History's page ever has revealed that thrifty nations prosper and thriftery ones pass away, for thrift is but another way for economic self preservation.

The very life and destiny of America rests on widespread practices of thrift. If we are to fulfill our mission as a nation we must have thrifty homes and thrifty people. In these summer days when another school year, so rich with opportunity, lies ahead of us, let us place a true value on the importance of teaching thrift to the young, both for their future good and for the glory and up-building of our nation.

In the school room we see the face of tomorrow.

FRECKLE-FACE

Sun and Wind Bring Out Freckles, How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles, while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this strength is sold under guarantee of money back if it fails to remove freckles.—Adv.

TO GUARANTEE
A WORLD PEACE

Lloyd George Would Ally
United States, Britain and
Japan in Pacific Pact

Hopes for Triple Agreement
at Washington Disarmament Conference

LONDON, Aug. 15.—(By the Associated Press).—If the alliance with Japan could be merged into a greater understanding with Japan and the United States on all the problems of the Pacific, that would be a great event, and it would be a guarantee for the peace of the world.

Thus spoke David Lloyd George, the British prime minister, before the house of commons yesterday in outlining the work of the recent conference of the imperial premiers.

The premier was dealing specifically with the Anglo-Japanese alliance at the time, and explaining how the conference had unanimously recognized that Japan loyally had carried out her obligations to Great Britain during the war.

Mr. Lloyd George asked if it was to be suggested that Great Britain now should turn her back upon Japan with a mere "thank you" and "good-bye" after Japan's aid had proven one of the turning factors in the war, in that it had given protection to the transit of dominion and Indian troops across seas. Even countries disliking the Anglo-Japanese alliance would despise the British if after such services Great Britain turned her back upon Japan, he said.

The premier said he saw no reason why it should be impossible to remember obligations to Japan and at the same time preserve a spirit of fraternity with the United States.

It was a cardinal principle of British policy he said, that Great Britain should act in as complete accord with the United States as possible. He did not know of any country in the world with which it was more important to act in concert. He declared that the surest way to make success of the disarmament conference was first to reach an understanding on Pacific questions, and he hoped his view in this respect would be taken at the Washington gathering.

During his address Mr. Lloyd George revealed that the conference premier did not discuss the Irish question. He said there was no burning desire to touch upon that difficult matter.

The premier defended the action of Gen. Smuts, the South African premier, with regard to Ireland. He said that Gen. Smuts had acted honorably, and that everything he had done was done with the assent of the king and the ministry.

"The British empire," said the premier, "as a whole, is agreed in the desire for complete friendship with the United States and to make arrangements which would remove every conceivable prospective obstacle to such friendship."

"Nothing would please the British dominions more, as well as the mother country, than a settlement which would make them feel that the British empire and America could work side by side in a common partnership for the restoration of the peace of the world—world for guaranteeing the peace of the world."

"I do not know of anything to guarantee that which would be equal to Japan, America and the British empire in agreement upon the great principle on which world policy ought to be based. That would be absolutely a guarantee of the world's peace, and I still am hopeful that such an understanding as would establish a scheme of that kind will ensue as a result of the coming conference at Washington."

Sir Donald MacLean, leader of the Liberals, who followed the premier, expressed satisfaction at the premier's pronouncement and said he hoped Mr. Lloyd George would be able to take part in the Washington conference. He added that he was sure this was the wish of the country.

LAWRENCE TAX RATE

Drop of \$3.20 Per \$1000—

Rates in Other Massachusetts Cities Announced

LAWRENCE, Aug. 19.—The tax rate has been reduced \$3.20 on \$1000 from that of last year. The figure announced yesterday is \$26.80.

The total assessed valuation is \$197,559,455, an increase of \$2,900,000 over last year, due principally to new buildings, especially additions to mills.

Reduction in city appropriations also helped to lower the tax rate.

22-40 Cut at Wayland
WAYLAND, Aug. 19.—The assessors yesterday announced a cut of \$2.40 in the tax rate, making it \$18.30 for this year. The cut, they say, was made possible by a re-valuation.

Rehoboth Rate Advanced
TAUNTON, Aug. 19.—The board of assessors of Rehoboth have announced a tax rate for the present year as \$29.50 on \$1000, an increase of \$2.30 over the rate of \$27.20 for 1920.

Reverly Reports Increase
BEVERLY, Aug. 19.—The board of assessors of this town announced the tax rate yesterday afternoon. The new rate is \$32.50 per \$1000, an increase of \$1.00 over last year's rate. The total valuation was announced as \$12,516,625, an increase of \$12,010 over the preceding valuation.

Westfield Rate Reduced
WESTFIELD, Aug. 19.—A reduction of \$4.20 in the tax rate was announced by the assessors yesterday afternoon for the coming year. The new rate is \$26.50 as compared with \$30.70 a year ago.

Real estate valuations were increased \$1,421,310 to a total of \$13,691,110, and personal estate was increased \$273,650 to a figure of \$3,267,150.

Westfield is experiencing its first year of city government. Mayor Seales, for many years town clerk, promised a program of reduced taxes and increased valuations in his inaugural address. The mayor has to conserve the city's finances that the amount to be raised by taxation this year is approximately the same as that of a year ago.

Wine was made over 6000 years ago. The first bottles were made of skin. What became of the arms of Venus de Milo is still a mystery.

Fail to Locate Grover Bergdoll

BERNE, Aug. 19.—Agents of the American legation here and the Swiss police have been unable to locate Grover Bergdoll, the American draft evader, who was reported to have fled to Switzerland from Germany. The police have established that if Bergdoll actually did cross the Swiss frontier, he must have done so clandestinely and under an assumed name.

Russian Grand Opera for Chicago

CHICAGO, Aug. 19.—Grand opera in Russian, with a Russian cast, will be introduced to Chicago next winter, George M. Spangler, Mary Garden's business manager, announced today. Mr. Spangler also announced the revival of German operas next fall.

30,000 Pounds of Reindeer From Nome

SAN FRANCISCO, Aug. 19.—Shipment of thirty thousand pounds of dressed reindeer meat has been received in San Francisco from Nome, Alaska, by a firm of wholesale butchers here and was placed on sale today in retail shops, according to an announcement which said this marks the opening of a new industry.

61,859,900,000 Cigarets Made in U. S.

WASHINGTON, Aug. 19.—Cigarets numbering 61,859,900,000 were manufactured in the United States last year, the census bureau's annual tobacco report issued today shows. Of that number 15,834,000,000 were exported, leaving about 46,000,000,000 factory-made cigarettes for consumption in the United States. Cigarets manufactured 8,720,754,000 and tobacco manufactured, both smoking and snuff, totaled 413,591,000 pounds.

MERRIMACK MILLS CLOSED
The entire plant of the Merrimack Mfg. Co. shut down last night until Tuesday morning, September 6. In the early part of the week it was announced at the office of the company that the plant would operate until Saturday noon, but an eleven hour order from headquarters resulted in the plant shutting down last night.

ST. THERESE COUNCIL
A meeting of the members of St. Therese council, U. S. J. R. R. d. A. will be held this evening at the C. S. A. C. hall. It is expected that there will be a large attendance for delegates to the triennial convention of the union, which will be held at Lewiston, Me. next month, will be chosen.

Alexandro Gustave Eiffel, who in 1889 built the famous Eiffel tower, in Paris, recently gave an aerial tea in his apartment in the top of the tower.

LIGHTNING STUNS MAN

House Struck in Pawtucketville—Lowell Hit by Deluge of Rain

Lightning damaged the home of Thomas A. Judge, of Mt. Hope street, to the tune of \$500, stunning a man and tore bricks from the walls of the Waterhead mills, and played hob with telephones and electric light circuits throughout the city in yesterday afternoon's storm which suddenly sprang up about 4 o'clock, and which swept with torrents of rain, across Lowell.

The Locks and Canals company reported that within a period of less than 30 minutes rain fell to the extent of .791 inches.

At the judge residence apparently the bolt struck a wire clothesline and passed to the porch of the house. The garments attached to the line were singed, and the post clipped. The bolt entered the dwelling via the bath room, hewing its way through the plaster to the pantry, where metal kitchen utensils were demolished. The bolt striking in the bath room was flung through two doors, while the kitchen windows were all broken, and a clock which had occupied the mantel there mysteriously vanished. A window, with frame screen and blind, was torn off the house, the back wall of which was bent outward as by a Titan's hand. The windows, with its appointments, was discovered 12 feet away under a bush.

The house was without human occupants at the time the bolt landed. Mr. Judge was at work, and his wife was visiting at a neighbor's dwelling. The first person to reach the house after the crash was E. J. McCarthy, who felt the shock as he was busy in his shop, some five yards away.

At the Waterhead mills falling bricks from the northeast corner of the battlement signified the bolt. A worker in the dye house was thrown to the ground, but not injured.

Line fuses were blown out in Gor-

ham street, and both line and inside fuses were blown out in the subway section of Chelmsford. The lightning service in that town was temporarily disabled. Approximately 1000 telephone subscribers in Lowell had their connections put out of commission. The heavy electric charges filling the air rang the fire bells several times.

The storm had its agreeable features, however, effecting a 10 degree lowering of the thermometer, from 85 at 3 o'clock to 75 at 6 o'clock.

Partly uprooting an elm near the McManmon nurseries, the lightning split it from the ground up. The navy yard fire alarm was sounded by the electricity. The Centre truck responded, but found that the storm had "pulled" a false alarm.

LOWELL STORE WINS LOVING CUP CONTEST

In a sales contest conducted, between the six department stores of the J. H. Steel Co. in Lawrence, Lowell, Manchester, Concord, Haverhill and Nashua under the firm name of the F. E. Nelson Co. the Lowell store, under the management of F. E. Marcotte, won the contest by showing the greatest amount of increased business between April 15th and July 2nd.

The contest was conducted on a rather interesting basis similar to the way the winners are determined in a baseball league, adding points for each day the stores did more business than previous years, and deducting when they fell below.

Each and every employee of the F. E. Nelson company worked untiringly to make the grade ahead of the other contestants, and Mr. Marcotte feels that without the co-operation and the extra effort his clerks gave, he would have failed to be the leader. Another feature that he appreciates was the recognition given to the numerous sales run during the contest by the Lowell people.

The prize itself was well worth winning as it is a loving cup of solid silver standing over a foot high and mounted on a mahogany base with the manager's name engraved in old English letters on the side.

HELP FOR WORLD WAR VETERANS

The matter of relief for the World War veterans of this city who are out of work and in needy circumstances, was taken up at a recent meeting of the Lowell St. Vincent de Paul conference. In the course of

OUR FULL LINE OF VEGETABLES ARRIVED FRESH FROM THE FARM THIS MORNING

the meeting it was brought out that there are many veterans in this city, who are in need of assistance, some of them with families, and inasmuch as the society was formed for the purpose of lending a helping hand to worthy people, the following committee was appointed to investigate each and every case of veterans in need, brought to their attention and to report back to the conference so that steps may be taken to bring about relief.

Mumphy, O'Sullivan, Ephrem Felleiter and John J. Reilly.

CHILDREN PLAY AT FORT HILL PARK

This afternoon the girls of the City club again displayed a lively interest in community welfare when they took the children of the Twilight playgrounds on an informal outing to Fort Hill park. The two evening playgrounds situated on Charles and Moody streets have been operated all summer under the supervision of the club on these playgrounds are members of the Girls' city club who are experienced in welfare work, supervised play, and the teaching of modern games and dances. The outing this afternoon was a part of the program of the club which includes doing all in its power for the children of the city.

On arriving at the park the children were taken to see the zoo, conducted by the park department and then the rest of the afternoon was taken up with games and folk dancing. Late in the afternoon ice cream and cake were served to the children. Miss Alice Sullivan, director of the Girls' city club and member of the chamber of commerce committee on playgrounds, had general charge. She was assisted by Miss Edna Melton and Miss Helen Laitour, playground supervisors, and a group of City club girls.

KILLED BY OFFICERS

Moors Put to Death Because They Complained of Abuses in Philippines

MANILA, Aug. 19.—Charges that members of the Philippine constabulary are killing Moors in Mindanao Island because they complained of abuses to the Wood-Forbes mission are contained in a telegram received by Charles E. Yeater, acting-governor of the Philippines, from E. S. Lyon, an American oil prospector in Mindanao. Briggen Rafael Crame, commanding the constabulary, has ordered an investigation and Mr. Yeater has referred the matter to General Wood.

TUBERCULAR CATTLE TO BE SLAIN IN CONN.

HARTFORD, Conn., Aug. 19.—Group quarantine of tubercular cattle will be abolished in Connecticut, and all cows condemned will be slain, James M. Whittlessey, commissioner of domestic animals, announced yesterday. The assembly appropriated \$140,000 for eradication of bovine tuberculosis beginning with July 1. The commissioner says that diseased cattle breed and pass on the disease, and that it is folly to attempt to cure cows placed in quarantine. He also says that no milk from a cow showing tuberculosis should be used for human consumption whether pasteurized or not.

The Hartford board of health has endorsed Commissioner Whittlessey's attitude.

Geologists have found the remains of a huge prehistoric animal in Manitoba. The bones measure 40 feet in length.

Reduce Those Dangerous Swollen Veins

Physicians are prescribing and hospitals are using a new and harmless, yet powerful germicide that not only cures varicose veins and blemishes to become normal, but also reduces swollen, enlarged glands and veins.

Ask any first class druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and refuse to accept anything less. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if this wonderful discovery does not produce the results anticipated, you can have the price refunded.

It is not wise for anyone to allow swollen veins to keep on enlarging. Often they burst and cause weeks of pain, suffering and loss of employment. Start the Emerald Oil treatment as directed, advise and improvement will begin at once. Generous sample on receipt of 15 cents, silver or stamps. International Laboratories, Rochester, N. Y. Your druggist or Fred Howard can supply you.—Adv.

Final Terms, Says Premier

Continued.

very disquieting statements have been made, and even a few disquieting facts, we are bound as government to take thought of all positions, however unpleasant they may be.

"The first is the possibility of an agreement, in which case the details will have to be thrashed out, which will take time. There is always apt to be an atmosphere of suspicion surrounding relations between two countries—a suggestion of bad faith if there is a misunderstanding on the slightest particular."

Delay Disastrous Once

It would thus be the duty, of the executive, said the prime minister, to place a bill embodying the details and principles before the parliament for immediate action, because delay was disastrous once an agreement was reached.

"I wish it was not necessary to deal with the other continent, but we are bound to take notice of certain things which have been said. This contingency that our terms are rejected."

"We are thus unfortunate to have the relations between these islands whose history has been so full of such unfortunate incidents we would be faced with a graver situation in regard to Ireland than that which we have been confronted with."

What Has Been Accomplished

"Whatever these terms may accomplish and may have done, there is one thing they have achieved. They have defined the issues more clearly than ever before and rejection would be a unanimous challenge to the authority of the crown and the state could possibly pass that over without notice."

"I am using no language of menace. That would be indeed folly. Where there are so many existing difficulties to use threatening language would be to aggravate old difficulties and create new ones."

"If there is rejection, and final rejection beyond hope of negotiation, steps will undoubtedly have to be taken which the executive ought not and won't wish to take without first consulting parliament and giving it full opportunity of expressing approval or disapproval of any steps we might propose to it."

The premier explained that the motion to adjourn was for the house to meet Oct. 18 for formal prorogation if the negotiations were proceeding satisfactorily. If the negotiations fell down and the position became hopeless, he added, the speaker was empowered, after consultation with the government, to summon parliament on 48-hours' notice.

The executive, said the prime minister, would feel authorized to take any necessary urgency measures but would not, therefore, delay the summoning of parliament.

Hoos Irish Leaders Yield

In concluding, Mr. Lloyd George said:

"The government are sincerely desirous that peace should be secured and that the long misunderstandings, sometimes, silly, sometimes savage, which make so many chapters of British history painful readings, misunderstandings between these two peoples who ought to live in peace and harmony, even in affection, together, should be brought to an end."

"In spite of the disquieting facts, I hope reason will prevail even over logic, and that the Irish leaders will not reject the first measures of freedom ever offered their country and take the responsibility of renewing a conflict which would be robbed of all glory and all gratitude by its overshadowing horror."

Limit, Says Curzon

LONDON, Aug. 19.—(By the Associated Press)—Lord Curzon, secretary for foreign affairs, speaking in the house of lords today on the Irish negotiations, said the government had offered all that could be given without compromising the safety of the realm, the sovereignty of the crown and the dignity of the empire.

No Meeting of Dail

LONDON, Aug. 19.—The Irish to-

publican parliament, which has been in session in Dublin and has apparently laid the ground for consideration of the British offer of dominion status, did not plan to meet today. Announcement was made yesterday at Dublin that today would be devoted to committee meetings, and that it was believed formal debate on the British peace proposals might begin tomorrow.

Watching London

DUBLIN, Aug. 19.—(By the Associated Press)—The leaders of the Sinn Fein today were centering their attention on London, awaiting the expression of the Irish negotiations by Premier Lloyd George in the house of commons and the government's reply in the house of lords to the recent invitation by the Marquis of Salisbury for an official outing on this subject. Meanwhile the rank and file of the deputies were engaged in committee work in consideration of Irish international affairs.

Possibilities of Delay

The fact that the Dail put off discussion of the reply to the British smoothed over.

Minor Clash in Cork

The danger that exists of possible incidents while the negotiations are being prolonged was again called to attention today by the reports from Cork on happenings of last night there. Two "black and tans" who were out on a lark commandeered an automobile belonging to the Irish republican army. Members of the republican army retaliated by kidnapping a divisional inspector of police, and it took all the diplomacy of the British officers to get the affair smoothed over.

One Day Strike of Farmhands

ARLINGTON, Aug. 19.—A one day strike of farm hands employed by Wyman Brothers, market gardeners of this town, ended in a compromise today. About 50 men and women quit yesterday as a protest against a reduction in wages of \$2 per week. At a conference today a cut of \$1 was agreed to and the farm hands immediately returned to work.

Mlle. Lenglen Unable
TO PLAY IN TOURNEY

BOSTON, Aug. 19.—Suzanne Lenglen, the French tennis star whose formal entry for the national mixed doubles tournament was filed here last week, was received yesterday by officials of the Longwood Cricket Club, sent word today that she would not be able to participate in the tournament.

A message received by Edwin Sheat, president of the Longwood club and local representative of the United States Lawn Tennis Association, said Mlle. Lenglen's physicians had forbidden her to play in the tournament. She had been entered as a partner of William M. Johnston of California.

Mr. Sheat said he was endeavoring to arrange for Mlle. Lenglen to appear in an exhibition match at the Longwood club on Aug. 29.

CHINESE NATIONALISTS
IN PROTEST TO HARDING

HARTFORD, Conn., Aug. 19.—A petition was forwarded to President Harding last night by the Connecticut branch of the Chinese nationalist party, asking that the invitation to the disarmament conference be withdrawn from the "reactionary" Chinese government at Peking, and the invitation be sent instead to "the constitutional government of which Dr. Sun Yat Sen is the president." Copies of the petition also went to Secretary Hughes, Senator Lodge and Speaker Gillette.

The nationalist party has its headquarters in this city.

SUES DIRECTORS
FOR \$5,000,000

Bank Commissioner Charges
Cosmopolitan Trust Officers
With Gross Negligence

Action Brought in the Supreme Judicial Court
Causes Sensation

BOSTON, Aug. 19.—The bombshell thus far exploded by the Massachusetts bank commissioner in connection with the trust companies that he has closed in this city during the past year, came yesterday, when the bank commissioner, Joseph C. Allen, filed a suit in equity in the supreme judicial court against the officers and directors of the Cosmopolitan Trust company.

He places the ad damnum at \$5,000,000. Specifications in the bill of complaint allege that the losses incurred in the conduct of the business of the bank are in excess of \$1,764,155.47.

Gross and repeated negligence in making loans and investments, "repeated violations of banking laws for trust companies, both in the commercial and savings departments," the commissioner says, have resulted in these losses, which he now sues to recover by action.

The suit will be heard in the civil session of the supreme court. The attorney for the state will be Frank N. May of the law firm of Bates, May, Abbott & Dana.

The commissioner has been hard at work on the case for the past three months.

Directors Sued

The directors against whom the suit is brought are Max Mitchell, Patrick J. Bergin, Rocco Brindisi, Edward C. Donnelly, Michael J. Jordan, Patrick F. O'Keefe, Raymond H. Oveson, Benjamin A. Prager and Simon Vorenberg, all of Boston; Silas Pease, Brookline; Gabrielle Stabile, Somerville; Patrick B. Magrane, Lynn, and Hiram J. Potter, Brookline.

Bank Commissioner Allen says the directors "did not exercise due diligence in the matter of making investments of the plaintiff company's money and in lending funds of the plaintiff company."

"That they were guilty of gross and repeated negligence both as regards said investments and loans."

"That they repeatedly violated the laws concerning investment of the funds of trust companies and concerning the lending of funds of trust companies, both in the general or commercial department of the plaintiff company, and in the savings department, violating repeatedly in both departments the special laws concerning loans and investments in such departments."

Large Losses Resulted

That the negligence and carelessness of the several defendants in negligently and recklessly lending the funds of the plaintiff company, and in negligently making investments therein, resulted in very large losses to the

GERMAN-AMERICAN PACT

Chancellor Wirth Seeks Support of all Factions for His Plans to Negotiate

BERLIN, Aug. 19.—Chancellor Wirth is endeavoring to secure the support of all political factions represented in

the Reichstag for his plans looking to the negotiation of a treaty of peace with the United States. Conferences of an important nature have been held during the past few days, the one of Tuesday being especially important.

At this session Count Von Bernstorff, former German ambassador at Washington, was present as spokesman for the democratic party.

It is declared that the chancellor's efforts are being directed against the opening of a general debate on the treaty in the reichstag, and it is asserted that, unless he succeeds in obtaining a "gentleman's agreement" with the reichstag factions before ratification of the treaty is considered in plenary session, the debate may result itself into a session of bitter wrangling.

Fears are expressed that the German-American diplomacy and the maritime policy which brought about American intervention in the war will again be dragged forth by those who seek to exploit them for partisan purposes. It is for the purpose of obviating such a situation that Chancellor Wirth is laboring to obtain an agreement by all parties which will result in minimizing, if not wholly eliminating debate in the plenary session.

SHARK HUNTING AFFORDS

LOTS OF THRILLS

(Special Correspondence.)

HONOLULU, Hawaii, August 1.—Thrills occasioned by riding the surf in outrigger canoes or on native surf boards, or standing on the rim of the continuously active volcano of Kilauea and gazing down into the roaring, seething sea of molten lava, have an active rival in the keen excitement that accompanies the hunting of the shark in the waters outside the coral reef that encircles the island of Oahu.

Newspaper men who are coming to Honolulu in October as delegates to the Press Congress of the World will find that shark hunting goes hand in hand with other sports, and although intensely exciting, it is no way dangerous. The shark hunters go to sea in a launch or sampán which tows a dead white horse. When the fishing grounds are reached, the boat begins to circle about, and soon the fins of sharks may be seen cutting through the water.

If one is an expert, he may harpoon a shark as it turns over to strike, or he may try his luck with a high-powered rifle. The shark is a furious fighter and, once harpooned or caught with hook and line, displays amazing strength. But he finally tires and is gradually hauled aboard and then dispatched.

There are few Hawaiians living today who care to meet a shark in the open water and fight him as his ancestors did. In the olden days a Hawaiian armed himself with a hard, wooden double-pointed javelin about 18 inches long, and with the center portion large enough to permit a good grip. He then let himself down into the water. As the shark approached and turned over to strike, its great jaws open to their full width, the Hawaiian, with a quick movement, thrust the javelin between the jaws, one point penetrating the roof of the mouth and the other the lower jaw. The shark, thus unable to close his mouth, and helpless, was either speared or allowed to swim away as the Hawaiian chose.

There were some daring fishermen who would attack a shark single-handed, armed only with a short dagger or spear, and depending upon his ability in the water to avoid the monster until the time came to strike.

IMMIGRANTS WELCOMED TO ARGENTINA

BUENOS AIRES, Aug. 12.—While the United States is decreasing the number of immigrants admitted into the country, Argentina, with thousands of fertile acres that have never felt a plow, is welcoming them with open arms, and is even feeding and lodging them while helping them to find employment.

After settling foot in Argentina the immigrant is welcomed into a spotless, comfortable hotel where, in addition to being supplied free of charge with every personal necessity and convenience he is taught by means of motion pictures and lectures something of the new land in which he is to make his home and is aided, when possible, to find employment. On deciding upon his destination within the country, the immigrant is supplied with free transportation to that place.

While the majority of immigrants arriving in the country are Spaniards and Italians, Germans are now arriving together with some from other countries. Although the Germans come here third class on account of the low value of the mark, many of them are skilled workers and even professional men. They bring with them quantities of machinery and equipment with which to start their new life.

THREW LIGHT ON DANGEROUS SUBJECT

Last evening at about 9:45 o'clock a man from Rumford, Maine, struck a match to peer into the gasoline tank of his automobile, and a few moments later a section of the fire department was streaking in his direction. Happily the flames were extinguished before any great damage had been done. The accident took place near the corner of Lakewood avenue and Lakewood street where the stranger had stopped his machine in order to determine how much gas he had on tap.

ONE LITTLE BLEMISH Will Mar Your Beauty

No matter how perfect the features or how prettily groomed, if your complexion is marred by a pimple or ugly blemish, you cannot possess complete beauty.

Little facial blemishes can be easily removed by the use of Black and White Beauty Bleach.

This delightful, flesh-tinted cream forms an invisible coating which will clear the skin of tan, freckles, pimples, unsightly blotches, liver spots and similar blemishes.

Black and White Soap should be used in connection with Beauty Bleach. It is a pure soap and a delightful aid in keeping the skin clear, soft and youthful.

Black and White Beauty Bleach can be found at your drug or department store; Bleach 50c the package, Soap 25c the cake. Free literature and samples of Black and White Face Powder and Toilet Soap sent upon request to R. H. Murray, Plough Chemical Co., Memphis, Tenn.

COLONY OF AMERICAN FARMERS IN PERU

LIMA, Peru, Aug. 15.—A group of American farmers, comprising the advance guard of a colonization scheme said to involve more than 200 families from the western United States, arrived here recently enroute to the Pampa del Sacramento valley along the eastern head waters of the Amazon river, in northern Peru, where the colony is to be established.

The party is in charge of J. B. Schoenfeld, of Oklahoma, Okla., formerly United States Indian agent for Oklahoma territory, who obtained, for colonization purposes, a grant of 650,000 acres of agricultural and forestry lands from the Peruvian government last October.

After the preliminary location of the lands in the concession is completed, it is planned to bring the remaining colonists, numbering about 300, to the settlement via Para, Brazil, and the Amazon and Ucayali rivers. The former is navigable from its mouth on the Atlantic ocean to Iquitos, Peru, about 2000 miles.

In an interview published in the West Coast Leader, Mr. Schoenfeld said that, owing to drought and crop failure, a number of farmers in the central west had expressed their desire to seek more fertile and profitable fields.

"I decided to look over South America," he said, "since most of the American government's desirable vacant lands, that could be obtained at a low price, have been allotted to foreign immigrants. The colonists, who are chiefly from the west, are farmers of some means and they can secure their farms at a cost of a few cents per acre simple to their lands, as soon as 200 families have been settled on the concession."

About half of the tract, according to Mr. Schoenfeld, consists of grassy plains, rolling hill land and valley. The remainder has forests. The land is said to be suitable for producing all kinds of agricultural products, especially sugar, cacao, cotton, jute, indigo and tobacco. The farms will be divided into tracts of from 500 to 5000 acres with an average of about 1000 acres for each family.

RELIEF CORPS MEETING

One candidate was initiated and several applications for membership were received at last evening's regular meeting of James A. Garfield Relief Corps, 33, which was held in Post 123, G.A.R. hall with Mrs. Elvira Giles in the chair. Routine business was transacted and it was voted to hold a fair on Thursday, Sept. 23.

SCHOOL FIRE ALARMS

The fire department has plans under way for the installation of private alarm boxes in all the local grammar schools. One has already been put in place in the Morley school and another is now being put in the Vietnam school. The boxes will be used only in case of fire in the school itself, the idea being to prevent delay in summoning the department.

Clocks regulated and operated by water power are common in China.

PETRIE WILL TAKE THE NIGHT DESK

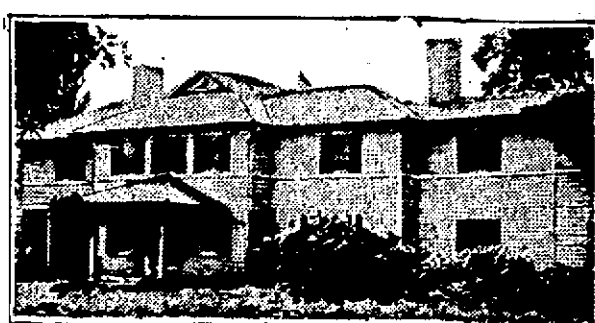

Capt. David Petrie, who was yesterday promoted from the rank of lieutenant in the local police department by Mayor Thompson, will assume charge of the night desk at police headquarters next Monday. He will succeed Capt. Thomas Atkinson, who will fill the position of day captain left vacant by the death of Capt. James Brosnan.

MAYOR SPEAKER AT FLAG RAISING

Mayor Thompson of this city was one of the speakers at flag raising exercises at Ocean Park, Me. Tuesday afternoon. His Honor was motoring with his wife and daughter and stopped at the park for dinner. He was quickly recognized by a number of Lowell people and although he had less than two hours' notice the mayor agreed to speak briefly at the exercises planned for the afternoon. Those who heard him say that his effort was one of the most entertaining of his career. His address was roundly applauded by the members of the summer colony. The mayor spent much of his boyhood at Ocean Park and was therefore able to speak of it with more or less familiarity.

Ammonia water and soap is one of the best cleansers of jewelry.

RETREAT FOR TIRED CONGRESSMEN?

Hard-working congressmen plan to convert this farm house, 12 miles from the capitol, into a recreation club. Representatives Lühring and Cole "discovered" it.

THE PLAY FOR NATIONAL TITLE

The opening game in the women's national championship tennis tournament at Forest Hills, L. I. Mrs. Molla Bjurstedt Mallory, in the foreground, defeated Mrs. Marion Zinderstein Jessup, of Boston, in straight sets before a packed gallery.

GRAND CIRCUIT RACES

Millie Irwin, Maine Mare,
Gets Away With the
2.05 Trot

PHILADELPHIA, Aug. 19.—The Maine mare, Millie Irwin, driven by W. R. Fleming, started at the Grand Circuit races at Belmont park yesterday, where racing was resumed after a day's postponement on account of rain. In a hard-fought split-heat race she won the \$2500 stake for 2.05 trotters, beating such stars as Sister Bertha and S. Colorado over a track still slow from the rain of yesterday.

The unbeaten Sillidar, from the Murphy stable, kept his record clean by beating the 3-year-old trotters, although he lost the final heat, the first time he has been headed a heat this season. All of the races went to split heats, the 2.13 trot requiring four to reach a decision.

S. Colorado was a 4 to 5 choice for the 1.55 trot. Sillidar led the race in the first heat, trailed by the Cox mount, E. Colorado taking the lead at the head of the stretch, but Millie Irwin came fast on the outside and won in a close finish. Millie set the pace in the second and held it until close to the wire, Sister Bertha making a rush in the last few yards and getting the decision. Millie Irwin led all the way in the final heat, beating Sister Bertha a length.

Sillidar and Lee Tide were the choices for the colt race. Sillidar led all the way in the first two heats but broke at the seven-eighths in the third and Sillidar beat Lee Tide in a hustling finish. King Harvester was best liked in the 2.13 trot and won the first heat, and then broke and Brusloff annexed one. Bertha came fast in the stretch and won the third. The three heat winners raced it off, King Harvester leading to the stretch in slow time, then Bertha came on and won.

Grace Hale made the early pace in the dash race, but tired in the stretch and the Hillandale farm colt, Finvarra, came on and won. Three of the four money winners in this event are three-year-olds.

Secretary Gocher of the National Trotting association arranged a match race between the champion trotter Peter Manning, purse \$5000, to be raced on Sept. 6, during the Grand Circuit meeting at Hartford. The money is to be divided 60 per cent. to the winner and 40 to the loser.

PIRATES HAVE FIRM GRIP ON FIRST PLACE

NEW YORK, Aug. 19.—Pittsburgh today has a firm grip on first place in the National league. Winning two games from Philadelphia yesterday, while New York lost to Cincinnati, the Pirates now hold a lead of 51 points over the Giants.

If Pittsburgh does no better than to break even in 12 games remaining in its schedule, New York must win 25 of its 39 games to tie the pace makers.

CLUBS WITH SPURT WILL COP FLAGS

By DEAN SNYDER

In a close race the runner with the extra spurt wins.

Charley Paddock, fastest runner, throws himself at the tape and wins.

Jole Ray, best miler, spurs on the stretch.

Man o' War could finish like a streak.

Pennant races this year will be won by the clubs that spurt.

In the American league Cleveland and New York are saw-sawing back and forth from the inside rail with Washington a length back.

In the National, Pittsburgh is half a length ahead of New York and Boston is coming on as a possible dark horse.

The clubs with strength to throw themselves at the tape like Paddock—to spurt like Ray, or to thunder down the stretch like Man o' War, will win the pennants.

DIPOSITE

Abe Mitchell and George Duncan, visiting English golf stars, are diametrically opposite in appearance and in their golf mannerisms.

Duncan, the Scot, bristles with pep. Mitchell, the decidedly English type, is a keen, aloof, silent man.

Duncan seems to always be in a hurry on the links. Mitchell takes his own good time.

Duncan doesn't seem to concentrate. Mitchell looks over everything carefully.

CONTROL

Jack Watson, iron man of the Boston Braves, is a "mean" ball server.

That is, he has a pitch which a batter calls a "good ball" to hit at.

Gifted with marvelous control, he pitches to the batter's weakness every time he shoots off his artillery.

He is a low-server most of the time. His head is as cool as his arm is consistent.

COLOR

Coach Robert Zupps figures out football a little finer every year.

This year he had a little talk with the Illinois psychologists and found out that orange-colored jerseys sold better results than blue.

Accordingly, the traditional blue of the Illinois team was changed to the more efficient orange this fall.

Zupps' color scheme is the first colorful football story that's come out so far this year.

Look how confident Mrs. Molla Bjurstedt Mallory looks in the picture on the left. That was just before her match with Suzanne Lenglen for the tennis championship of America. The center picture shows Suzanne on the arm of a tennis official and in tears, as she defaulted the match after Molla had won the first set 6-2 and the first two points of the second set. On the right is Molla leaving the courts, dissatisfied at the outcome of the match. She wanted to beat Suzanne even more decisively because the French champion had beaten her in Europe and had said that Molla had not even furnished stiff opposition.

JAPANESE TENNIS STARS CONFIDENT OF VICTORY

LAKE FOREST, Ill., Aug. 19.—Needling only one more match to bring them to the Davis cup semi-final round clash of the 1921 Davis cup series against India, Japanese tennis experts went on the grass courts at the Onwensia club here this afternoon for the match which may decide the triumph. The Indian double team, which is supposed to embody the chief strength of the British colonial squad, was no less determined.

Ichiji Kumagae, captain of the Japanese, and Zenzou Shimidzu composed the team which was arrayed against Dr. A. H. Fyze and L. S. Deane of India.

Fyze and Deane have been playing doubles as a combination for years, in contrast to the recent pairing of Kumagae and Shimidzu which occurred last month upon Shimidzu's arrival in the United States.

In the two singles matches which launched the Japan-India series yesterday, the Japanese swept the day, Kumagae winning from Mahomed Shrivastava, 6-2, 6-1, 6-1.

In a match which crammed more exciting tennis into the last set than played in all other five sets of the day.

THE HITCHED AND THE UNHITCHED

The result of the baseball game between the married and unmarried men at the annual outing of the employees of the Prudential Life Insurance Co. held at Canobie Lake park yesterday, was a victory for the unmarried men, who were captained by E. J. McCabe, who scored 19 to 10.

Going to the fact that after all the married men were recruited, there were two vacancies on the team, Miss Gladys Lorman and Miss Emma Fitzgerald were "sworn" in and their playing was excellent, for they were responsible for the two runs that were scored by their team.

The married men were captained by Joseph Parmentier, assistant superintendent of the company, and their excuse for being defeated was that they were out of practice.

The battery for the married men consisted of Parmentier and McCarrone. McCabe occupied the box for the unmarried men, while Mitchell was behind the bat. The umpire was Supt. N. J. Bennett.

Because of the storm there were but three other sporting events carried out and the result was as follows: 100-yard dash for men, A. Bernard; 100-yard dash for women, Miss Lorman; shot put for ladies, Miss Madeline McCarrone. The committee in charge of the outing consisted of Joseph Parmentier and E. J. McCabe.

CUBS BUY THREE PLAYERS

SPRINGFIELD, Mo., Aug. 19.—Sale of Lou Collier, first baseman, Joe Klugman, second baseman, and Art Weiss, infielder, to the Chicago team of the National league was announced here today. Klugman led the club in fielding the first half of the season and was one of the leading hitters of the circuit.

AMATEUR BASEBALL

The Merchants will play the Drac All Stars Sunday on the South common at 2:30.

The Young Rowers of West Centralville would like to play the Lincoln All Stars on the South common. Two 35c balls each side. The lineup is as follows: F. Perrault, c; A. Pollard, p; H. Palford, 1b; E. Chamberlain, ss; E. Vanlet, 2b; Milton, 3b; J. Down, lf; E. Hanson, cf; H. Chervert, r. To answer this challenge please answer through the paper. Signed Ernest Perrault.

WHITE SOX CAN TWO

CHICAGO, Aug. 19.—Pitcher Davenport, who came to the White Sox from the University of Arizona, and infielder Ostergard today were released to the Sioux City club of the Western league under optional recall agreements.

WHITE SOX SIGN RUSSELL

CHICAGO, Aug. 19.—A. A. "Lefty" Russell, a tall right pitcher of the Sioux City club of the Western league, has been purchased by the Chicago White Sox. He is scheduled to report to Manager Gleason tomorrow.

STANLEY JOINS SPRINGFIELD

SPRINGFIELD, N. H., Aug. 19.—William Stanley, shortstop of a local semi-professional team, has been signed by the Springfield club of the Eastern league, and will report today. Stanley played on the varsity nine at St. Anselme's college and at the University of Maine while in college, and for three years has played semi-pro ball throughout the state.

REFORM BUREAU LOSES ANOTHER ROUND

OCEAN GROVE, N. J., Aug. 19.—The first of a series of rallies designed to aid in the bringing about the repeal of the Hurley act, permitting boxing bouts in New Jersey, was held here today by the International reform bureau.

The bureau, which has been trying to cause punishment of Jack Dempsey, Georges Carpentier, Tex Rickard and everybody else that had anything to do with the big fight of July 2.

Another round yesterday when Common Pleas Judge Dougherty, of Hudson county, refused to issue warrants for the fighters, their managers and Rickard, sought under an anti-prize fighting act of the legislature passed in 1919.

"If I should issue such warrants," said the judge, "I would have to take Dempsey by the hand and march to jail with him. Judge Blair of this court and myself attended the fight together. We could be arrested for aiding and abetting in the promotion of the fight if I took this course."

Judge Dougherty ruled that the 1919 act had been superseded by the Hurley act. He told the bureau representatives he wouldn't be inclined to issue warrants if complaints were filed under the Hurley act, saying he thought the matter should be submitted to a grand jury.

GAME TOMORROW AT SPALDING PARK

One of the best ball games of the season is promised local fans tomorrow afternoon at Spalding park where Manager "Vic" Coughlin's strong Knights of Columbus team will meet the Pere Marquette council team of Boston.

It will be remembered that when these two clubs met earlier in the season a brilliant struggle resulted with Lowell on the losing end after a hard fight. However, Manager Coughlin will have Jimmy Davidson, his pitching mainstay, on the mound tomorrow and believes that he will be able to even matters.

On the hit for the Boston outfit will be McCort, the 18-year-old phenomenal twirler, who has had a most successful season this year. The usual strong Franco-American team will support him.

It looks like a warmly fought contest from the drop of the bat. The game will be called promptly at 3:15 and there will be special car service to the grounds.

BROADWAYS AND C. M. A. C. TO PLAY

The series starting tomorrow between Broadways and C. M. A. C. should be a rare treat for all baseball fans in the city as both clubs have some of the best players of the Twilight league in their lineups.

C. M. A. C. have the following players to pick from: Warren, White, Dillon, Hobson, Wheeler, Luckley, McMahon, Crowe, Jenkins, Brown, Pare, Marotte and Hubert, while the Broadways, Bob Gamley, manager, also have some lineup in Desmond Freeman, Miles, Sturtevant, Connors, Gath, Williams, McPherson, Bridgeford, Farrell, Adams and McCarthy.

THE TEST OF TWO CITIES

Lowell and Lawrence Will Fight for Twilight Inter-city Championship

The Macintyre Apparel company has donated a big cup to be awarded to the winner of the three game series for the Twilight inter-city championship to be played between Lowell and Lawrence. The three game battle is to be between the Centralville champions of this city, and the Lawrence K. C. C., which has succeeded in annexing the pennant in the Twilight league in that city. Although complete arrangements have not yet been made, it is probable that the first game of the series will be played a week from tomorrow at Spalding park. The second will be played in Lawrence, the scene of the third game to be determined by the flip of a coin. Lowell and Lawrence have always been friendly but keen rivals in every branch of sport and the coming series will undoubtedly arouse a lot of enthusiasm in both cities. Both teams will represent the best baseball material in their respective cities and every true fan will want to see the big battles as they take place.

"DONIE" BUSH TO JOIN WASHINGTON

ST. LOUIS, Aug. 19.—"Donie" Bush, for 13 years a mainstay in the Detroit infield, will go to Washington by the wolver route, Dan Johnson, president of the American league, announced here yesterday.

New York also wanted Bush, but the Senators stopped the draw. President Johnson stopped over here en route from Chicago to Excelsior Springs, Mo.

DETROIT, Aug. 19.—"Donie" Bush, former Detroit shortstop, will join the Senators in Chicago Saturday, he said last night.

GAME ON COMMON

Boston and Maine All Stars will play the Concord, N. H., Twilight league team this afternoon on the South common at 5 o'clock. White and Hubert will be the battery of the All Stars. All players are requested to report at the South common at 4:30.

"Petit Georges" Rules as Immaculate Dude at Dieppe

By MILTON BRONNER

DIEPPE, France, Aug. 19.—"Petit Georges" Carpentier, as his pretty wife endearingly calls the French pugilist, is the leading citizen, the prime attraction, and the immaculate dude of this famous watering place.

With his wife and baby Jacqueline, and his famous dog, he occupies a villa near here which has been named "Georges-et-Georgette."

Every morning about 10 he may be seen strolling down Dieppe's equivalent of a boardwalk, an attractive figure in Panama hat, blue serge coat, immaculate white flannel trousers and white sport shoes.

The pretty woman, with the chestnut hair and blue eyes, who clings fondly to his arm, is Mme. Carpentier.

A few minutes later there is another Carpentier—Carpentier, the water-dog. Mme. Carpentier, in black satin bathing costume and green cap, also goes out for a ducking by "Petit Georges" and then paddles in the water.

Then at night there is revealed still another Carpentier. The Hotel Metropole has a real jazz band with some real American negroes, who know how to make the banjo and the drums talk dance music.

"Here comes the Carpentiers!" Oh boy! You'd never guess he swooped punches with Dempsey. In his dinner jacket he looks as if he might have stepped out of the illustration for some society novel. There is not a mark of his recent battle with Dempsey.

His eyes are as clear and his teeth as white and even as those of a freshman in a Lake-country college. And there is a whole crowd of nice French and English girls, who have met him who dance with him—because Mrs. Carpentier isn't a bit jealous.

"I am down here with my wife and baby to have a good time," he says. "And you can take it from me, we are going to have it."

After that—Tommy Gibbons.

WOMAN'S NATIONAL TENNIS CHAMPIONSHIP

FOREST HILLS, N. Y., Aug. 19.—The semi-final struggle for the women's national tennis championship was scheduled for today on the courts of the West Side club.

Miss Mary K. Browne of Santa Monica, Calif., a former title holder, was bracketed with Mrs. W. C. V. Hitchens, Mexico City star, for a 2 o'clock match. Mrs. May Sutton Hardy of Los Angeles, also a former champion, was to meet Mrs. Molla Bjurstedt Mallory.

SAYS AUTO VICE AGENT WOMEN FRAME DEMANDS

Speakers Declare More Girls Ruined by Gasoline Than by Champagne

DURHAM, N. H., Aug. 19.—Vice is just as easy to find in the country as it is in the city, and it costs less. More girls have been ruined by a gallon of gasoline than by a quart of champagne. The flapper ranks with the saloon as an agency for the corruption of morals, and the country lane provides a primrose path that rivals the bright lights of the metropolis. These are a few of the conclusions arrived at by educators, social workers, physicians and farmers' wives, who met yesterday at the home-makers' sessions of farmers and home-makers' week at the New Hampshire state college here.

The discussion which followed a list of scheduled speeches not only brought out the above assertions, but provided an opportunity for an attack upon rural ministers by Dean A. N. French of the arts and science division of the college. Dean French declared that it was about time the people of the various rural communities began educating their ministers to a sense of their moral responsibilities.

He referred particularly to the apparent willingness of many ministers to marry divorced couples, and characterized such action as one of the crimes of civilization.

His remarks aroused the ire of several ministers' wives who were in the audience and a red hot argument followed. "My husband has never married a divorced couple," cried one woman. "You shouldn't include all ministers in that category."

Canadian and American

Women to Present Demands to Pres. Harding

NIAGARA FALLS, N. Y., Aug. 19.—That Canada and the United States have exhibited peace more than any other country, that together they can hold the peace of the world, and that more can be accomplished in federating North and South America than by reaching out to Europe was the statement of Mrs. Christine Ross Barker of Toronto, member of the Women's Peace society, at the opening session of the conference on international disarmament at the Clifton hotel, Niagara Falls, Ont., today.

Representatives of various women's organizations from this country and Canada are attending the conference, the purpose of which is to formulate joint demands, as women of two countries, for presentation to President Harding at the coming international peace conference, and to form an international committee of women to hold a session in Washington during the conference.

Miss Elmore Brynes, acting president of the Women's Peace society, is presiding.

"The underlying principle of the Women's Peace society," Miss Brynes said today, "is a belief in the sacredness and inviolability of human life under all circumstances. It is this ideal that will form the keynote of the conference."

Appeals to Wareham Folk

Continued
wealth would be extended to punish those guilty of so atrocious a crime. The governor's appeal follows:

"To the Men and Women of Wareham: The whole commonwealth is shocked beyond measure by the reported treatment towards a respected citizen. Every good citizen will insist that those who have committed such barbarous outrages shall be brought to justice. The whole power of the commonwealth will be extended to apprehend and punish those who are guilty of such an atrocious crime. It cannot be, however, that any man or group of men shall be permitted to take the law into their own hands."

"The eyes of the nation have recently turned to Plymouth, your neighboring town, as the president of the United States paid his tribute to those sturdy and brave men who established the liberty under ordered government. The nation has rejoiced with us of Massachusetts in our great heritage. Let us of today be worthy inheritors of a glorious past. Let us in spite of outraged feelings remember our duty to uphold the law."

Let the older citizens teach the younger. Let the reason rule. Let not the fair name of Wareham be stained by the act of an angry mob. However deep our sympathy for the innocent victim of despicable savagery, let it still be to the honor and glory of the good people of Massachusetts that they have confidence in their court, that they believe in orderly proceedings."

Prisoners' Cage Empty

Continued
announced by the liquor squad, and the town apparently was in millennial calm.

Not only heathen violations of the law were missing, but there were practically no other infractions of justice reported. One hold-over drunkenness case was filed, and a man charged with non-support was ordered to pay his wife \$5 a week to keep a roof over her head. After about three minutes on the bench, Judge Earle retired and the spectators departed without enjoying the customary bustle and excitement of the precincts of justice.

Juvenile Court
Two sentences to the Lyman school for boys were imposed this morning by Judge Thomas J. Earle. In one case the boy was already under a suspended sentence to the institution, and the suspension was revoked. The cases of John Pabblano and Dominick Giordano, arrested by Officer Owen Conway after they had been another youngster and taken his bicycle from him, had their cases put over to August 28, bonds being fixed at \$300 each. It is understood that both youthful defendants have records.

It has been learned that the two bicycles they were riding when they committed the assault and robbery, were stolen from Nashua, N. H. One delinquent boy got a year's probation from the Lyman school. Two delinquents of thirteen years of age had their cases filed, and four similar cases were continued, as were the cases of two youngsters charged with being present at a game on the Lord's day. The session was lengthy, extending nearly to eleven o'clock.

SAVING OF \$376,000,000

For Taxpayers by Surrender of Railroads to Private Operation

CHAUTAUQUA, N. Y., Aug. 19.—Surrender of the railroads to private operation September 1, 1920, when the government guarantee expired, saved the tax payers at least \$376,000,000 during the next ten months at the expense of the roads. Samuel O. Dunn, editor of the Railway Age, declared today in an address at the Chautauqua Institute.

If the government guarantee had been continued, Mr. Dunn said, the rental paid by the government for ten months would have been \$742,500,000. In these same ten months the roads actually earned a net operating income of \$366,500,000, which was \$376,000,000 less than the rental the government would have had to pay.

If government operation had continued and the rates had not been raised, there would have been a deficit of \$1,150,000,000 to meet through increased taxes, he said.

The conclusions annexed country vice followed an address by Dr. Helen I. D. McMillen, field agent of the inter-departmental social hygiene board of the United States.

Dr. McMillen declared that the country girl was liable to be far more susceptible to the wiles of some loathsome than her city sister, because she had less experience, less opportunity for harmless pleasure and recreation, and was much less sophisticated.

She declared that social diseases were prevalent to an alarming degree in the country districts and that the advent of the cheap automobile had increased vice enormously. Only through education could a better moral atmosphere be restored to the country home, she said. She pleaded with her hearers to go back home and use their influence for the creation of some healthy substitute for the illicit flapper ride and the cross roads loafing place.

The oldest university in the United States territory is the University of St. Thomas at Manila, founded in 1595.

WOULD DISBAR FIVE PROMINENT LAWYERS

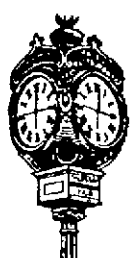

BOSTON, Aug. 19.—Another sensational trial of a bay state district attorney by the supreme court and disbarment proceedings against several well-known Boston lawyers, are expected to result from a report filed with the grievance committee of the Boston Bar association by a sub-committee of the grievance body yesterday.

The committee that reported, it is understood, was that which has been investigating charges which Godfrey L. Cabot of the Watch and Ward society made against District Attorney Joseph C. Peelleter, and Attorneys Daniel H. Cookley, William J. Corcoran and Daniel McEneaney. These attorneys are among the best known lawyers in the state. The charges were filed more than three years ago.

It is understood that the committee which reported yesterday recommended that five lawyers be disbarred and that evidence be submitted to the attorney-general with a view to his proceeding against another district attorney as he did in the Tufts' case. The committee, it is understood, did not recommend disbarment for all of the attorneys complained of by Cabot. Members of the bar association grievance committee declined to discuss the matter of a committee report yesterday. A story which gained considerable circulation to the effect that a sub-committee of the bar association had recommended the disbarment of 21 attorneys was characterized as a "fairy story" by members of the grievance committee at the conclusion of their meeting in the Federal Building yesterday afternoon.

PITTSFIELD, Mass., Aug. 19.—John F. Pearson, furniture merchant of Myrtle avenue, Brooklyn, is at Hillcrest hospital here with his right leg broken in two places as a result of being attacked yesterday by a bull which he was leading.

Pearson's life was saved by his son, Crawford. He came to the rescue with a crowbar and though knocked down stunned the animal. Pearson has a country place and stock farm at Monterey.

MRS. STORER'S BOOK MURDER OF KENNEDY

On Controversy With Roosevelt Over Efforts to Have Archbishop Made Cardinal

PARIS, Aug. 19.—Mrs. Bellamy Storer has published for private circulation a book which in large part relates to her controversy with Theodore Roosevelt over efforts to have Archbishop Ireland made a cardinal.

A controversy which gained wide attention through publication of the so-called "Dear Maria" letters. The circulation of the book is limited to one hundred copies. Entitled "Theodore Roosevelt the Child," the book after giving anecdotes of Mr. Roosevelt in various stages of his career, and making such deductions as to his character as the title of the book implies, quotes from letters by him to the author and her husband discussing the advisability of the red hat for the archbishop. The earliest letter relating to the Archbishop Ireland incident was written when Mr. Roosevelt was governor of New York.

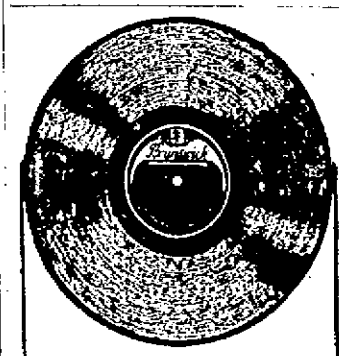

It is understood that Mrs. Storer withheld the brochure from general circulation because of the claims of the Roosevelt family to proprietary rights in all Mr. Roosevelt's letters. The book contains a letter from Cardinal Gibbons approving of Mrs. Storer's plan to publish the letters. One of the letters, written when Colonel Roosevelt was police commissioner of New York, contains a scathing denunciation of editors of a certain New York newspaper, one of whom, Joseph Bucklin Bishop, later became the colonel's friend and is now his biographer.

SUES FOR \$10,000

Auto Broke Wooden Leg of Diamond's Horse

HAMMOND, Ind., Aug. 19.—Jacob Diamond a peddler yesterday filed suit in superior court for \$10,000 damages against an autoist who ran into Diamond's three-legged horse and broke its wooden leg. The suit alleged the animal was "bruised and humiliated" to that extent.

The horse, which has worn the wooden leg for five years, has had a troubled career. On one occasion the leg caught on fire and the fire department was called to extinguish the blaze.

GAVE HER LIFE IN FUTILE ATTEMPT TO SAVE NIECE

WORCESTER, Aug. 19.—Mrs. Axel Carlson, 35, of Oxford street, Auburn, was drowned in Lake Quinsigamond about 3 o'clock yesterday afternoon in an unsuccessful attempt to save her niece, Gladys Forsberg, 13, of 3 Maxwell street, Worcester. Mrs. Alma Forsberg, mother of Gladys, was saved from a similar fate by members of a party at the Engelbrecht club house, who pulled her out of 20 feet of water.

According to witnesses, the trio were bathing with others of a party near the Engelbrecht club house. Mrs. Forsberg was swimming with water wings about 25 feet from shore when she collapsed. Her little daughter swam to her aid, but got into difficulty in the water, and Mrs. Carlson hastened to help her. In their struggles both went down and did not come to the surface.

Persons on shore rescued Mrs. Forsberg, who was kept afloat by the water wings.

The bodies of Mrs. Carlson and the Forsberg girl were recovered in about 15 minutes by policemen.

RECRUITING CAMPAIGN SEIZURE OF SCHOONER

Enlistments for Service Against Tribesmen Brought up in Commons

LOS ANGELES, Calif., Aug. 19.—Ralph R. Obenchain, former husband of Mrs. Madalynne Obenchain, charged with Arthur C. Burch with the murder of J. Belton Kennedy, may be called before the grand jury to tell what, if anything, he knows of the case. It was stated today by Asa Keyes, deputy district attorney, Mr. Keyes' statement followed the publication of interviews with Obenchain in which the latter was quoted as saying that the innocence of the defendants would be established and the "real criminal" produced within five days.

The deputy district attorney said the fact that Obenchain is attorney for Mrs. Obenchain would not, in his opinion, preclude his being called before the grand jury. He said that an attorney is not privileged to withhold evidence that does not implicate his own within five days.

Malcolm McLaren, a special investigator, employed in the case by the district attorney's office, was quoted yesterday as offering Obenchain an appointment from that office to aid in the investigation if he "knew who killed Kennedy." Obenchain when told of this, said the offer was "ridiculous and absurd."

The foreign enlistment act provides that it shall be a violation of British neutrality to permit enlistment in Great Britain for either of two independent countries which may be at war. Mr. Harneworth simply replied that the act still was operative and that the question of the Rifs would be considered.

Unemployed former service men continued today their appeals to the Spanish consulate for service in the foreign legion in Morocco, despite the consul's announcement that no further information could be given until word was received from Spain.

The consul general stated today that the Spanish authorities were carefully avoiding anything that would compromise the British authorities through violation of the foreign enlistment act.

LIGHTNING HITS MAN ON POLE

ATHOL, Aug. 19.—Sidney Walworth of Athol, lineman for the New England Telephone & Telegraph company, was struck by lightning while at work on a high pole in Peterborough yesterday afternoon. Walworth was saved by falling onto a network of wires, where he hung until taken down by fellow workers.

He was taken into a nearby house unconscious and Dr. George L. Perry of Athol summoned. He revived in the course of half an hour, and was taken to his home in Athol. His recovery is expected.

Walworth received bruises on the wrists and arms when he fell onto the wires.

WORCESTER CARMEN SEEK INCREASE

MAHLBORO, Mass., Aug. 19.—The conference of officials of the Boston and Worcester Street Railway company and representatives of the employees was arranged for this afternoon to consider a request from the motorman, conductors, laborers and barn men for an increase of 3 cents an hour in wages. By last year's agreement, which expires September 1, the men received 60 cents an hour.

135 CENTRAL STREET

PROTESTED BY BRITAIN

WASHINGTON, Aug. 19.—Formal notice that it cannot recognize jurisdiction of the United States over the high seas beyond the three-mile limit fixed by international law for many years, has been served by the British government in connection with the seizure 12 miles off the Long Island coast of the British schooner Marshall reported to have been laden with liquor.

It is expected, however, that the British authorities will await the outcome of court proceedings and final establishment of the vessel's registry before any further diplomatic step is taken. It has been deemed necessary, however, to give notice in advance that Great Britain cannot acquiesce in extension of American jurisdiction over the high seas beyond the usual limit.

JAP SHIP BUILDERS FEAR REDUCTION

TOKIO, Aug. 19.—If the Washington conference ends in an international agreement on naval limitation, one effect will be to add to the present difficulties of Japanese shipbuilding companies, which have only been able to keep in full operation because of orders from the navy department. Continued depression in the merchant marine already has hit the shipbuilders seriously.

Most of the leading shipyards depend upon naval orders, and it is difficult for those which do not or cannot undertake them to hold their own against the prevailing depression. It is said that for various reasons the naval authorities are postponing the issue of new orders.

CRAWLS IN STREET TO GIVE THANKS

LISBON, Aug. 19.—A curious sight was witnessed in the streets of Lisbon just after dawn recently. Maria Conceicao, wife of a workman, was seen dragging herself painfully on her knees from her house through the busy streets to the Church of Our Lady of Health, thus carrying out a vow made during the illness of her husband, in case of his recovery.

The distance from her house to the church was over two miles and long before she had accomplished one-half of her pilgrimage, her knees were torn by the stones and her dress was stained with blood.

Maria's husband, a young tinsmith, fell seriously ill about six months ago and was given up by the doctors. His devoted wife tended him with untiring care and love and when it was thought that he was dying, she prayed for a miracle that should save his life, making a vow that if he recovered she would go on her knees, as a sign of thanksgiving, to the shrine of The Lady of Health.

The husband recovered and the wife has fulfilled her vow.

SALVATION ARMY BAND CONCERT

The 40-piece Provincial Territorial band of the Salvation Army which passes through here today on its way to the monster Salvation Army camp meeting to be held at Old Orchard, will stop in this city long enough to give a concert at St. Anne's church. The entertainment will begin at 7:30 o'clock. The officers of the band are as follows: Capt. Treavitt, band leader; Harold Brewer, bandmaster; Maj. Quirk, chairman. Other concerts will be given in Newburyport and Lawrence.

Profiteering Now a Crime in Cuba

HAVANA, Aug. 19.—Profiteering is now a crime under the provisions of a measure approved by the Cuban chamber of commerce yesterday. This is the first time that it has been placed in the criminal category in Latin American countries. The bill was framed for the protection of the livestock industry.

OLDEST CATHOLIC BISHOP IS DEAD

NEW YORK, Aug. 19.—A pontifical requiem mass will be celebrated at St. Patrick's cathedral Saturday for Rt. Rev. Jose M. Ignacio Montes de Oca, bishop of San Luis Potosi, Mexico, the oldest Catholic bishop in the world and titular archbishop of Cesare de Pont, who died yesterday at the residence of Monsignor Michael J. Lavelle. The aged prelate was stricken with arterio sclerosis.

The body will be entombed in Calvary cemetery temporarily and later sent to Mexico.

10,000 SQ. MILES IN MOROCCO UNPACIFIED

MELILLA, Morocco, Aug. 19.—Ten thousand square kilometers of the Spanish zone remained to be captured when the Spanish troops in this section suffered their reverses at the hands of the Moors late in July. The entire region was overrun by fanatic tribesmen ready to fight to the last for their inhospitable land.

The strength of the Spanish forces with their native auxiliaries engaged in this formidable task before the Spanish disaster had been the subject of criticism even among the soldiers participating in the effort to pacify the Moors and the correspondent of the Associated Press heard on many occasions cutting remarks as to the peril of leaving small garrisons to defend newly acquired positions. It was pointed out that the tribesmen were able to assemble in considerable force at any given point with remarkable rapidity and a lone garrison was liable to be cut off and overwhelmed before help could be secured from another point.

Such, however, was the situation and the high commissioner with the generals under his command was compelled to make the best of things while trying to satisfy Spanish ambitions with the report of an occasional victory.

Meanwhile, it is charged, the tribesmen are able to maintain their supplies of food and arms either from French Morocco or through the international zone at Tangier. By this means they are enabled to offer stern resistance to the Spaniards in their effort to take and hold the country lying between Melilla and Ceuta, a distance of 250 miles in a direct line, every inch of which must be fought for.

Much help cannot be expected from the small Spanish war vessels patrolling the coast, to which approach is

very difficult and dangerous, while bombardments from the warships would probably prove ineffective, because of the impossibility of seeing the object aimed at owing to the roughness of the ground.

OUTDOOR MOVIES

An exceptionally large crowd attended the outdoor movies on the Lawrence Mfg. Co. playground in Alken street last evening, the last of the series for the present week. The crowd was estimated at between 3,000 and 4,000. The program proved most entertaining and the Magnavox concert which came before the pictures won a lot of applause.

The United States is the greatest cattle raising country in the world.

NOW A FOLLY TO HAVE CORNS

Millions of People Know An Easy Way to End Them—Quick and Sure

Folks all about you now treat corns in this scientific way. That's why corns are becoming so uncommon. At the first corn pain they apply Blue-jay—the liquid or the plaster—for sale at all druggists. The pain stops instantly. Soon the whole corn gently loosens and comes out.

This is not like old ways, harsh and crude. It is the modern method, put out by a laboratory of world-wide repute.

For millions of people it has solved the corn problem. It will bring you freedom—and forever—when you know it. For your own sake, find this out tonight.

Liquid or Plaster
Blue-jay
Stops Pain Instantly
Ends Corns Quickly

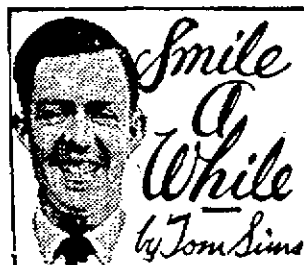

MOTHER OF SLAIN BOY TELLS OF KIDNAPPING

NEW YORK, Aug. 18.—Mrs. Annette Varotta, mother of five year old Giuseppe Varotta, who was kidnapped May 24, from his home, and whose disfigured body was found floating in the Hudson river, was the principal witness today against Robert Raffaele of Union Hill, N. J., who is the first to be tried of seven men accused of murder.

Describing the disappearance of the child, she said: "He called 'Mama, Mama.' I went to the window. He said, 'Give me a penny.' I gave the penny. That was the last I saw of my boy."

After she had received a black hand letter demanding \$2500 ransom for the child's return, Mrs. Varotta said, the defendant came to her house and asked for the money. Told she only had \$500, he departed saying: "I'll see what the gang says." Later when he returned, she testified, she told him to come back as her husband had the money.

Mrs. Varotta testified that she begged the defendant on her knees for her boy. "I fell on my knees before him," she cried, half slipping from the witness chair and raising her clasped hands. "I begged of him to give back my boy. I kissed his clothes, his hands, his shoes. I implored him to head a mother's love. And he promised to bring back my Beppio—my little Joe."

BRIEF BUT IMPORTANT WIRE DESPATCHES

CANSA, N. S., Aug. 18.—The schooner Mayflower, prospective competitor in next fall's North Atlantic Fishing Schooner races was here today from the banks for repairs to a broken boom.

WASHINGTON, Aug. 18.—Opposition developed today in the house to the senate bill which would permit Major General Leonard Wood to accept the governorship of the Philippines without giving up his army commission.

WASHINGTON, Aug. 18.—What was described as a "radical change of shipping board policies" was discussed with President Harding today by Chairman Lasker of the board and officials of the Emergency Fleet corporation.

MIAMI, Fla., Aug. 18.—J. G. Crossland, president of the Miami Fisheries company, and a wealthy resident of this city, was arrested today on a charge of conspiracy to defraud the government and violation of the national prohibition act, in connection with the seizure on Aug. 2 of the schooner Henry L. Marshall off Atlantic City.

DANBURY, Conn., August 18.—Benjamin Seeley, 70 years old, a retired business man of Kansas City, Mo., who had been visiting in Waterbury, was killed by the overturn of his automobile in Bethel today.

Protests Wheeler at Anti-Beer Conference

WASHINGTON, Aug. 18.—The presence of Wayne B. Wheeler, general counsel of the Anti-Saloon league, at a meeting of the conferees on the anti-beer bill, was characterized in the senate today by Senator Reed, democrat, Missouri, as "unwarranted and unmitigated insolence."

To Pass R. R. Funding Bill

WASHINGTON, Aug. 18.—Favorable report on the administration railroad funding bill was ordered today by the house commerce committee. Republican leaders plan to have the house pass the measure early next week. A committee amendment provided that the act shall in no way affect proposed government relief for farmers.

\$1,000,000 Bequest to Technology

CAMBRIDGE, Aug. 18.—Massachusetts Institute of Technology will receive \$1,000,000 and Wellesley College \$500,000 from the estate of Francis Appleton Foster of Weston, director of several textile mills, who died last week, according to the will filed here today.

B. & M. Clerk Held on Forgery Charge

BIDDEFORD, Me., Aug. 18.—Walter M. Harmon of Saco, clerk in the Boston & Maine railroad freight office in Biddeford, was arrested this forenoon in this city charged with forging the names of endorsers to numerous small notes, the whole aggregating over \$2500 and which he discounted in local banks. According to the police, Harmon victimized both national banks in this city and two in Saco. He is reported to have admitted part of the notes are forged but insists that the names on others are genuine.

LEGAL NOTICES

CITY OF LOWELL
Notice of vote proposed at meeting
of Municipal Council:
At a meeting of the Municipal Council
held Aug. 11, 1921, the following
vote was proposed:
That the Commissioner of Public
Property and Licenses be and he is
authorized and empowered to enter
into contracts with the following
contractors for the following purposes,
said contractors having been the lowest
bidders for the work to be covered
by said contracts:
With J. J. Spillane Co. for the installation
of a plumbing system for the sum of
\$260.
With Findlay Chisholm, doing business
as Chisholm & Co. for the installation
of a plumbing system at the
Pine Street school for the sum of \$718.
If it is further voted that said sums
shall be charged to the appropriation
designated. Appropriation for Building
improvements.
This notice is given pursuant to Sec.
27, Chap. 645 of the Acts of 1911.
By order of the Municipal Council,
STEPHEN FLYNN, City Clerk,
Aug. 19, 1921.

THIS IS "BULL"

This picture was taken in the bull
ring at Madrid, Spain. The spectators
were highly amused. P. S.—It wasn't
Charlie Chaplin—just another imitator.
Members of the royal family, attending
the bull fight, laughed heartily at the
antics of the amateur "Charlie."

MIGHT HAVE PREVENTED WAR

Failure to Handle Near East Problem Honestly Brought Catastrophe

Bulgarian Minister to U. S. Denounces European Statesmen

WILLIAMSTOWN, Aug. 19.—Not only would the sufferings and bloodshed of many years have been avoided, but the World War might have been prevented, if European statesmen had handled the Near East problem intelligently and honestly, M. Stephen Panaretou, reappointed Bulgarian minister to the United States, said in his lecture today before the Institute of Politics.

"It is recognized by all now that the terrible catastrophe which has befallen Europe had its origin in the Near East," he said. All European statesmen recognized this danger long ago, he asserted, "yet those who had the power and means did virtually nothing to avert it."

"Their failure to find a peaceful issue out of the difficulties," he added, "is a blot upon the history of Europe and a disgrace to European statesmanship."

"The question was clear enough, the sore point of it was plain and their effort for at least a hundred years past to find a remedy for the disease shows that they were cognizant of it."

"Instead of looking facts in the face and acknowledging that the discontent of the Christian subjects of the sultan was due to bad administration the European powers evoked the bogey of Russian agents, provocateurs and pan-Slavist methods. If there were really such underhand influences at work it was because they found receptive minds ready to submit to them. The best way to paralyze any outside intrigues against the safety of the Turkish empire was to remove the causes upon which they were founded. Ample proof of this was afforded by those territories of Turkey where the people had been endowed with some kind of home rule and where in the place of former lawlessness law and order prevailed. Turkey might still have existed as an empire if the European powers had by extending such self-government to the various provinces secured their attachment and loyalty to the sultan's person. To say that their selfishness, jealousies, and hate did not allow them to do it neither justifies nor excuses their conduct it rather makes their sins of omission and commission blacker."

EDMUND SIMPSON DEAD

Well Known Business Man and Former School Committee Member Died Yesterday

Edmund T. Simpson, one of Lowell's most prominent business men and several years ago an active figure in local political circles, died yesterday at his home, 201 Nesmith street, aged 51 years, 4 months and 1 day.

Mr. Simpson was for a long period of years a member of the firm of Simpson & Rowland, wholesale grocers, and had achieved great success in his business career. He served for a number of years as a member of the school committee.

EDMUND T. SIMPSON

He leaves his wife, Ella W. Simpson; one daughter, Mrs. Ruth Carrington of Danville, Va.; one son, Robert Simpson of this city, and two sisters, Mrs. Edward J. Hyman and Miss Bertha Simpson, also of Lowell. Mr. Simpson was a member of the class of 1890 of the Massachusetts Institute of Technology.

To Recover Money From Ponzi Investors

BOSTON, Aug. 19.—Publication of the names of persons who profited through investments in the Charles Ponzi quick rich scheme before it was exploded last summer, and who have failed to turn in their profits for division among those who were less fortunate, is planned by the bankruptcy trustees. James A. Lowell, one of the trustees said today that suits would be brought not only for the profits but for the entire amounts received from Ponzi, both principal and interest. The total amount receivable for the benefit of about 15,000 persons who gave their money to Ponzi on his promise to pay fifty per cent in 45 days is approximately \$8,000,000 Mr. Lowell said.

Rush Relief to Cloudburst Victims

LAS CRUCES, N. M., Aug. 19.—Relief was sent today to residents of Hatch, 38 miles north of here, who fled thinly clad to the hills when a fall of water from a cloudburst early yesterday morning flooded the town and destroyed every building in it. No loss of life was reported. Today from three to seven feet of water lies in the stricken village. Officials of the United States Reclamation Service say there is no way to drain the water off except to dig a deep channel as the town lies in a basin below the level of the Arroyo.

Lloyd George Favors Welsh Home Rule

LONDON, Aug. 19.—(By the Associated Press).—An announcement in favor of Welsh home rule has been made by Premier Lloyd George, says the Liverpool Post today. The premier, who made the announcement at a dinner of Welsh nationalists, pledged himself, according to the newspaper, to support a measure of Welsh devolution if such were agreed upon by the Welsh members of parliament. The home rule favored by the Welsh nationalists means a greater degree of local self-government.

BERGDOLL SAFE FROM EXTRADITION

GENEVA, Aug. 19.—Grover Bergdoll, the American draft evader, says the Thorgovle Zeitung arrived in Constantine from Munich three days ago and now is stopping in a hotel at St. Gall.

Bergdoll came from Germany to avoid extradition to the United States, the newspaper asserts. He has an American passport. It adds and now is perfectly safe from extradition.

DEATHS

SMALL.—Everett P. Small died Wednesday in Ossipee, N. H., aged 72 years. He leaves two daughters, Mrs. William Sawyer of California and Mrs. Edgar Dixon of Lowell.

INDELLA.—Mary, daughter of Tony and Palma Indella, died yesterday at the home of her parents, 136 Elm street, Lawrence. The funeral took place yesterday afternoon. Burial was in the family lot in St. Patrick's cemetery, Lowell, under the direction of Undertakers James F. O'Donnell & Sons.

HUBBARD.—William J. Hubbard, a well known resident of Centralville, died Wednesday night at his home, 2 Jewett avenue. He leaves his wife, Margaret Hubbard; two daughters, Miss Etta Hubbard of Lowell and Mrs. Arthur Leaver of Pittsfield, Mass.; one son, Louis Hubbard of Boston; two brothers, Hiram Hubbard of Reading and Charles of Bangor, Me., and one sister, Mrs. M. Ramsdell of Lowell; also three grandchildren.

GENIVOX.—Mrs. Ferdinand Genivox, Sophie Mercier, aged 79 years, died this morning at the home of her daughter, Mrs. Felix Lamarche, 13 Dutton street. Besides her daughter she leaves four sons, Joseph Genivox of Farmington, N. H., Raoul and Louis Genivox of Lawrence and Oscar Genivox of Haverhill.

FUNERALS

THYNE.—The funeral of John Joseph Thyne took place yesterday afternoon from 19 Hudson street. Burial took place in St. Patrick's cemetery, under the direction of Undertakers Higgins Bros.

KING.—The funeral of Harry C. King took place from the home of Buzzell King, North Tewksbury, yesterday afternoon. The services were conducted by Rev. Henry B. Mather, pastor of the Congregational church at Tewksbury Centre. Appropriate selections were sung by Miss Hazel F. Tuttle. There were many floral tributes. Burial was in the family lot in the cemetery at Tewksbury Centre. The funeral arrangements were in charge of Undertaker George W. Healey.

BAKER.—The funeral of Mrs. Sadie Baker took place from her home, 1569 Middlesex street, yesterday afternoon. The services were conducted by Rev. Frederick S. Beattie, assistant rector of St. Anne's Episcopal church. The floral offerings were numerous. The bearers were G. V. McQuade, Harrison A. Baker, Arthur Reese and Guy Constantine. Burial was in the family lot in Westlawn cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

FUNERAL NOTICES

BERNARDINI.—The funeral of Mrs. Enrichetta Bernardini will take place Saturday morning at 8:15 o'clock from her late home, 5 Kingsman street. Funeral high mass will be celebrated at St. Peter's church at 9:45 o'clock. Burial will take place in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers Higgins Bros.

CARRIGG.—The funeral of Mrs. Della McNally Carrigg will take place Saturday morning at 9 o'clock from her home, 45 Hampshire street. Solemn high mass of requiem at St. Michael's church at 10 o'clock. Interment will be in St. Patrick's cemetery. In charge of Funeral Director James W. McKenna.

HUBBARD.—The funeral of William L. Hubbard will take place Saturday morning at 5 o'clock from his late home, 2 Jewett avenue. A funeral high mass will be celebrated in St. Michael's church at 8:30 o'clock. The burial will be in the family lot in St. Patrick's cemetery. The funeral will be in charge of Undertakers Charles H. Molloy's Sons.

SMALL.—Died in Ossipee, N. H., Aug. 17, Everett P. Small, aged 72 years. Funeral services will be held at the graveside in Riverside cemetery, North Chelmsford, Saturday afternoon at 2 o'clock. Friends are invited without further notice. Funeral arrangements in charge of Undertaker George W. Healey.

MULLIGAN.—Died August 17, Peter J. Mulligan. Funeral will take place on Saturday morning at 5 o'clock from his late home, 13 Burns street. Solemn high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. The funeral arrangements will be in charge of Undertakers M. H. McDonough Sons.

SIMPSON.—Edmund Thomas Simpson died at his home, 201 Nesmith street, Thursday morning. Funeral services will be from his home Sunday afternoon at 3 o'clock. Friends invited. Burial private. Burial will take place in the Lowell cemetery. Undertaker Hiram C. Brown.

BUILDING ESTIMATES AND ACTUAL COSTS

When a man takes out a permit to build a house or do any other construction work, is there any method by which he can be compelled to give an accurate estimate of the cost of the work?

Public property department officials doubt it. They say that a majority of the estimates which are given when building permits are issued are below the actual cost of the contemplated construction and the builders know it, but still they refuse to make an accurate estimate.

The underlying reason for their action, of course, is the fear that the board of assessors will make

use of the estimated cost which they give when it comes time to place a valuation on the property for purposes of taxation. They labor under false impression that the lower valuation they themselves place on their property, the lower their taxes will be.

However, there is no justification for this action, it is said. The assessors use the building permits merely to get an idea of the size of new property and the character of its construction. They ignore entirely the estimate which the owner places on the building. They prefer to make their own valuation after the building has actually been erected, rather than rely on the estimate of the owner, made

before the building has been constructed.

Of course, many people who build are conscientious about the matter and strive to give just as accurate an estimate of the cost of what they proposed to build as they can. But many others blatantly announce that the proposed building will cost a certain figure which the public property department clerk knows at once, from the description of the proposed building, is far below the actual cost. Of course, there is no great harm done by this method of people who take out building permits. Neither is there any gain for them when they receive their tax bills. The only real objection is that the city is not getting an accurate or reliable record of the cost of its building operations.

Governor Acts to Prevent Lynchings WILL NOT ALTER PEACE TERMS

Britain Put Forward Everything It Could Possibly Concede to Purchase Peace and Good Will of Irish

FINAL TERMS, SAYS PREMIER

Lloyd George Declares Letter to De Valera Contained Whole of Proposals

Nothing Held Back—Outline Cannot be Altered, Nor the Basis Changed

Lord Curzon Also Says Government Went Limit—Minor Clash in Cork

LONDON, Aug. 19.—(By the Associated Press.)—The British government, declared Premier Lloyd George today, in making its proposals to Ireland had decided on putting the whole of its terms into the letter to Eamon De Valera without keeping anything back, and the sequel had proved, he said, that it was right in adopting that course.

"I had heard no suggestions from any part of the world except Ireland," he remarked, "that the proposals had not gone to the limit of possible concession."

"I want to make it clear," continued the prime minister, "that the government did not put in haggling terms, but put forward everything they could possibly concede to purchase peace and the good will of the Irish people. In Ireland it seems as far as I can see, the doubt is not so much as to the terms but as to whether the government really means them."

"That is a question of working out the terms—of elucidation and elaboration, and not a changing of the terms. The outline cannot be altered nor the basis changed."

PRISONERS' CAGE EMPTY

No Drunks in Court—Looked Like White Gloves for Judge Enright

Lowell, considered liquorwise, has been a "spotless town" during the past twenty-four hours. When the police court convened this morning, not a single new case of drunkenness adorned the docket, and the prisoners' cage was absolutely bare of occupants. No booze seizures nor other prohibition activities were announced.

COX APPEALS TO WAREHAM FOLK

Urges People, Incensed Over Attack on Girl, Not to Let Mob Spirit Rule

Promises Whole Power of State to Punish Those Guilty of Atrocious Crime

BOSTON, Aug. 19.—Gov. Cox today appealed to the people of Wareham, where three Cape Verde negroes have been arrested for an attack on a young white woman, not to let the mob spirit rule. He urged that they have confidence in their court, and promised that the whole power of the common-

SANK WITHOUT WARNING

Five Men Barely Had Time to Scramble Onto Wharf When Sloop Went Down

ROCKLAND, Me., Aug. 19.—Five men barely had time to scramble onto McLean's Wharf early today when the fishing sloop Minerva sank without warning and from an unknown cause. William Smith of Gloucester who escaped with practically no clothing, made his way to the police station in a very much exhausted condition.

The sloop, owned by Captain Charles Jordan and C. N. Trefethen of Portland, came into harbor yesterday with a 3000-pound cargo of fish. Captain Jordan said that when he and the other four men were aroused shortly after four o'clock, there was four feet of water over the stern and it was rushing into the companionway to the forecabin. The underwriters were notified of the mishap.

SECOND ATTEMPT IN TWO DAYS

Barnstable County People up in Arms Over Assault on White Woman

Move on Jail to Get Three Negroes Halted When Guards Fired Into Air

Chief Threatens to Shoot Members of Mob "Like Rats" if They Attack Jail

BARNSTABLE, Aug. 19.—A Barnstable county mob of nearly 200 men and women carrying ropes early today stormed the local jail, threatening to lynch three Cape Verde island negro prisoners charged with highway robbery and criminal assault on a young white woman at Buzzards Bay.

This was the second early morning mob that threatened violence to the negroes, a crowd of the same size yesterday having attempted to get John Dies from the Wareham lock-up, from which he was rushed after the police there had dispersed the crowd by firing over their head.

At 230, 25 automobiles whose occupants included women as well as men, drove up to the jail. A crowd of nearly 200 persons assembled and marched on the jail entrance, when they demanded the three negroes, John Dies, continued to Page Three

SWEEPING CHANGES IN CAVALRY UNITS

WASHINGTON, Aug. 19.—Sweeping changes in cavalry units of the army were ordered today, the second cavalry division being placed on the inactive list and many units of the eighth, ninth, tenth, eleventh, twelfth, thirteenth and fifteenth regiments ordered demobilized.

The first cavalry division becomes parent organization of the second, together with all equipment and all personnel under the policy of reducing the army to the 150,000 enlisted strength.

Orders were also issued today retiring Maj. Gen. Charles Norton from command of the Third Corps Area at Fort Howard, Md., and assigning Brig. Gen. Charles J. Bailey, now in command of the seventh division, to succeed him. Gen. Norton will report to Gen. Pershing, at the expiration of a leave of absence, for assignment to duty as yet not specified.

CATS ANNOYED SURPRENANT

Borrowed Gun to Kill Them and Met With Fatal Accident

Gun Went Off When He Tripped Over Threshold and Fell

While preparing to kill a couple of cats, which had been annoying him for some time, George B. Surprenant, a well known resident of Tewksbury, was killed near his camp at North Wilmington last evening, when a shot gun he was holding was accidentally discharged. The shot tore off part of his left wrist and then entered the left side of the head. The accident occurred at about 10:30 o'clock. The remains were viewed by Medical Examiner Percy of Melrose, who signed the death certificate, "accidental shooting."

According to information received this morning, Surprenant, who was spending the summer at his camp with his wife and child, became disturbed over the noise made by a couple of cats, which seemed to have settled

FORMER GREEK PREMIER

Demetrios Rhalis, Active in Politics for Many Years, Dies in Athens

ATHENS, Aug. 19.—(By the Associated Press.)—Demetrios Rhalis, former premier of Greece, is dead, as the result of an illness, from which he had been suffering for many months.

Mr. Rhalis, although an octogenarian, had been active in political circles until recently, forming a ministry late last fall in succession to Premier Venizelos after the latter's defeat in the elections. It was his cabinet that authorized the prohibition on the return of King Constantine to the throne and that was in office at the time of the king's accession.

CANON CARNEGIE AND WIFE AT MONTREAL

MONTREAL, Aug. 19.—Canon Carnegie, chaplain of the British house of commons and canon of Westminster, with Mrs. Carnegie, who was the wife of the late Joseph Chamberlain, arrived here today enroute to Massachusetts. Mrs. Carnegie's former home, she was a Miss Endicott, of Salem. The canon and his wife landed in Quebec yesterday from the Empress of Britain.

'Twas Ever and Often Thus

When we look over the present market values of Stocks and Bonds that I, YOU, WE, THEY and Some others have purchased during last year or two, the thought that comes home is something like this: HOW MUCH BETTER IF THE PURCHASE MONEY HAD REMAINED AS A SAVINGS DEPOSIT.

Ah, dear friend, history of investing is but repeating. Your present experience and condition is but the repetition of the experiences of billions of others, since this world began or since money was invented. The strangest of all is, that it always will be so. The Cupidity of the Majority of Individuals is beyond understanding. Remember this: The Man, Woman, or Child who sneers at the humble Savings Account, has a Tremendous Future awaiting—Tremendous as to the volume of wisdom that is coming to them to partially fill the present vacant spaces in and about their intellects—SOMETIME. Sure Pop.

The New Senatorial Pastime

The old-fashioned game of horseshoes is coming into favor with senators. Here are Senators Ralph H. Cameron of Arizona and Helm Bursum of New Mexico in a quiet game on the Capitol plaza with a cop as an interested spectator.

PRESIDENT OF MIDDLEBURY
MIDDLEBURY, Vt., Aug. 19.—The Rev. Paul Dwight Moody, youngest son of the late Dwight L. Moody the evangelist, today was elected president of Middlebury college. He succeeds President John M. Thomas, who resigned after 12 years to become president of Pennsylvania State college.

The new president is at present associate pastor of the Madison Avenue Presbyterian church in New York. He served overseas as a chaplain of the 25th division and later was appointed by Gen. Pershing as assistant to Bishop Brent, senior chaplain of the American expeditionary forces and succeeded the latter upon his retirement. He was decorated by the French government.

Rev. Moody was born in Baltimore, April 11, 1879, and after his graduation from Yale in 1901, studied in Scotland and at Hartford Theological seminary. After his ordination in 1912, he became pastor of the Congregational church at St. Johnsbury, where he remained until he went overseas with the New England troops. At the close of the war he became associate pastor of the Madison Avenue church.

Drop Taxes on Proprietary Medicines
WASHINGTON, Aug. 19.—Elimination of taxes on proprietary medicines was agreed upon today by the ways and means committee, which approved more than sixty changes in the republican tax bill. Subsequently the majority members of the committee voted to reduce the tax on cereal coverages from the proposed six cents a gallon to four cents and to bring fire and marine insurance companies under the 12½ per cent corporation income tax on the same basis as life insurance companies.

CERTIFY 3011 SIGNATURES

Commission Completed Work of Checking Signatures Shortly Before Noon Today

Petition Returned to City Clerk and is Now Ready for City Council

Indications of Another Special Election Here Early in October

The petition presented to City Clerk Stephen Flynn last Saturday, asking the municipal council to establish a municipal gas plant here, was formally certified to today as having enough signatures in compliance with the city charter to merit the attention of the city council and probably to call for a special election.

Shortly before 11 o'clock this forenoon the election commission completed its work of checking up the signatures on the 37 papers which made up the petition and announced that out

The School Bell Will Call Kiddies to Their Movie Lessons

JOHNNIE WALKER. HE IS ONE OF THE YOUNGER PLAYERS OF THE SCREEN WHO HAVE BEEN RECENTLY ELEVATED TO A STAR'S PLACE. HIS LATEST IS "THE DRIFTER," IN WHICH HE CO-STARS WITH EDNA MURPHY.

ANN HASTINGS. SHE'S A FEMININE DAREDEVIL WHO PERFORMS RISKY STUNTS WITH CHARLES HUTCHINSON IN "HURRICANE HUTCH." SHE ALMOST WAS DROWNED DURING THE FILMING OF THE FIRST SCENES OF THAT SERIAL.

BY JAMES W. DEAN
NEW YORK, Aug. 19.—When the school bell rings in September the children of the nation will be called back to their books—and to their movies.

Motion pictures will be used for instruction in schools for the coming year more than ever before. Between 20,000 and 25,000 schools will supplement book lessons with moving picture lessons.

One firm alone has sold 4000 projectors to schools in the past year. Among cities that have supervisors of instruction by motion pictures and plan extensive use of that agency are New York, Chicago, Detroit, Cleveland, Kansas City and Newark, N. J.

In those cities one person, at least, devotes full time to visual instruction and 50 per cent. of this instruction is through the motion picture.

School films are divided into three general classes, entertainment, semi-educational and instructive. Under the first classification come fairy tales and classics of literature. Under the second, nature reels and reviews and sciences. Under the third, biology, geography, nature studies, civics and government, mathematics and literature.

Biology is taught through intimate studies of animal and insect life. The industrial and economic phases

of geography are shown in which the world is clothed, fed, sheltered and served.

Civics and government classes are shown pictures of congress, senate and state departments in actual work. Normal schools and extension courses now have classes in visual instruction for teachers in which tutors are shown the best way of using films in teaching various subjects. Columbia university has two hours' instruction a week in this feature.

Charles H. Mills, formerly head of visual instruction in Kansas City, is now head of a department of Pathé which handles films for schools exclusively. His address to the film library are a library within themselves.

"There is danger of the movie being used to too great an extent for instruction," Mills told me. "When a lesson is made too easy for a child the purpose of schooling is lost."

"However, actual tests made in Chicago, Evanston, Ill., Detroit and New York show that in classes in which film studies had supplemented book studies the instruction had been 15 to 40 per cent. more efficient than in classes in which the motion picture was not used."

"This will probably be of interest to fathers and mothers who had only their books and their imaginations to learn how Chinamen eat with chop

sticks, the wild tribes of Africa hold their war dances and the jungle beasts care for their young.

Caruso in Celluloid

One of the most impressive incidents since the inventions of the motion picture and the talking machine is the combination of the two in presenting Caruso.

The camera presents Caruso in the various roles in which thousands saw him and the phonograph reproduces the songs he sang.

A hush settled over the audience at the Rivoli in New York at the first presentation.

And when the waxen record yielded to the tenor's sob in "Pagliacci" and his shadow moved across the screen as Caruso, a man in front of the writer smiled, tried to restrain himself and then sobbed aloud.

THE MOVIE TONIC

Daughter born to Fred Niblo and Enid Bennett.

"My Wife," Max Linder's film, to be released by Goldwyn.

New York censors endorse Dempsey-Carpenter fight pictures.

"Phroso," made by Louis Mercanton in Paris, to be released in America.

Wallace MacDonald will be leading man for Carmel Myers in "Breaking Through," a Vitaphone serial.

The forty-foot version of the bible made in Italy is to be cut to ten reels for American audiences.

In "The Young Diana," Marion Davies plays the part of an "old maid" restored to youth by a scientist.

An elephant lives 400 years, a cat 15, a dog, 11 and a whale 300.

SUMMER PESTS

GIRLS! BLEACH SKIN
WHITE WITH LEMON

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemonbleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.—Adv.

Adventures of the Twins

SPRINKLE-BLOW'S PROMISE

THE TWINS WAVED FAREWELL TO THEIR LITTLE FAT FURRY FRIEND

"All right," promised Sprinkle-Blow. "Set your mind at rest, Wally, and go home and tell Mrs. Woodchuck to pack whenever she likes. I'll see to it that West Wind and East Wind blow no black clouds to bother you on your vacation, also that Howdy Thunder and Jumpy Lightning don't meddle with my rain-barrels. Sometimes, when I'm not there to watch, they turn the spigot and it rains perfect frog's legs."

"Thank you," said Wally gratefully, waddling off to his house to tell his wife the good news. "We'll start for the blue mountain at once, for I'm anxious to get a taste of that white frosting."

"Good-bye and good luck!" called the fatly weatherman, and the twins waved farewell to their little fat furry friend.

"How would you like to follow him on his vacation?" Sprinkle-Blow asked them. "It isn't very polite to follow folks, I know, but Wally may be glad to have us before he gets home again."

"Oh, yes, let's," cried Nancy, clapping her hands. "But tell me, Mr.

Sprinkle-Blow, is the mountain made of cake and is the white stuff frosting? Daddy always told us it was."

"Shhh!" whispered Sprinkle-Blow. "That was my little joke. Your daddy was right. But that's frost, isn't it, even if it isn't frosting, and if I'm not mistaken, by the time a certain woodchuck gentleman gets to it he'll be more than satisfied to find out the truth. We shall see what we shall see. Are you ready to start? Are your green shoes in pretty good shape?"

They were, and so was Mr. Sprinkle-Blow's umbrella, which he mounted at once, just as you ride a broom-handle on your travels. For, although Wally is fat, he is fast also.

(To Be Continued)
(Copyright 1921 by The Lowell Sun)

KILLED BY LIGHTNING
LYNNFIELD, Aug. 19.—John Ross, 80 years old, was killed by a bolt of lightning late yesterday when he took refuge in a barn to escape a severe storm.

Spaniards and Tribesmen in Battle

MADRID, Aug. 19.—Serious fighting is taking place at Sidi Ameran, south of Melilla, according to an official statement. It was said that there had been sharp firing along the Spanish positions there, and that reinforcements and provisions had been dispatched to the front. The Spanish forces at Tizza, nearby, have already been reinforced. The tribesmen have attacked Spanish positions at Cabo de Agua, near the frontier of French Algeria, the statement declaring that the Spanish forces there were under fire.

Greek Forces Continue to Advance

ATHENS, Aug. 19.—Greek forces engaged in the offensive against the Turkish nationalists in Asia Minor are making progress, especially on the northern end of the battle line, where they have penetrated the Turkish front to a depth of over sixty miles.

FOLKS WHO ARE THIN

SCRAWNY, ANGULAR, HOLLOW-NECKED AND CHEEKED,
SHOULD BUILD FIRM, STAY-THERE FLESH

You Are Too Thin In Your Face, Others In Chest, Shoulders or Neck,
While Others Are Angular All Over

It matters little whether you have six apples. It's like taking extract of thin face, sunken neck or chest, or a beef instead of eating pounds of meat. You lack that important flesh and tissue-building nourishment called vitamins, which scientists say modern cookery totally destroys in our foods. You should eat more vitamin-containing vegetables, such as lettuce, spinach and apples and reinforce them by taking from time to time with your meals a little harmless and pleasant MEDIC-VEEST, which is rich in vitamins like the vitamins in your blood and the vitamins in hulls of grain and skins of apples. MEDIC-VEEST represents flesh building vitamins in such a highly condensed form that one dose of it is estimated to be approximately equal (in vitamin content) to eating two heads of lettuce, one-half quart of spinach, one quart green vegetables or six apples.

MEDIC-VEEST is fully guaranteed by the manufacturers or your money refunded, but should not be used by anyone who objects to having their weight increased to normal. Fred Howard and A. W. Dows carry MEDIC-VEEST or other good druggist can supply you. For many reasons no other yeast can replace MEDIC-VEEST.—Adv.

FRED HOWARD, The Druggist

SEEK PERSON WHO FIRED SHOT AT SEN. BALL

WASHINGTON, Aug. 19.—Washington police began today an investigation to find the person who fired a shot about two months ago which struck Senator Ball of Delaware while he was driving through the city in an automobile. He was not injured.

About two years ago, when the senator introduced his district rent control bill, he received many anonymous threatening letters. One which declared that his property would be destroyed was turned over to the police. In June he introduced an amendment extending the life of the rent act and received additional letters. The shot that struck him was fired about this time, as his car was near Thomas Circle in the residence section. The senator said he felt a prickly sensation near his right knee and found his trousers had been torn by a bullet which rested against the knee cap but had not broken his knee. He heard no report of the weapon and the bullet entered an open window at his left elbow, indicating that it had been fired from a roof or window.

"Threatening letters never worry me," said Senator Ball today. "and I have done everything possible to prevent publicity in this matter. The fact that the incident occurred shortly after I introduced my amendment suggests, of course, that the shot may have been fired by opponents of the bill to frighten me and deter me from working to have the law extended."

Certify 3011 Signatures

Continued
of more than 4000 signatures, 3011 had been found to be correct. The law provides that at least 2924 correct names must be on an initiative petition to make it valid, thus giving the petitioners a safe margin of 87 names. Upon completing its work the election commission, through its chairman, Hugh C. McOsker, returned the petition to City Clerk Flynn who immediately notified Mayor Thompson that he had attached his certificate of sufficiency to the petition and that it was ready for presentation to the municipal council. The mayor then announced that a special meeting of the council would be called for either Tuesday or Wednesday of next week at which the petition will be presented.

The gas plant petition had 23 less correct names than were certified on

NEWBURYPORT, Aug. 19.—In the police court yesterday Judge Simpson had one of the most unusual cases before him.
It was alleged that Norman S. Brightman of 293 Sutton street, North Andover, was driving an automobile a few nights ago through the town of West Newbury, along the main highway, and had a girl companion. Chief of Police Meader of West Newbury objected to the man hugging his female companion.
Brightman was given a severe lecture by Judge Simpson and was advised not to repeat the hugging while driving an automobile, as it was dangerous to the traffic.
Brightman was fined \$3 and his case filed.

The chamber of commerce street contract work petition. The latter document had 3034 correct names when the election commission stopped checking. Work on comparing the signatures with the voting list was started last Monday morning.

When the petition is presented to the municipal council that body will have two avenues of action open to it. One will be to vote outright to grant the petition by taking over the plant of the Lowell Gas Light Co. at a cost conservatively estimated at \$5,000,000. The other will be to refer the matter to the people at a special election. It is very improbable that the council will see fit to shoulder the responsibility of so great an undertaking without consulting the wishes of the voters. In fact, one member of the council, Mayor Thompson, has frankly declared that the issue is one which should be decided by the electorate.

If the council refuses to vote to establish a municipal gas plant here or to take over the existing plant within 20 days, the question automatically goes to the voters. A special election will have to be held not less than 40 days after the date that the council first receives the petition and not more than 60 days. A state law also says that all elections must be held on Tuesdays. Therefore, the special election must come on Oct. 4 or Oct. 11. It cannot be combined with the special election on Oct. 13 at which the voters will be called upon to accept or reject the proposed new city charter.

Second Attempt in Two Days

Continued
Benjamin Gomez and Joseph Andrews, from Sheriff Irving L. Rosenthal. Jail Defenders Fire Into Air
There were shouts of "Let's get them," as the mob approached the

brick structure, but when the jail defenders, five men in all, fired in the air the crowd came to a halt.

Chief Warden James Boland warned the mob back, shouting that at the first attempt to breach the jail they would "be shot down like rats."

The warning had its effect, but the crowd remained outside the jail nearly one hour and a half, still threatening an attack, while Sheriff Rosenthal, Chief Warden Boland and three others stood guard with shot guns.

May Ask for Troops

There are ten prisoners in the Barnstable jail. Usually two men are considered sufficient to guard it. Last night, because of the Weymouth incident of the night before the sheriff personally took command and augmented the force to five. Today more guards will be added, and Sheriff Rosenthal intimated that he might also ask for state troops to help him. The Second Field Artillery, M.G., is stationed five miles away on its summer encampment.

The third of the negro trio was arrested yesterday. He was Joseph Andrews of Onset, and was brought here from Weymouth last night to be arraigned in court today. Pies and Grogg were held in \$15,000 bail each yesterday. All three have been identified by Miss Gertrude Butler and William Eldridge as the men who held them up and criminally assaulted Miss Butler at Buzzards Bay early in the week.

Chief Warden Boland said the crowd came within ten feet of the jail. Among the women he saw several not more than 20 years of age. The three negro prisoners are being kept in separate parts of the jail.

Andrews Held In \$15,000

Andrews was arraigned this morning and held in \$15,000 bail. The trial for all three men has been scheduled for August 25.

Jail Guard Increased

Sheriff Rosenthal announced that he had increased the jail guard to 15 men for tonight, all armed, to defend the institution against assault. He said he had not called for troops or state police and did not at the time intend removing the prisoners elsewhere.

"We expect to take care of the situation right here," he said. Quiet prevailed during the forenoon.

State Police Go to Scene

BOSTON, Aug. 19.—Ten members of the state police patrol have been ordered to proceed from camp in Framingham to Barnstable, where a crowd early today attempted to take three prisoners accused of assault upon a white girl from the jail. The men will go over the road in motorcycles.

Public Safety Commissioner Alfred B. Foote said the men would be used to assist in preserving order, but the main purpose of their going was to assist in the search for an automobile alleged to have been stolen and used by the trio in the assault.

LAW OF AERONAUTICS

Matter Will Come Before Convention of American Bar Association

CINCINNATI, Aug. 19.—One of the most interesting and unusual features to be introduced and discussed at the convention of the American Bar association, to be held here Aug. 30 to Sept. 2, will be the matter of recommending the enactment of constitutional law to bring about the proper solution of the demands of aeronautics. The recommendation that such action be taken comes from a special committee on the law of aviation, which in its report to the executive committee of the association expresses its hope that in the enactment of any legislation by congress, the most careful preliminary consideration be given to the constitutional features of any proposed legislation, to the end that it may be determined whether the proper development and regulation of aeronautics does not require a constitutional amendment conferring complete jurisdiction over aeronautics upon the United States through its appropriate departments, instead of attempting to adopt devices of questionable constitutionality to make existing national powers supply to this new branch of human activity.

The report further states that neither the public nor the legal profession appears to be alive to the demands of the situation. There is a prevalent tendency, it is asserted, to regard the problem as primarily, if not exclusively, a military problem; whereas in fact it is primarily a commercial and economic problem, with grave inclusions of jurisdiction and law, and demand the aid of jurists and lawyers. The two fundamental juristic problems of aeronautics in this country are emphasized by the committee as follows:

Whether control should be exerted by the national government; and whether the power of such control should be conferred by constitutional amendment, or seized under the claim of the exercise of existing powers. The committee after thorough investigation finds and will report that the embarrasments arising from the present state of the law may be conveniently contributed to the following specific difficulties in existing laws: the uncertainty as to what the law is governing; the lack of uniform laws; the conflict of laws; the insufficiency of law; the hazard of uncharted flight; the hazard of personnel responsibility; the hazard of personnel in unlicensed or unqualified or inadequately equipped pilots; the hazard of deficient air worthiness of aircraft. Together these make up a bunch of uncertainties and a bunch of embarrasments which make the proper conduct of the business of aircraft insurance extremely difficult if not impossible. The committee expresses the belief that recourse to a constitutional amendment is the only way to solve the problem.

GIVES IT CREDIT FOR RESTORING HEALTH

Gains 12 Pounds and Feels Like New Man Since Taking Tanlac, He Says

"Other people, of course, may have the medicine they want, but I'll take Tanlac for mine every time," was the characteristic statement made by Harry H. Hubbard, of 182 Broadway, South Boston, who has been in the trucking business in Boston for 11 years. "For the past four years I have been all out of sorts. My stomach gave me no end of trouble, and it seemed like everything else was the matter with me, too. My appetite was so poor I had to force down the little I ate, and me food hurt me instead of doing me good. Tains in my stomach caused me such agony that at times I thought I would die, and I bloated with gas until I nearly cut off my breath. My nerves were unstrung, and my sleep was so restless that mornings I felt tired out and just about 'all in.' I lost weight, was thin and frail and almost past counting. However, a friend got me to take Tanlac and four bottles of this medicine has me feeling like a brand new man. I eat whatever I want, never feel a sign of indigestion or stomach trouble and have gained 12 pounds in weight. My nerves are as steady as steel. I sleep like a log at night and am in the pink of condition. In fact, I feel fine all the time, and owe Tanlac all the credit for my good health. Tanlac is sold in Lowell by Green's drug store under the personal direction of a special Tanlac representative, Wright Drug Co., Billerica, Mass.; J. J. Falls, Chelmsford, Mass.; Snow's Pharmacy, Concord, Mass., and by the leading druggist in every town.—Adv.

amendment is desirable in providing regulation of air service and at the same time admonishes that the greatest care should be taken to make it amply comprehensive because of the fact that the art of flying is still in its infancy. The committee also submits a tentative constitutional amendment suggested by Major Elza C. Johnson of the United States army, legal adviser to the air service, as follows: "Congress shall have power to provide for regulating the use for air travel of all air spaces over the earth and within the borders of the United States and its territories, and all countries over which the United States has jurisdiction, including the three mile limit on the seas; and to provide for regulations of landing fields, a fixed code of signals, and signs for the navigation of the air and the landing of aircraft."

"Congress shall have further power to provide for the enforcement of said regulations and establish air admiralty courts, or grant to the existing courts the jurisdiction of the admiralty law of the air, which jurisdiction shall include the punishment of all crimes committed on aircraft, whether in the air or in port, landing fields, and over all civil cases over which admiralty courts now, or hereafter, generally have jurisdiction, which have their source in air travel."

The committee adds that the time has certainly come when it can no longer be said that this is a subject of general interest, or about which there can be any doubt as to the necessity of legislation.

Justice Taft to Preside

CINCINNATI, O., Aug. 19.—William Howard Taft, chief justice of the supreme court of the United States will preside at the banquet to be given in connection with the annual convention of the American Bar association to be held here from August 30 to September 2. It was definitely announced here in connection with the making public of the official program. The banquet will be held on the evening of September 2. Governor Harry L. Davis and Mayor John L. Galvin of Cincinnati will welcome the association at the opening session on Wednesday, August 31. James M. Heck of New York will speak on "The Spirit of Lawlessness" and Harry M. Dougherty, attorney-general of the U. S. will deliver an address at the afternoon session. With Edwin Root presiding at the evening session, John W. Davis, former ambassador to Great Britain will address the bar association on the subject, "Our Brethren Overseas." Rt. Hon. John A. Simon, K.C., of London, former attorney general of England is also scheduled to speak at the evening session which will conclude with memorial tributes to the late Edward White, chief justice of the supreme court, William A. Mount and Stephen S. Gregory, and the election of a general council. Charles S. Thomas, former senator from Colorado will speak on the subject, "Without A Friend" at the Thursday afternoon session which will also be taken up with the reports of committees. An outing is on the program for the forenoon. A symposium on the general subject, "The Administration of Criminal Justice," will be taken up at the morning session on Friday, Sept. 2. The nomination and election of officers will also be held. The afternoon session will be consumed with committee reports and Saturday, the final day, will see an all day excursion to Dayton, Ohio, as guests of the Montgomery County Bar association.

CONGRESSWOMAN REPLIES TO CRITICS

WASHINGTON, Aug. 19.—Arroused by a statement by the National League of Women voters as to her attitude on feminine representation on the disarmament conference, Representative Alice Robertson issued a statement declaring she had been misquoted in the league's statement. Mrs. Robertson contended she never has told President Harding there was no woman qualified to sit in as an American commissioner. She did say, her statement continued, "show me the woman properly qualified," and her statement added that the league officials did not suggest such a woman to Mr. Harding.

ANTI-BEER BILL IS BLOCKED IN SENATE

WASHINGTON, Aug. 19.—The Stanley amendment to the anti-beer bill, designed to safeguard through heavy penalties a man's home and property from illegal search for liquor—was regarded last night as the stumbling block in the way of the measure's final enactment, prior to the recess next week of congress.

House managers were said to have agreed to leave it intact, so far as it related specifically to the searching of a home on a warrant obtained under that severe penalty, but there is a demand of protecting the home, be sharply out.

During the senate debate, there were insistent demands that a man's property, including his barn, his baggage, automobile or garage, should be subjected to the same safeguards that surrounded his actual place of abode. Put the conferees were reported to have agreed to a provision that a warrant issued to search "other property," providing a prohibition officer had reason to believe the suspect was guilty and if the search was not prompted by malice.

In other respects, the differences in the senate and house measures were reconciled, but they had not been expected to provoke a fight. Leaders said the house would accept the changes indicated, although they frankly expressed doubts as to the possible attitude of the senate, even if the senate managers should meet the house demands.

So pronounced was the opposition of house prohibition leaders to the Stanley amendment that they indicated privately a willingness to let the beer regulations be issued rather than accept it as drawn. At all events, there were grave doubts as to whether the bill could be sent to the president for his approval before the recess.

The reported presence of Wayne R. Wheeler, general counsel for the Anti-Saloon league, at the discussions between senate and house conferees, which always are secret, was denounced on the floor of the senate by Senator Reed, democrat, Missouri, as "unwarranted and unpunished insolence."

Both Senator Sterling and Mr. Wheeler denied that the latter had participated. After the Reed attack, Mr. Wheeler issued a statement attacking the senator, which the latter obtained and read to the senate. This provoked another flurry, Senator Reed and others indignantly denying that any filibuster had been attempted by the senate to delay passage of the bill. Senator Reed declared that when the league attorney charged filibustering, he

knew "it was a deliberate, wilful and premeditated falsehood."

The fight over this provision of the bill, adopted unanimously by the senate yesterday, and prohibition leaders declared it was more than likely all beer legislation would go over until fall, with the possibility that the treasury department meanwhile might issue regulations under which beer could be manufactured and prescribed for the sick.

Because of the "evident intention" of senate conferees to destroy the effect of the Stanley amendment, Senator Ashurst, democrat, Arizona, "boiled" the conference, announcing that he would take no part therein or sign any report unless the amendment was retained precisely as originally written.

At the end of an all-day wrangle in conference and in the senate, according to leaders the whole course of the proposed anti-beer legislation hinged upon hope of agreement by senate and house managers.

MUST REDUCE FREIGHT RATES

WASHINGTON, Aug. 19.—Railroads must share with the farmers and others the burden of the present economic situation by reducing freight rates, Secretary Wallace said yesterday before the Interstate Commerce commission, which is investigating rates on grain and hay. High freight rates have stopped production, the secretary said, adding that if the present situation continued production from the farms would be reduced materially.

GEN. PERSHING EXPECTED TO VISIT DEVENS

CAMP DEVENS, Aug. 19.—New England's first citizens' military training camp was yesterday subjected to a thorough inspection by a member of the general staff from Washington, Col. H. G. Bishop was the general

staff officer who made the inspection. He was accompanied on his visit by Col. Marcellus G. Spinks and Col. Buchanan of the 1st corps area.

With Col. Frank C. Bolles, executive officer of the camp, Col. Bishop made a tour of the entire plant. Col. Bishop declared himself pleased with all he had observed. While there was no official announcement to this effect, it is generally understood that Col. Bishop's visit is preliminary to that of Gen. Pershing. No date has yet been set for Pershing's arrival here and while it is understood that he will visit the C. M. T. C. at Plattsburg, N. Y., and this camp on the same trip, no one seems to know which camp he will take in first. He is expected to arrive within the next few days, however, and notice of his coming is almost hourly looked for.

Few of the residents have ever seen the famous "Black Jack," and the prospect of being inspected, reviewed and addressed by him has filled many a lad with a veritable frenzy of energy and excitement. When he arrives he will find these New England youngsters ready for him.

Full fashioned.

SOME PEACHES

Before Secretary of Agriculture Wallace took that big bite, the peach measured 14 inches in circumference and weighed two pounds. The freckle-faced lad exhibiting the peaches is Joe Watson, son of Senator Jim Watson. Joe defines any state to produce peaches larger, tastier or juicier than those grown in Indiana.

Dr. Poling, Hurt in Auto Crash, Improves

NORTHAMPTON, Aug. 19.—Dr. Daniel A. Poling, associate president of the United Society of Christian Endeavor, who was seriously injured in an automobile accident July 4th, has been moved from the hospital here to his summer home on Lake Saugapee, N. H. His condition is improving rapidly.

SEND PROTEST TO HARDING ON TAX

CHICAGO, Aug. 19.—The Chicago Association of Commerce today sent a telegram to President Harding and members of congress protesting against "abandonment of the original tax relief program." The message, according to J. R. Noel, president of the association, was sent on behalf of business men of Chicago and the middle west who felt that the "best interests of the country demand adherence to the original program."

WHY YOU NEED IRON

Tomakeyoustrongand"brandy" and put the power into your blood to overcome disease germs

PRACTICAL ADVICE ON HOW TO DEVELOP GREAT ENERGY AND ENDURANCE

The food you eat contains carbon. When your food is absorbed by the blood. When the carbon in your food comes in contact with the oxygen carried by the iron in your blood, the carbon and oxygen unite and by so doing they give off tremendous energy, thereby giving you great force, strength and endurance. Without iron your blood carries no oxygen and without oxygen there is nothing to unite with the carbon in your food, so that what you eat does you no good—you do not get any strength from it—it is like putting coal into a stove without a fire. You cannot get any heat unless the coal unites with the fire.

The strongest weapon with which to prevent and overcome colds, pneumonia, kidney trouble, rheumatism, nervous prostration, in fact almost any disease or disease germs is plenty of good rich, pure blood, strength, energy and endurance and the greatest energy carrier in the body is organic iron, not metallic iron which people usually take, but organic iron like the iron in spinach, lentils and apples and like the iron contained in what is known as organic Nuxated Iron, which may be had from almost any druggist.

If you have been taking metallic iron without benefit such is no proof that organic Nuxated Iron will not help you. Nuxated Iron often increases the strength, energy and endurance of weak, nervous, run down folks in two weeks time. It is such an extremely valuable product that even the Pope at Rome wrote especially of its merits in a communication to the Pharmacopoeia Normale. It has been used and highly recommended by former United States Senators, Members of Congress, Judges of U. S. Courts, many physicians and prominent men.

Over 4,000,000 people are now using it annually. Satisfactory results are guaranteed or the manufacturers will refund your money. Sold by all druggists in tablet form only.—Adv.

Business men of Chicago and the middle west who felt that the "best interests of the country demand adherence to the original program."

The telegram said "that the interests of the country demand the repeal of the excess profits tax, as of Jan. 1."

FOR 3 DAYS ONLY

Today, Saturday and Monday

Bring this ad. with you and I'll accept it as a \$3.00 payment on any

FREE COUPON

I'll accept this as \$3.00 payment on this special offer.

SUIT or OVERCOAT

MADE TO ORDER

Regular \$30.00 to \$35.00 Values—Special at

\$22.50

I have three perfectly good reasons for making this unusual offer—

First of all, I want to test the advertising of Lowell papers.

In the second place, I've got a large organization of tailors, cutters and salesmen on my payroll and I am going to keep them busy even if I have to lose money in doing so.

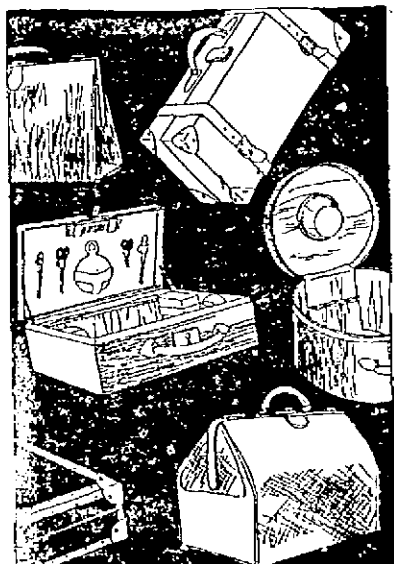

Third, a big Boston woolen house begged me to take 1500 suit and overcoat patterns off their hands at a great sacrifice.

These goods are classed as tailors to the trade samples, real rich designs, in modest colors. Regular \$30 to \$35 values, in today's market. I place these woolens in made-to-measure garments at the specially reduced price of \$22.50, and I'll give you \$3.00 off this price if you bring this ad. with you.

My usual guarantee as to quality, trimmings and tailoring goes with this offer.

FAMINE STILL RAVAGING VOLGA DISTRICTS

LONDON, Aug. 19.—Famine is still ravaging the Volga districts of Russia, but there is a decrease in the cholera epidemic there, says the Moscow correspondent of the Daily Herald. During July, 22,000 cases were reported, as against 42,000 cases in June.

Some of the efforts of the Russian soviet government to cope with the famine are detailed by the correspondent. He says the central soviet executive has appropriated \$10,000,000 rubles for the initial expenses of the relief committee and has also decided to levy a tax of one pound per head (38 lbs.) on goods traded in the free food markets. This food will be turned over to the relief committee. He says that extensive public work plans for employment are being formulated everywhere, where one scheme under advertisement promising the employment of 150,000 peasants, and another 200,000. Trades union machinery is being utilized to transfer the starving from the famine area to more prosperous districts where they can be employed. Free transit of

the materials for relief is being permitted everywhere in Russia.

BUENOS AIRES, Aug. 19.—Government officials would be authorized to send ten million pesos worth of food to Europe for the purpose of relieving the famine sufferers of Russia under the provisions of the bill introduced in the chamber of deputies yesterday by Senator Muzio. Socialist members of the chamber have endorsed the measure.

LOWELL PEOPLE AT SALISBURY BEACH

SALISBURY BEACH, August 19.—The following from Lowell are registered at the Venetian Gardens: Mr. and Mrs. John Clark, Mr. and Mrs. C. H. Cuff, Mr. and Mrs. J. C. Tracy, John F. Graves, Frank McCholter, Mr. and Mrs. Osborn, T. Dean.

AMUSEMENT NOTES

(By Theatres' Own Press Agents) MERRIMACK SQUARE THEATRE. Rollicking, good-natured, clean fun; democratic college students and a scotch heiress—all mixed in with clever incidents and an exciting football game—"The Snob," new play at the Merrimack Square theatre, a pantomime of exceptionally entertaining value. Playing the leading role is Maria Hawley, one of the most flexible stars of the screen. She is a college visitor who snubs a football hero because he is a waiter. She later repents and makes amends in a smashing climax. Justine Johnston in "A Heart to Let" provides another entertainment production. A comedy and the International News complete the bill.

THE STRAND

Predictions as to the beauty of "Where Lights Are Low," which is being shown at the Strand theatre, were more than justified yesterday. The story, based on one by Lloyd Osborne, is a classic, while the acting of Sessue

HOUSE TACKLES TAX PENSION AMENDMENTS

WASHINGTON, Aug. 19.—Amendments to the tax revision bill were taken up in the house today, several proposed by republican members of the ways and means committee being given priority in consideration. Under the agreement all amendments will be submitted through the committee.

Discussion of the amendments was under five-minute limitation following conclusions of general debate late last night. With this limitation the house is expected to work under high pressure in order to dispose of all suggestions by 3 o'clock tomorrow afternoon when a final vote will be taken.

Some of the proposed amendments deal with changes in phraseology only but others propose substantial changes, including one for elimination of the suggested annual license tax of \$10 on vendors of soft drinks. Another would compel individual tax-payers to pay 12 1/2 per cent. on profits from the sale of a capital asset if such profits and the tax payers' net income exceed \$25,000 where as in the bill as reported they would pay 15 per cent. on above \$40,000.

LITTLE TALK ON THRIFT

American Society for Thrift
President Talks on Thrift
in Schools

School days will soon be here again. With them will come renewed opportunities for implanting lessons of thrift in the minds and hearts of those who shall rule the destinies of the nation tomorrow.

It is gratifying that progress is being made in the development of teaching thrift in the schools, for greater attention is being given to this important fundamental of education than ever before. Until recent years those who practiced thrift did so very largely as a result of inherited instincts or through the encouragement given them by their parents. But we are finding out that thrift has a natural place in the school curriculum, and to some extent our youthful citizens are being given systematic instructions in the values of thrift practice.

Humanity's needs have shown that a practical understanding of thrift must be universal not accidental. It seems strange that the substantial principles of economy never have been taught in our schools. Washington, Franklin, Lincoln and many others of the nation's immortals counseled the teachings of this virtue. Washington said, "Economy means happy homes and sound nations; it still it deep." What he saw was that the happiness of the people of this nation really depends very largely on their practices of thrift, honesty, virtue, Lincoln's words on the subject are immortal. He said, "Teach economy—that is one of the first and highest virtues; it begins with saving money."

History's page ever has revealed that thrifty nations prosper and thrifless ones pass away, for thrift is but another way for economic self preservation.

The very life and destiny of America rests on widespread practices of thrift. If we are to fulfill our mission as a nation we must have thrifty homes and thrifty people. In these summer days when another school year, so rich with opportunity, lies ahead of us, let us place a true value on the importance of teaching thrift to the young, both for their future good and for the glory and up-building of our nation.

In the school room we see the face of tomorrow.

REV. B. C. CONNOR DEAD

WILLIAMSPORT, Pa., Aug. 19.—Rev. Benjamin Cuthbert Connor, president of Dickinson Seminary died here late last night following an operation two weeks ago. He was a native of Maryland and was graduated from Dickinson in 1871 and from Wesleyan University, Middletown, Conn., four years later.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots,
How to Remove Freckles

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength ointment, as this strength is sold under guarantee of money back if it fails to remove freckles.—Adv.

TO GUARANTEE
WORLD PEACE

Lloyd George Would Ally
United States, Britain and
Japan in Pacific Pact

Hopes for Triple Agreement
at Washington Disarma-
ment Conference

LONDON, Aug. 19.—(By the Associated Press)—"If the alliance with Japan could be merged into a greater understanding with Japan and the United States on all the problems of the Pacific, that would be a great event, and it would be a guarantee for the peace of the world."

Thus spoke David Lloyd George, the British prime minister, before the house of commons yesterday in outlining the work of the recent conference of the imperial premiers.

The premier was dealing specifically with the Anglo-Japanese alliance at the time, and explaining how the conference had unanimously recognized that Japan loyally had carried out her obligations to Great Britain during the war.

Mr. Lloyd George asked if it was to be suggested that Great Britain now should turn her back upon Japan with a mere "thank you" and "good-bye" after Japan had had proven one of the turning factors in the war, in that it had given protection to the transit of dominion and Indian troops across seas. Even countries disliking the Anglo-Japanese alliance would despise the British if after such services Great Britain turned her back upon Japan, he said.

The premier said he saw no reason why it should be impossible to remember obligations to Japan and at the same time preserve a spirit of fraternity with the United States.

It was a cardinal principle of British policy he said, that Great Britain should act in as complete accord with the United States as possible. He did not know of any country in the world with which it was more important to act in concert. He declared that the surest way to make a success of the disarmament conference was first to reach an understanding on Pacific questions, and he hoped his view in this respect would be taken at the Washington gathering.

During his address Mr. Lloyd George revealed that the conference of the premiers did not discuss the Irish question. He said there was no burning desire to touch upon that difficult matter.

The premier defended the action of Gen. Smuts, the South African premier, with regard to Ireland. He said that Gen. Smuts had acted honorably, and that everything he had done was done with the assent of the king and the ministry.

"The British empire," said the premier, "as a whole, is agreed in the desire for complete friendship with the United States and to make arrangements which would remove every conceivable prospective obstacle to such friendship."

"Nothing would please the British dominions more, as well as the mother country, than a feeling that the British empire and America could work side by side in a common partnership for the restoration of the peace of the world—for guaranteeing the peace of the world."

"I do not know of anything to guarantee that which would be equal to Japan, America and the British empire in agreement upon the great principle on which world policy ought to be based. That would be absolutely a guarantee of the world's peace, and I still am hopeful that such an understanding as would establish such a principle will come as a result of the coming conference at Washington."

Sir Donald Maclean, leader of the Liberals, who followed the premier, expressed satisfaction at the premier's pronouncement and at the fact that Lloyd George would be able to take part in the Washington conference. He added that he was sure this was the wish of the country.

LAWRENCE TAX RATE

Drop of \$3.20 Per \$1000—

Rates in Other Massachusetts Cities Announced

LAWRENCE, Aug. 19.—The tax rate has been reduced \$3.20 on \$1000 from that of last year. The figure announced yesterday is \$28. The total assessed valuation is \$107,552,558, an increase of \$2,900,000 over the year. The rate is principally due to new buildings, especially additions to mills. A reduction in city appropriations also helped to lower the tax rate.

WAYLAND, Aug. 19.—The assessors yesterday announced a cut of \$2.40 in the tax rate, making it \$18.30 for this year. The cut they say was made possible by a re-valuation.

Rebath Rate Advanced
TAUNTON, Aug. 19.—The board of assessors of Rebath have announced the tax rate for the present year as \$29.50 on \$1000, an increase of \$3.30 over the rate of \$26.20 for 1920.

Rebath Rate Advanced
BEVERLY, Aug. 19.—The board of assessors of this town announced the tax rate yesterday. The figure announced is \$22.50 per \$1000, an increase of \$2.50 over last year's rate. The total valuation was announced as \$42,616,558, an increase of \$13,010 over the preceding valuation.

Westfield Rate Reduced
WESTFIELD, Aug. 19.—A reduction of \$4.20 in the tax rate was announced by the assessors yesterday afternoon following the completion of the work of the board in the new series of valuation program. The rate this year is \$26.50 as compared with \$31 a year ago. Valuations were increased \$2,300,322, bringing the valuation of the city to \$16,555,558.

Real estate valuations were increased \$3,427,159 to a total of \$13,557,710, and personal valuations were increased \$278,500 to a figure of \$3,257,150. Westfield is experiencing its first year of city government. Mayor Searies, for many years town clerk, promised a program of reduced taxes and increased valuations in his inaugural. In addition the mayor has so conducted the city's finances that the amount to be raised by taxation this year is approximately the same as that of a year ago.

Wine was made over 6000 years ago. The first bottles were made of skin. It became one of the arms of Venus de Milo is still a mystery.

61,859,900,000 Cigarets Made in U. S.

WASHINGTON, Aug. 19.—Cigarets numbering 61,859,900,000 were manufactured in the United States last year, the census bureau's annual tobacco report issued today shows. Of that number 15,834,000,000 were exported, leaving about 46,000,000,000 factory-made cigarettes for consumption in the United States. Cigarets manufactured 8,720,754,000 and tobacco manufactured, both smoking and snuff, totaled 413,891,000 pounds.

MERRIMACK MILLS CLOSED

The entire plant of the Merrimack Mfg. Co. shut down last night until Tuesday morning, September 6. In the early part of the week it was announced at the office of the company that the plant would operate until Saturday noon, but an eleventh hour order from headquarters resulted in the plant shutting down last night.

ST. THERESE COUNCIL

A meeting of the members of St. Therese council, U. S. J. Bie. d'A. will be held this evening at the C.M. A.C. hall. It is expected that there will be a large attendance for delegates to the triennial convention of the union, which will be held at Lewiston, Me. next month, will be chosen.

LIGHTNING STUNS MAN

House Struck in Pawtucketville — Lowell Hit by Deluge of Rain

Lightning damaged the home of Thomas A. Judge, of Mt. Hope street, to the extent of \$300, stunning a man and tore bricks from the walls of the Waterhead mills, and played hob with telephone and electric light circuits throughout the city in yesterday afternoon's storm which suddenly sprang up about 4 o'clock, and which swept with torrents of rain across Lowell. The locks and canals company reported that within a period of less than 30 minutes rain fell to the extent of .791 inches.

At the edge residence apparently the bolt struck a wire clothesline and passed to the porch of the house. The occupants attached to the line were shunted, and the post clipped. The bolt entering via the bath room, leaving its way through the plaster to the pantry, where metal kitchen utensils were demolished. The top of a table standing in the bath room was flung through two doors, while the kitchen windows were all broken, and a clock which had occupied the mantel there mysteriously vanished. A window, with frame unbroken and blind, was torn out of the house, the back wall of which was bent outwards by a Titan hand. The window, with its appurtenances, was discovered 12 feet away under a bush.

The house was without human occupants at the time the bolt landed. Mr. Judge was at work, and his wife was visiting at a neighbor's dwelling. The first person to reach the house after the crash was E. J. McCarthy, who felt the shock as he was busy in his shop, some five yards away. At the Waterhead mills falling bricks from the northeast corner of the battlement signaled the bolt. A worker in the dye house was thrown to the ground, but not injured. Line fuses were blown out in Gort-

ham street, and both line and inside fuses were blown out in the subway section of Chelmsford. The lightning service in that town was temporarily disabled. Approximately 1000 telephone subscribers in Lowell had their connections put out of commission. The heavy electric charges filling the air rang the fire bells several times. The storm had its agreeable features however, effecting a 10 degree lowering of the thermometer, from 85 at 3 o'clock to 75 at 6 o'clock.

LOWELL STORE WINS LOVING CUP CONTEST

In a sales contest conducted between the six department stores of the L. R. Steel Co. in Lawrence, Lowell, Manchester, Concord, Haverhill, and Nashua under the firm name of the F. E. Nelson Co., the Lowell store, under the management of F. E. Marcotte, won the contest by showing the greatest amount of increased business between April 15th and July 2nd.

The contest was conducted on a rather interesting basis similar to the way the winners are determined in a baseball league, adding points for each day the stores did more business than previous years, and deducting when they fell below.

Each and every employee of the F. E. Nelson company worked untiringly to make the grade ahead of the other contestants, and Mr. Marcotte feels that without the co-operation and the extra effort his clerks gave, he would have failed to be the leader. Another feature that he appreciates was the reception given to the numerous sales run during the contest by the Lowell people.

The prize itself was well worth winning as it is a loving cup of solid silver standing over a foot high and mounted on a mahogany base with the manager's name engraved in old English letters on the side.

HELP FOR WORLD WAR VETERANS

The matter of relief for the World War veterans of this city who are out of work and in needy circumstances, was taken up at a recent meeting of the Lowell St. Vincent de Paul conference. In the course of

OUR FULL LINE OF VEGETABLES ARRIVED FRESH FROM THE FARM THIS MORNING

the meeting it was brought out that there are many veterans in this city, who are in need of assistance, some of them with families, and inasmuch as the society was formed for the purpose of lending a helping hand to worthy people, the following committee was appointed to investigate each and every case of veterans in need, brought to their attention and to report back to the conference so that steps may be taken to bring about relief. Humphrey O'Sullivan, Ephrem Pelletier and John J. Reilly.

CHILDREN PLAY AT FORT HILL PARK

This afternoon the girls of the City club again displayed a lively interest in community welfare when they took the children of the Twilight playgrounds on an informal outing to Fort Hill park. The two evening playgrounds situated on Charles and Moody streets have been operated all summer under the supervision of the chamber of commerce. The instructors on these playgrounds are members of the Girls' city club who are experienced in welfare work, supervised play, and the teaching of modern games and dances. The outing this afternoon was a part of the program of the club which includes doing all in its power for the children of the city.

On arriving at the park the children were taken to see the zoo, conducted by the park department and then the rest of the afternoon was taken up with games and folk dancing. Late in the afternoon ice cream and cake were served to the children. Miss Alice Sullivan, director of the Girls' city club and member of the chamber of commerce committee on playgrounds, had general charge. She was assisted by Miss Sallie Melancon and Miss Helen Latour, playground supervisors, and a group of City club girls.

KILLED BY OFFICERS

Moors Put to Death Because They Complained of Abuses in Philippines

MANILA, Aug. 19.—Charges that members of the Philippine constabulary are killing Moors in Mindanao Island because they complained of abuses to the Wood-Forbes mission are contained in a telegram received by Charles E. Yeater, acting governor of the Philippines, from L. S. Lyon, an American oil prospector in Mindanao. Brigadier Rafael Crano, commanding the constabulary, has ordered an investigation and Mr. Yeater has referred the matter to General Wood.

TUBERCULAR CATTLE TO BE SLAIN IN CONN.

HARTFORD, Conn., Aug. 19.—Group quarantine of tubercular cattle will be abolished in Connecticut, and all cows condemned will be slain, James M. Whitlesey, commissioner of domestic animals, announced yesterday. The assembly appropriated \$140,000 for eradication of bovine tuberculosis beginning with July 1. The commissioner says that diseased cattle break down easily after segregation and that it is folly to attempt to cure cows placed in quarantine. He also says that no milk from a cow showing tuberculosis should be used for human consumption whether pasteurized or not.

The Hartford board of health has endorsed Commissioner Whitlesey's attitude. Geologists have found the remains of a huge prehistoric animal in Manhattan. The bones measure 40 feet in length.

Reduce Those Dangerous Swollen Veins

Physicians are prescribing and hospitals are using a new and harmless, yet very powerful germicide that not only causes enlarged or varicose veins and hunches to become normal, but also reduces swollen, enlarged glands and wounds.

Ask any first class druggist for an original two-ounce bottle of Moone's Emerald Oil (full strength) and refuse to accept anything in its place. It is such a highly concentrated preparation that two ounces lasts a long time and furthermore if this wonderful discovery does not produce the results anticipated, you can have the price refunded.

It is not wise for anyone to allow swollen veins to keep on enlarging. Often they burst and cause weeks of pain, suffering and loss of employment. Start the Emerald Oil treatment as directions advise and improvement will begin at once. Generous samples on receipt of 15 cent. silver or stamps. International Laboratories, Rochester, N. Y. Your druggist or Fred Howard can supply you.—Adv.

The Bon Marche

Final Terms, Says Premier

Continued
very disquieting statements have been made, and even a few disquieting facts, we are bound as government to take thought of all positions, however unpleasant they may be.

"The first is the possibility of an agreement, in which case the details will have to be threshed out, which will take time. There is always apt to be an atmosphere of suspicion surrounding relations between two countries—a suggestion of bad faith if there is a misunderstanding on the slightest particular."

Delays Disastrous Once

It would thus be the duty, of the executive, said the prime minister, to place a bill embodying the details and principles before the parliament for immediate action, because delay was disastrous once an agreement was reached.

"I wish it was no necessary to deal with the other continent, but we are bound to take notice of certain things which have been said. This contingency is that our terms are rejected."

"Were that misfortune to befall the relations between these islands whose history has been so full of such unfortunate incidents we would be faced with a graver situation in regard to Ireland than that which we have been confronted with."

What Has Been Accomplished

"Whatever these terms may accomplish and may have done, there is one thing they have achieved. They have defined the issues more clearly than ever before and reduction would be an unmistakable challenge to the authority of the crown and the unity of the empire, and no party in the state could possibly pass that over without notice."

"I am using no language of menace. That would be indeed folly. Where there are so many existing difficulties to use threatening language would be to aggravate old difficulties and create new ones."

"If there is rejection, and final rejection beyond hope of negotiation, steps will undoubtedly have to be taken which the executive ought not and won't wish to take without first consulting parliament and giving it full opportunity of expressing approval or disapproval of any steps we might propose to it."

The premier explained that the motion to adjourn was for the house to meet Oct. 18 for formal prorogation if the negotiations were proceeding satisfactorily. If the negotiations fell down and the position became hopeless, he added, the speaker was empowered, after consultation with the government, to summon parliament on 48-hours notice.

The executive, said the prime minister, would feel authorized to take any necessary urgency measures but would not, therefore, delay the summoning of parliament.

Hopes Irish Leaders Yield

In concluding, Mr. Lloyd George said: "The government are sincerely desirous that peace should be secured and that the long misunderstandings, sometimes, sulky, sometimes savage, which make so many chapters of British history painful reading, misanderstandings between these two peoples who ought to live in peace and harmony, even in affection, together, should be brought to an end."

"In spite of the disquieting facts, I hope reason will prevail even over logic, and that the Irish leaders will not reject the largest measures of freedom ever offered their country and take the responsibility of renewing a conflict which would be robbed of all glory and all gratitude by its overshadowing horror."

Limit, Says Curzon

LONDON, Aug. 19.—(By the Associated Press)—Lord Curzon, secretary for foreign affairs, speaking in the house of lords today on the Irish negotiations, said the government had offered all that could be given without compromising the safety of the realm, the sovereignty of the crown and the dignity of the empire.

No Meeting of Dail
LONDON, Aug. 19.—The Irish re-

publican parliament, which has been in session in Dublin and has apparently laid the ground for consideration of the British offer of dominion status, did not plan to meet today. Announcement was made yesterday at Dublin that today would be devoted to committee meetings, and that it was believed formal debate on the British peace proposals might begin tomorrow.

Watching London

DUBLIN, Aug. 19.—(By the Associated Press)—The leaders of the Sinn Féin today were centering their attention on London, awaiting the expression of the Irish negotiations by Premier Lloyd George in the house of commons and the government's reply in the house of lords to the recent invitation by the Marquis of Salisbury for an official outgiving on this subject. Meanwhile the rank and file of the deputies were engaged in committee work in consideration of Irish international affairs.

Possibilities of Delay

The fact that the Dail put off discussion of the reply to the British

prime minister's peace offer until Monday, as announced yesterday was indicated to be due to the expectation that Mr. Lloyd George will say something meanwhile in answer to Eamon De Valera's speech of Wednesday, or possibly to the anticipation that some move would be made to induce Ulster to join forces with the south.

These, at least, are the reasons generally accepted here, although there are pessimistically inclined quarters which give expression to the view that the Dail Eireann is taking advantage of the opportunity to get rid of its necessary business in the open, before a possible ending of the truce.

Minor Clash in Cork

The danger that exists of possible incidents while the negotiations are being prolonged was again called to attention today by the reports from Cork on happenings of last night there. Two "black and tans" who were out on a last commandeered an automobile belonging to the Irish republican army. Members of the republican army retaliated by kidnapping a divisional inspector of police, and it took all the diplomacy of the Ulster officers to get the affair smoothed over.

One Day Strike of Farmhands

ARLINGTON, Aug. 19.—A one day strike of farm hands employed by Wyman Brothers, market gardeners of this town, ended in a compromise today. About 50 men and women quit yesterday as a protest against a reduction in wages of \$2 per week. At a conference today a cut of \$1 was agreed to and the farm hands immediately returned to work.

GERMAN-AMERICAN PACT

Chancellor Wirth Seeks Support of all Factions for His Plans to Negotiate

BERLIN, Aug. 19.—Chancellor Wirth is endeavoring to secure the support of all political factions represented in the Reichstag for his plans looking to the negotiation of a treaty of peace with the United States. Conferences of an important nature have been held during the past few days, the one of Tuesday being especially important. At this session Count Von Bernstorff, former German ambassador at Washington, was present as spokesman for the democratic party.

It is declared that the chancellor's efforts are being directed against the opening of a general debate on the treaty in the Reichstag, and it is asserted that "gentlemen's agreement" with the Reichstag factions before ratification of the treaty is considered in plenary session, the debate may resolve itself into a session of bitter wrangling.

Fears are expressed that the German-American diplomacy and the submarine policy which brought about American intervention in the war will again be dragged forth by those who seek to exploit them for partisan purposes. It is for the purpose of obviating such a situation that Chancellor Wirth is laboring to obtain an agreement by all parties which will result in minimizing, if not wholly eliminating debate in the plenary session.

GEN. DIAZ, ITALIAN WAR HERO, COMING TO U. S.

ROME, Aug. 19. (By the Associated Press).—General Armando Diaz, commander in chief of the Italian armies, has been authorized by King Victor Emmanuel to accept the invitation of the American Legion to attend its convention at Kansas City in October.

PRINCE ALEXANDER DANGEROUSLY ILL

(By the Associated Press).—Prince Alexander of Yugoslavia, son of the late King Peter of Serbia, is dangerously ill of appendicitis in Paris, instead of being about to enter Belgrade, as despatches from that city have reported. The prognosis is favorable, however. It is officially announced he will be unable to attend the funeral of his father in Belgrade. An official bulletin on Alexander's condition, issued last night, said:

"Prince Alexander is suffering from a serious attack of appendicitis. For five days his condition has been stationary. His temperature ranges from 100 to 102. The question of an operation is pending. The prognosis is good."

The presence in Paris and the condition of Alexander apparently has been known to only a few persons, as despatches from Belgrade last night dealt with his formal accession to the throne of Yugoslavia on August 26.

Tea was used as a beverage in China more than 2000 years ago.

Mlle. Lenglen Unable to Play in Tourney

BOSTON, Aug. 19.—Suzanne Lenglen, the French tennis star whose formal entry for the national mixed doubles tournament to be played here next week was received yesterday by officials of the Longwood Cricket club, sent word today that she would not be able to participate.

A message received by Edwin Sheaf, president of the Longwood club and local representative of the United States Lawn Tennis association, said Mlle. Lenglen's physicians had forbidden her to play in the tournament. She had been entered as a partner of William M. Johnston of California.

Mr. Sheaf said he was endeavoring to arrange for Mlle. Lenglen to appear in an exhibition match at the Longwood club on Aug. 29.

CHINESE NATIONALISTS IN PROTEST TO HARDING

HARTFORD, Conn., Aug. 19.—A petition was forwarded to President Harding last night by the Connecticut branch of the Chinese Nationalist party, asking that the invitation to the disarmament conference be withdrawn from the "reactionary" Chinese government at Peking, and the invitation be sent instead to the constitutional government of which Dr. Sun Yat Sen is the president. Copies of the petition also went to Secretary Hughes, Senator Lodge and Speaker Gillette.

The Nationalist party has its headquarters in this city.

SUES DIRECTORS FOR \$5,000,000

Bank Commissioner Charges Cosmopolitan Trust Officers With Gross Negligence

Action Brought in the Supreme Judicial Court Causes Sensation

BOSTON, Aug. 19.—The bombshell thus far exploded by the Massachusetts bank commissioner in connection with the trust companies that he has closed in this city during the past year, came yesterday, when the bank commissioner, Joseph C. Allen, filed a suit in equity in the supreme judicial court against the officers and directors of the Cosmopolitan Trust company.

He places the ad damnum at \$5,000,000. Specifications in the bill of complaint allege that the losses incurred in the conduct of the business of the bank are in excess of \$4,151,155.47.

"Gross and repeated negligence in making loans and investments," "repeated violations of banking laws for trust companies, both in the commercial and savings departments," the commissioner says, have resulted in these losses, which he now sues to recover by action.

The suit will be heard in the civil session of the supreme court. The attorney for the state will be Frank N. Nay of the law firm of Bates, Nay, Abbott & Dana.

The commissioner has been hard at work on the case for the past three months.

Directors Sued

The directors against whom the suit is brought are Max Mitchell, Patrick J. Bergin, Rocco Brindisi, Edward C. Donnelly, Michael J. Jordan, Patrick F. O'Keefe, Raymond H. Ryan, Benjamin A. Prager and Simon Varenberg, all of Boston; Silas Peirce, Brookline; Gabrielle Stabile, Somerville; Patrick E. Magrane, Lynn, and Hiram J. Potter, Brookline.

Bank Commissioner Allen says the directors "did not exercise due diligence in the matter of making investments of the plaintiff company's money and in lending funds of the plaintiff company."

"That they were guilty of gross and repeated negligence both as regards said investments and loans."

"That they repeatedly violated the laws concerning investment of the funds of trust companies and concerning the lending of funds of trust companies, both in the general or commercial department of the plaintiff company, and in the savings department, violating repeatedly in both departments the special laws concerning loans and investments in such departments."

Large Losses Resulted

That the negligence and carelessness of the several defendants in negligently and recklessly lending the funds of the plaintiff company, and in negligently making investments thereof, resulted in very large losses to the

SHARK HUNTING AFFORDS LOTS OF THRILLS

(Special Correspondence.)
HONOLULU, Hawaii, August 1.—Thrills occasioned by riding the surf in outrigger canoes or on native surf boards, or standing on the rim of the continuously active volcano of Kilauea and gazing down into the roaring, foaming sea of molten lava, have an active rival in the keen excitement that accompanies the hunting of the shark in the waters outside the coral reef that encircles the island of Oahu.

Newspaper men who are coming to Honolulu in October as delegates to the Press Congress of the World will find that shark hunting goes hand in hand with other sports, and although intensely exciting, is in no way dangerous. The shark hunters go to sea in a launch or sampan which tows a dead white horse. When the fishing grounds are reached, the boat begins to circle about, and soon the fins of sharks may be seen cutting through the water.

If one is an expert, he may harpoon a shark as it turns over to strike, or he may try his luck with a high-powered rifle. The shark is a furious fighter and, once harpooned or caught with hook and line, displays amazing strength. But he finally tires and is gradually hauled aboard and then dispatched.

There are few Hawaiians living today who care to meet a shark in the open water and fight him as his ancestors did. In the old days a Hawaiian armed himself with a hard, wooden double-pointed javelin about 18 inches long, and with the center portion large enough to permit a good grip. He then let himself down into the water. As the shark approached and turned over to strike, its great jaws open to their full width, the Hawaiian, with a quick movement, thrust the javelin between the jaws, one point penetrating the roof of the mouth and the other the lower jaw. The shark, thus unable to close his mouth, and helpless, was either speared or allowed to swim away as the Hawaiian chose.

There were some daring fishermen who would attack a shark single-handed, armed only with a short dagger or spear, and depending upon his agility in the water to avoid the monster until the time came to strike.

IMMIGRANTS WELCOMED TO ARGENTINA

BUENOS AIRES, Aug. 19.—While the United States is decreasing the number of immigrants admitted into the country, Argentina, with thousands of fertile acres that have never felt a plow, is welcoming them with open arms, and is even feeding and lodging them while helping them to find employment.

After getting foot in Argentina the immigrant is welcomed into a spotless, comfortable hotel where, in addition to being supplied free of charge with every personal necessity and convenience he is taught by means of motion pictures and lectures something of the new land in which he is to make his home and is aided, when possible, to find employment. On deciding upon his destination within the country, the immigrant is supplied with free transportation to that place.

While the majority of immigrants arriving in the country are Spaniards and Italians, Germans are now arriving together with some from other countries. Although the Germans come here third class on account of the low value of the mark, many of them are skilled workers and even professional men. They bring with them quantities of machinery and equipment with which to start their new life.

THREW LIGHT ON DANGEROUS SUBJECT

Last evening at about 9:45 o'clock a man from Rumford, Maine, struck a match to peer into the gasoline tank of his automobile—and a few moments later a section of the fire department was streaming in his direction. Happily the flames were extinguished before any great damage had been done. The accident took place near the corner of Lakeview avenue and Lilley avenue where the stranger had stopped his machine in order to determine how much gas he had on tap.

ONE LITTLE BLEMISH Will Mar Your Beauty

No matter how perfect the features or how prettily groomed, if your complexion is marred by a pimple or ugly blemish, you cannot possess complete beauty.

Little facial blemishes can be easily removed by the use of Black and White Beauty Bleach.

This delightful fresh-tinted cream forms an invisible coating which will clear the skin of tan, freckles, pimples, unsightly blotches, liver spots and similar blemishes.

Black and White Soap should be used in connection with Beauty Bleach. It is a pure soap and a delightful aid in keeping the skin clear, soft and youthful.

Black and White Beauty Bleach can be found at your drug or department store; Bleach 50¢ the package, Soap 25¢ the cake. Free literature and samples of Black and White Beauty Powder and Talcum sent upon request to Rula Murray, Pough Chemical Co., Memphis, Tenn.

COLONY OF AMERICAN FARMERS IN PERU

LIMA, Peru, Aug. 19.—A group of American farmers, comprising the advance guard of a colonization scheme said to involve more than 200 families from the western United States, arrived here recently enroute to the Pampa del Sacramento valley along the eastern head waters of the Amazon river, in northern Peru, where the colony is to be established.

The party is in charge of J. B. Schoenfeldt of Okmulgee, Okla., formerly United States Indian agent for Oklahoma territory, who obtained for colonization purposes a grant of 550,000 acres of agricultural and forestry lands from the Peruvian government last October.

After the preliminary location of the lands in the concession is completed, it is planned to bring the remaining colonists, numbering about 500, to the settlement via Para, Brazil, and the Amazon and Ucayali rivers. The former is navigable from its mouth on the Atlantic ocean to Iquitos, Peru, about 2000 miles.

In an interview published in the West Coast Leader, Mr. Schoenfeldt said that, owing to drought and crop failure, a number of farmers in the central west had expressed their desire to seek more fertile and profitable fields.

"I decided to look over South America," he said, "since most of the American government's desirable vacant lands, that could be obtained at a low price, have been allotted to foreign immigrants. The colonists, who are chiefly from the west, are farmers of some means and they can secure their farms at a cost of a few cents per acre simple to their lands, as soon as 200 families have been settled on the concession.

About half of the tract, according to Mr. Schoenfeldt, consists of grassy plains, rolling hill land and valley. The remainder has forests. The land is said to be suitable for producing all kinds of agricultural products, especially sugar, cacao, cotton, rice, indigo and tobacco. The farms will be divided into tracts of from 500 to 5000 acres with an average of about 1000 acres for each family.

RELIEF CORPS MEETING
One candidate was initiated and several applications for membership were received at last evening's regular meeting of James A. Garfield Relief Corps, 33, which was held in Post 153, G.A.R. hall with Mrs. Elvira Giles in the chair. Routine business was transacted and it was voted to hold a fair on Thursday, Sept. 29.

SCHOOL FIRE ALARMS
The fire department has plans under way for the installation of private alarm boxes in all the local grammar schools. One has already been put in place in the Morey school and another is now being put in the Yarnum school. The boxes will be used only in case of fire in the school itself, the idea being to prevent delay in summoning the department.

Clocks regulated and operated by water power are common in China.

PETRIE WILL TAKE THE NIGHT DESK

Capt. David Petrie, who was yesterday promoted from the rank of lieutenant in the local police department by Mayor Thompson, will assume charge of the night desk at police headquarters next Monday. He will succeed Capt. Thomas Atkinson, who will fill the position of day captain left vacant by the death of Capt. James Brosnan.

MAYOR SPEAKER AT FLAG RAISING

Mayor Thompson of this city was one of the speakers at flag raising exercises at Ocean Park, Me. Tuesday afternoon. His Honor was motoring with his wife and daughter and stopped at the park for dinner. He was quickly recognized by a number of Lowell people and although he had less than two hours' notice the mayor agreed to speak briefly at the exercises planned for the afternoon. Those who heard him say that his effort was one of the most entertaining of his career. His address was roundly applauded by the members of the summer colony. The mayor spent much of his boyhood at Ocean park and was therefore able to speak of it with more or less familiarity.

Ammonia water and soap is one of the best cleansers of jewelry.

RETREAT FOR TIRED CONGRESSMEN?

Hard-working congressmen plan to convert this farm house, 12 miles from the capitol, into a recreation club. Representatives Lubring and Cole "discovered" it.

The opening game in the women's national championship tennis tournament at Forest Hills, L. I. Mrs. Molla Bjurstedt Mallory, in the foreground, deflated Mrs. Marion Zinderstein Jessup, of Boston, in straight sets before a packed gallery.

GRAND CIRCUIT RACES

Millie Irwin, Maine Mare, Gets Away With the 2.05 Trot

PHILADELPHIA, Aug. 19.—The Maine mare, Millie Irwin, driven by W. T. Fleming, started at the Grand Circuit races at Belmont park yesterday, which were resumed after a day's postponement on account of rain. In a hard-fought split heat race she won the \$250 stake for 2.05 trotters, beating such stars as Sister Bertha and E. Colorado over a track still slick from the rain of yesterday. The unbeaten Millie, from the Murphy stable, kept her red and clean by leading the 3-year-old trotters, although he lost the final heat, the first time he has been headed a heat this season. All of the races went to split heats, the 2.13 trot requiring four to reach a decision. E. Colorado was a 4 to 5 choice for the 1.05 trot. Bonnie Del set the pace in the first heat, trailed by the Cox mount, E. Colorado taking the lead at the head of the stretch, but Millie Irwin came fast on the outside and won in a close finish. Millie set the pace in the second and held it until close to the wire, Sister Bertha making a rush in the last few yards and getting the decision. Millie Irwin led all the way in the final heat, beating Sister Bertha a length. Sillidar and Lee Tide were the choices for the colt race. Sillidar led all the way in the first two heats but broke at the seven-eighths in the third and Sillidar beat Lee Tide in a hustling finish. King Harvester was best liked in the 2.13 trot and won the first heat, and then broke and brought out the race. Butlin came fast in the stretch and won the third. The three heat winners raced it off, King Harvester leading to the stretch in slow time, then Bettina came on and won. Grace Hale made the early pace in the dash race, but tired in the stretch and the Hillandale farm colt, Flawarra, came on and won. Three of the four money winners in this event are three-year-olds. Secretary Gocher of the National Trotting association arranged a match race between the champion trotter, Peter Manning, purse \$500, to be run on Sept. 6, during the Grand Circuit meeting at Hartford. The money is to be divided 60 per cent. to the winner and 40 to the loser.

Look how confident Mrs. Molla Bjurstedt Mallory looks in the picture on the left. That was just before her match with Suzanne Lenglen for the tennis championship of America. The center picture shows Suzanne on the arm of a tennis official and in tears, as she defaulted the match after Molla had won the first set 6-2 and the first two points of the second set. On the right is Molla leaving the courts, dissatisfied at the outcome of the match. She wanted to beat Suzanne even more decisively because the French champion had beaten her in Europe and had said that Molla had not even furnished stiff opposition.

THE STORY OF MOLLA'S REVENGE TOLD IN PICTURES

"Petit Georges" Rules as Immaculate Dude at Dieppe

By MILTON BRONNER
DIEPPE, France, Aug. 19.—"Petit Georges" Carpenter, as his pretty wife endearingly calls the French pugilist, is the leading citizen, the prime attraction, and the immaculate dude of this famous watering place. With his wife and baby Jacqueline, and his famous dog, he occupies a villa near here which has been named "Georges-et-Georgette." Every morning about 10 he may be seen strolling down Dieppe's equivalent of a boardwalk, an attractive figure in Panama hat, blue serge coat, immaculate white flannel trousers and white sport shoes. The pretty woman, with the chestnut hair and blue eyes, who clings fondly to his arm, is Mme. Carpenter. A few minutes later there is another sight. Carpenter-Carpentier, the star-dog, Mme. Carpenter, in black satin bathing costume and green cap, also goes out for a ducking by "Petit Georges" and then paddles in the water. Then at night there is revealed still another Carpenter. The Hotel Metropole has a real jazz band with some real American tunes, who know how to make the banjo and the drums talk dance stuff. "Here comes the Carpentiers!" Oh boy! You'd never guess he swooped punches with Dempsey. In his dinner jacket he looks as if he might have stepped out of the illustration for some society novel. There is not a mark of his recent battle with Dempsey. His eyes are as clear and his teeth as white and even as those of a freshman in a back-country college. And there is a whole load of nice French and English girls, who have met him, who dance with him—because Mrs. Carpenter isn't a bit jealous. "I am down here with my wife and baby to have a good time," he says. "And you can take it from me, we are going to have it." After that—Tommy Gibbons.

WOMAN'S NATIONAL TENNIS CHAMPIONSHIP

FOREST HILLS, N. Y., Aug. 19.—The semi-final struggle for the women's national tennis championship was scheduled for today at the courts of the West Side Club. Miss Mary K. Browne, of Santa Monica, Calif., a former title holder, was bracketed with Mrs. Carl V. Blitchins, Mexico City star, for 2 o'clock and Mrs. May Sutton Bundy of Los Angeles, also a former champion, met Mrs. Molla Bjurstedt Mallory.

PIRATES HAVE FIRM GRIP ON FIRST PLACE

NEW YORK, Aug. 19.—Pittsburgh today has a firm grip on first place in the National League. Winning two games from Philadelphia yesterday while New York lost to Cincinnati, the Pirates now hold a lead of 61 points over the Giants.

CLUBS WITH SPURT WILL COP FLAGS

By DEAN SNYDER
In a close race the runner with the extra spurt wins. Charley Paddock, fastest runner, throws himself at the tape and wins. Jole Ray, best miller, spurs on the stretch. Man o' War could finish like a streak. Pennant races this year will be won by the clubs that spurt. In the American League Cleveland and New York are sea-sawing back and forth from the inside rail with Washington a length back. In the National League Pittsburgh is half a length ahead of New York, and Boston is coming on as a possible dark horse. The clubs with strength to throw themselves at the tape like Paddock—in spurt like Ray, or to thunder down the stretch like Man o' War, will win the pennants.

OPPOSITE

Abe Mitchell and George Duncan, visiting English golf stars, are diametrically opposite in appearance and in their golf mannerisms. Duncan, the Scot, bristles with pep. Mitchell, the decidedly English type, is a keen, stoical, silent man. Duncan seems to always be in a hurry on the links. Mitchell takes his own good time. Duncan doesn't seem to concentrate. Mitchell looks over everything carefully.

CONTROL

Jack Watson, iron man of the Boston Braves, is a "mean" ball server. That is, he never pitches what a batter calls a "good ball" to hit at. Gifted with marvelous control, he pitches to the batter's weakness every time he shoots off his artillery. He is a low-server most of the time. His head is as cool as his arm is consistent.

COLOR

Coach Robert Zuppke figures out football a line finer every year. This year he had a little talk with the Illinois psychologists and found out that orange-colored jerseys got better results than blue. Accordingly, the traditional blue of Illinois will change to the more efficient orange this fall. Zuppke's color scheme is the first colorful football story that's come out so far this year.

TENNIS STARS MAY MEET ON SEPT. 7

PHILADELPHIA, Aug. 19.—The tennis stars of the world, Suzanne Lenglen and Mrs. Molla Bjurstedt Mallory, which was being discussed by representatives of both women stars of the tennis world, may be played on the courts of the Germantown Cricket Club on September 7, according to Samuel H. Collier, chairman of the tournament committee.

JAPANESE TENNIS STARS CONFIDENT OF VICTORY

LAKE FOREST, Ill., Aug. 19.—Bringing only one more match to need them the victory in the semi-final round clash of the 1921 Davis cup series against India, Japanese tennis experts went on the grass courts at the Onwentsia club here this afternoon for the match which may decide the trophy. The Japanese swept the day, which is supposed to embody the chief strength of the British colonial squad, was no less determined. Ichio Kumagae, captain of the Japanese, and Zengo Shimidzu composed the doubles team which was arrayed against Dr. A. H. Fryze and L. S. Deane of India. Fryze and Deane have been playing doubles as a combination for years. In contrast to the recent pairing of Kumagae and Shimidzu, which occurred last month upon Shimidzu's arrival in the United States. In the two singles matches which launched the Japan-India series yesterday, the Japanese swept the day, Kumagae winning from Mohammed Slem of India, 6-1, 6-1, and Shimidzu defeating Fryze, 6-2, 6-2, 6-2. The match which was more exciting tennis into the last set than was played in all other five sets of the day.

THE HITCHED AND THE UNHITCHED

The result of the baseball game between the married and unmarried men at the annual outing of the employees of the Prudential Life Insurance Co. at Canobie Lake park yesterday, was a victory for the unmarried men, who were captained by E. J. McCabe. The score being 19 to 2. Owing to the fact that after all the married men had been recruited, there were two vacancies on the team, Miss Gladys Lorman and Miss Emma Fitzgerald were "captained" in and their playing was excellent, for they were responsible for the two runs that were scored by their team. The married men were captained by Joseph Parmentier, assistant superintendent of the company, and their excuse for being defeated was that they were out of practice. The battery for the married men consisted of Parmentier, P. and McCarron. McCabe occupied the box for the unmarried men, while Twitchell was behind the bat. The umpire was Sup. N. J. Benoit. Because of the storm there were but three other sporting events carried out and the result was as follows: 100-yard dash for men, A. Torrance, 190-yard dash for women, Miss Lorman; shot put for ladies, Miss Madeline McCarron. The committee in charge of the outing consisted of Joseph Parmentier and E. J. McCabe.

CLUBS BUY THREE PLAYERS

SPRINGFIELD, Mo., Aug. 19.—Sale of Lou Collier, first baseman, Joe Chapman, second baseman, and Art Wales, infielder, to the Chicago team of the National league was announced here today. Klugman led the club in holding the first half of the season and was one of the leading hitters of the circuit.

REFORM BUREAU LOSES ANOTHER ROUND

OCEAN GROVE, N. J., Aug. 18.—The first of a series of rallies designed to aid in the bringing about the repeal of the Hurley act, permitting boxing bouts in New Jersey, was held here today by the International reform bureau. The bureau, which has been trying to cause punishment of Jack Dempsey, Georges Carpentier, Tex Rickard and everybody else that had anything to do with the big fight of July 7, lost another round yesterday when Common Pleas Judge Dougherty, of Hudson county, refused to issue warrants for the fighters, their managers and Rickard, sought under an anti-fight fighting act of the legislature passed in 1915. "If I should issue such warrants," said the judge, "I would have to take Dempsey by the hand and march to jail with him. Judge Blair of this court and myself attended the fight together. We could be arrested for aiding and abetting in the promotion of the fight if I took this course." Judge Dougherty ruled that the 1915 act had been superseded by the Hurley act. He told the bureau representatives he would be inclined to issue warrants if complaints were filed under the Hurley act, saying he thought the matter should be submitted to a grand jury.

GAME TOMORROW AT SPALDING PARK

One of the best ball games of the season is being played tomorrow afternoon at Spalding park where Manager "Nixey" Coughlin's strong Knights of Columbus team will meet the Central council team of Boston. It will be remembered that when these two outfits met earlier in the season a brilliant struggle resulted with Lowell in the losing end after a hard fight. However, Manager Coughlin will have Jimmy Davidson, his pitching mainstay, on the mound tomorrow and believes that he will be able to even matters. On the hill for the Boston outfit will be McCabe, the 16-year-old phenomenal twirler, who has had a most successful season this year. The usual strong Pere Marquette team will support him. It looks like a warmly fought contest from the top of the hat. The game will be called promptly at 3.15 and there will be special car service to the grounds.

BROADWAYS AND C. M. A. C. TO PLAY

The series starting tomorrow between Broadways and C. M. A. C. should be a rare treat for all baseball fans in the city as both clubs have some of the best players of the Twilight league in their lineups. C. M. A. C.'s have the following players to look from: Warren, White, Dillon, Hobson, Wheeler, Buckley, McMahon, Crowe, Jenkins, Brown, Pace, Marcante and Hubert, while the broadways, Bob Ganley, manager, also have some lineup in Desmond Freeman, Mulino, Stuart, Connors, Gath, Williams, McPherson, Bridgford, Farrell, Adams and McCarthy.

AMATEUR BASEBALL

The Merrimack will play the Draught All Stars Sunday on the South common at 2.30.

The Young Boaters of West Centralville would like to play the "Lafayette" a tall ranky pitcher, of the University of Arizona, and infielder Ostergard today were released to the Sioux City club of the Western league under optional recall agreements.

WHITE SOX CAN TWO

CHICAGO, Aug. 19.—Pitcher Davenport, who came to the White Sox from the University of Arizona, and infielder Ostergard today were released to the Sioux City club of the Western league under optional recall agreements. He is scheduled to report to Manager Gleason tomorrow.

Shade Looms as Possible Shadow for Jack Dempsey

By Newspaper Enterprise
PORTLAND, Ore., Aug. 19.—Billy Shade, Vallejo, Cal., boy is back from Australia with four championships in his kit-bag. Welterweight—middleweight—light heavyweight and heavyweight! He won them all by knockouts in a year and a half's time in the Antipodes. "When I start fighting again in September I want to fight three men," says Shade. "Tommy Gibbons, Georges Carpentier and Bob Martin. They're the fighters I pick for my tryout. "I may get licked. But I want to find out how good I am. It was easy for me in Australia."

Here's Shade's startling Australian record: Herbert Hinton, welterweight champion of New South Wales—knockout, 15 seconds. Fred Kay, welterweight champion of Australia—knockout, 15 rounds. Francis Charles, welterweight champion of France—knockout, 15 rounds. Tommy Uren, middleweight champion of Australia—knockout, 12 rounds. Jimmy Clabby, Australian middleweight—won on foul, 13th round. Ray Lockwood, light-heavyweight champion of the Philippines and Orient—knockout, 19 rounds. Jack Quinlan, heavyweight champion of New South Wales—knockout, 3 rounds. Sergeant-Major Carroll, heavyweight—knockout, 2 rounds. Albert Lloyd, heavyweight champion of Australia—knockout, 14 rounds. Shade went to Australia, an unknown. He scored two clean-cut victories.

Big Money

The Stadiums Limited, Sydney, liked his brand of stuff. He signed with the club for a series of five fights at approximately \$10,000 per match plus expenses of himself and manager, Jim Giffey, from the time they left the states until their return. Shade brought his fortune of \$50,000 back home with him. He is 21 years old, weighs 175 and is 5 feet 10 1/2 inches tall, glowing reports trickled back to this country of his rapid rise. While Australian champions have never fared well in America, Shade is an American. Just how good he is can't be doped until he fights men of the Gibbons and Martin caliber. But he has shown enough to guarantee that he is real timber.

BILLY SHADE

\$5000 Purse for Special Horse Race

HARTFORD, Conn., Aug. 19.—The purse offered for a two heat race between Single G, pacer, with Peter Manning, trotter, is \$5000, divided 60 and 40 per cent win or lose, or equally if each wins a heat. The race will be during the circuit meeting at Charter Oak Park track next month, and W. H. Gocher, the secretary, made the offer yesterday in behalf of the Connecticut Fair association.

THE TEST OF TWO CITIES

Lowell and Lawrence Will Fight for Twilight Inter-city Championship

The Macartney Apparel company has donated a big cup to be awarded to the winner of the three game series for the Twilight intercity championship to be played between Lowell and Lawrence. The three-game battle is to be between the Centralville, the champions of this city, and the Lawrence K. C. which has succeeded in annexing the pennant in the Twilight league in that city. Although complete arrangements have not yet been made, it is probable that the first game of the series will be played a week from tomorrow at Spalding park. The second will be played in Lawrence, the scene of the third game to be determined by the flip of a coin. Lowell and Lawrence have always been friendly but keen rivals in every branch of sport and the coming series will undoubtedly arouse a lot of enthusiasm in both cities. Both teams will represent the best baseball material in their respective cities and every true fan will want to see the big battles as they take place.

"DONIE" BUSH TO JOIN WASHINGTON

ST. LOUIS, Aug. 19.—"Donie" Bush, for 13 years a mainstay in the Detroit infield, will go to Washington by the waiver route, Ben Johnson, president of the American league, announced here yesterday. New York also wanted Bush, but the Senators won the draw. President Johnson stopped over here en route from Chicago to Excelsior Springs, Mo. DETROIT, Aug. 19.—"Donie" Bush, former Detroit shortstop, will join the Senators in Chicago Saturday, he said last night. GAME ON COMMON Boston and Maine All Stars will play the Concord, N. H. Twilight league team this afternoon on the South common at 5 o'clock. White and Hubert will be the battery of the All Stars. All players are requested to report at the South common at 4.45.

SAYS AUTO VICE AGENT WOMEN FRAME DEMANDS

Speakers Declare More Girls Ruined by Gasoline Than by Champagne

Canadian and American Women to Present Demands to Pres. Harding

DURHAM, N. H., Aug. 19.—Vice is just as easy to find in the country as it is in the city, and it costs less. More girls have been ruined by a gallon of gasoline than by a quart of champagne. The silver ranks with the saloon as an agency for the corruption of morals, and the country lane provides a primrose path that rivals the bright lights of the metropolis. These are a few of the conclusions arrived at by educators, social workers, physicians and farmers' wives, who met yesterday at the home-makers' sessions of farmers and home-makers' week at the New Hampshire state college here.

The discussion which followed a list of scheduled speeches not only brought out the above assertions, but provided an opportunity for an attack upon rural ministers by Dean A. N. French of the arts and science division of the college. Dean French declared that it was about time the people of the various rural communities began educating their ministers to a sense of their moral responsibilities.

He referred particularly to the apparent willingness of many ministers to marry divorced couples, and characterized this action as one of the crimes of civilization. His remarks aroused the ire of several ministers' wives who were in the audience and a red hot argument followed. "My husband has never married a divorced couple," cried one woman. "You shouldn't include all ministers in that category."

NIAGARA FALLS, N. Y., Aug. 19.—That Canada and the United States have exhibited peace more than any other country, that together they can hold the peace of the world, and that more can be accomplished in federating North and South America than by reaching out to Europe was the statement of Mrs. Christina Ross Barker of Toronto, member of the Women's Peace society, at the opening session of the conference on international disarmament at the Clifton hotel, Niagara Falls, Ont., today.

Representatives of various women's organizations from this country and Canada are attending the conference, the purpose of which is to formulate joint demands, as women of two countries, for presentation to President Harding at the coming international peace conference, and to form an international committee of women to hold a session in Washington during the conference.

Miss Elmore Brynes, acting president of the Women's Peace society, is presiding.

"The underlying principle of the Women's Peace society," Miss Brynes said today, "is a belief in the universality and invariability of human life under all circumstances. It is this ideal that will form the keynote of the conference."

Appeals to Wareham Folk

Continued

wealth would be extended to punish those guilty of so atrocious a crime.

The governor's appeal follows:

"To the Men and Women of Wareham:

"The whole commonwealth is shocked beyond measure by the reported treatment towards a respected citizen. Every good citizen will insist that those who have committed such barbarous outrages shall be brought to justice. The whole power of the commonwealth will be extended to apprehend and punish those who are guilty of such an atrocious crime. It cannot be, however, that any man or group of men shall be permitted to take the law into their own hands."

"The eyes of the nation have recently turned to Plymouth, your neighboring town, as the president of the United States paid his tribute to those sturdy men and women who established civil liberty under ordered government. The nation has rejoiced with us of Massachusetts in our great heritage. Let us of today be worthy inheritors of a glorious past. Let us in spite of outraged feelings remember our duty to uphold the law."

"The older citizens teach the younger. Let the reason rule. Let not the fair name of Wareham be stained by the act of an angry mob. However deep our sympathy for the innocent victim of despicable savages, let it still be to the honor and glory of the good people of Massachusetts that they have confidence in their court, that they believe in orderly proceedings."

Prisoners' Cage Empty

Continued

nounced by the Honor squad, and the town apparently was in millennial calm.

Not only hoosh violations of the law were missing, but there were practically no other infractions of justice reported. One hold-over drunkenness case was filed, and a man charged with non-support was ordered to pay his wife \$5 a week and to keep away from her. After about three minutes on the bench, Judge Enright retired and the spectators departed without enjoying the customary hustle and excitement of the precincts of justice.

Juvenile Court

Two sentences to the Lyman school for boys were imposed this morning by Judge Thomas J. Enright in the juvenile court session. In one case the boy was already under a suspended sentence to the institution, and the suspension was revoked. The cases of John Fabbiano and Dominick Giordano, arrested by Officer Owen Conway after they had been another youngster and taken his bicycle from him, had their cases put over to August 26, bonds being fixed at \$300 each. It is understood that both youthful defendants have records. It has been learned that the two bicycles they were riding when they committed the assault and robbery, were stolen from Nashua, N. H. One delinquent boy got a year's probation from the Lyman school. Two delinquents of thirteen years of age had their cases filed, and four similar cases were continued, and were the cases of two youngsters charged with being present at a party on the Lord's day. The session was lengthy, extending nearly to eleven o'clock.

SAVING OF \$376,000,000

For Taxpayers by Surrender of Railroads to Private Operation

CHAUTAUQUA, N. Y., Aug. 19.—Surrender of the railroads to private operation September 1, 1920, when the government guarantee expired, saved the taxpayers at least \$376,000,000 during the next ten months, at the expense of the roads, Samuel O. Dunn, editor of the Railway Age, declared today in an address at the Chautauqua institute.

If the government guarantee had been continued, Mr. Dunn said, the rental paid by the government for ten months would have been \$42,500,000.

In these same ten months the roads actually earned a net operating income of \$356,500,000, which was \$376,000,000 less than the rental the government would have had to pay.

If government operation had continued and the rates had not been raised, there would have been a deficit of \$1,150,000,000 to meet through increased taxes, he said.

The conclusion of a country vice followed an address by Dr. Helen I. D. McMillen, field agent of the inter-departmental social hygiene board of the United States.

Dr. McMillen declared that the country girl was liable to be far more susceptible to the wiles of some loathsome than her city sister, because she had less experience, less opportunity for harmless pleasure and recreation, and was much less sophisticated.

She declared that social diseases were prevalent to an alarming degree in the country districts and that the advent of the cheap automobile had increased vice foremostly. Only through education could a better moral atmosphere be restored to the country home, she said. She pleaded with her hearers to go back home and use their influence for the creation of some healthy substitute for the illicit river ride and the cross roads loafing place.

The oldest university in the United States territory is the University of St. Thomas at Manila, founded in 1605.

WOULD DISBAR FIVE PROMINENT LAWYERS

BOSTON, Aug. 19.—Another sensational trial of a bay state district attorney by the supreme court, and disbarment proceedings against several well-known Boston lawyers, are expected to result from a report filed with the grievance committee of the Boston Bar association by a sub-committee of the grievance body yesterday.

The committee that reported, it is understood, was that which has been investigating charges which Godfrey L. Cabot of the Watch and Ward society made against District Attorney Joseph C. Bellamy, and Attorneys Daniel H. Coakley, William J. Corcoran and Daniel McKeane. These attorneys are among the best known lawyers in the state. The charges were filed more than three years ago.

It is understood that the committee which reported yesterday recommended that five lawyers be disbarred, and that evidence be submitted to the attorney-general with a view to his proceeding against another district attorney as he did in the Tutts' case. The committee, it is understood, did not recommend disbarment for all of the attorneys complained of by Cabot.

Members of the bar association grievance committee declined to discuss the matter of a committee report yesterday. A story which gained considerable circulation to the effect that a sub-committee of the bar association had recommended the disbarment of 21 attorneys was characterized as a "fairy story" by members of the grievance committee at the conclusion of their meeting in the Federal Building yesterday afternoon.

PITTSFIELD, Mass., Aug. 19.—John F. Pearson, furniture merchant of Myrtle avenue, Brooklyn, is at Hillcrest hospital here with his right leg broken in two places as a result of being attacked yesterday by a bull which he was leading.

Pearson's life was saved by his son, Crawford. He came to the rescue with a crowbar and though knocked down, stunned the animal. Pearson has a country place and stock farm at Montevideo.

SUES FOR \$10,000

Auto Broke Wooden Leg of Diamond's Horse

HAMMOND, Ind., Aug. 19.—Jacob Diamond a peddler yesterday filed suit in superior court for \$10,000 damages against an autoist who ran into Diamond's three-legged horse and broke his wooden leg. The suit alleged the animal was "bruised and humiliated" to that extent.

The horse, which has worn the wooden leg for five years, has had a troubled career. On one occasion the leg caught on fire and the fire department was called to extinguish the blaze.

GAVE HER LIFE IN FUTILE ATTEMPT TO SAVE NIECE

WORCESTER, Aug. 19.—Mrs. Axel Carlson, 35, of Boston street, Auburn, was drowned in Lake Quinsigamond about 3 o'clock yesterday afternoon in an unsuccessful attempt to save her niece, Gladys Forsberg, 13, of 9 Maxwell street, Worcester. Mrs. Alma Forsberg, mother of Gladys, was saved from a similar fate by members of a party at the Engelbrecht club house, who pulled her out of 20 feet of water.

According to witnesses, the trio were bathing with others of a party near the Engelbrecht club house. Mrs. Forsberg was swimming with water wings about 25 feet from shore when she collapsed. Her little daughter swam to her aid, but got into difficulty in the water, and Mrs. Carlson hastened to help her. In their struggles both went down and did not come to the surface.

Persons on shore rescued Mrs. Forsberg, who was kept afloat by the water wings.

The bodies of Mrs. Carlson and the Forsberg girl were recovered in about 45 minutes by policemen.

LIGHTNING HITS MAN ON POLE

ATHOL, Aug. 19.—Sidney Walworth of Athol, lineman for the New England Telephone & Telegraph company, was struck by lightning while at work on a high pole in Petersham yesterday afternoon. Walworth was saved by falling onto a network of wires, where he hung until taken down by fellow workers.

He was taken into a nearby house unconscious and Dr. George L. Perry of Athol summoned. He revived in the course of half an hour, and was taken to his home in Athol. His recovery is expected.

Walworth received bruises on the wrists and arms when he fell onto the wires.

WORCESTER CARMEN SEEK INCREASE

MAILBORO, Mass., Aug. 19.—The conference of officials of the Boston and Worcester Street Railway company and representatives of the employees was arranged for this afternoon to consider a request from the motormen, conductors, laborers and barn men for an increase of 3 cents an hour in wages. By last year's agreement, which expires September 1, the men received sixty cents an hour.

SEEN AND HEARD

What more does a man want than a wife and baby and a chance to toll.

The more the reformers fight about bathing suits and short dresses the less they have to fight about.

No odds how big a liar a fisherman is he takes good care not to tell about big catches in closed seasons.

The Inconceivable

An eager-looking urchin approached a man hurrying toward the railway station. Carry your bag, sir? he asked. No, replied the man. I'll carry it all the way for a dime, said the boy. I tell you I don't want it carried, snarled the man. Don't you? No, No.

Whereupon the lad broke into a quick trot to keep up with his victim's hasty strides, as he asked, in innocent curiosity: Then what are you carrying it for?

Sagacious Parrot

Mrs. Twaddle was quite in a state of excitement when the new graphophone arrived. She had the instrument—a hornless model, handsome with its varnished wood—placed in the same room as her pet parrot. The bird was reputed to be a particularly sagacious specimen of its kind, and to test it she placed on the machine a record that she had had especially made—Rocked in the Cradle of the Deep—as sung by Mr. Twaddle in his approved drawing-room manner. At the very first note Polly opened her eyes in surprise, and then flew to her perch, where she rocked herself to and fro in speechless and deep astonishment while the machine ground out the rest of the tune. There, Polly, asked Mrs. Twaddle when the song had come to an end, what do you think of that?

"Say!" shrieked the bird, with her head on one side and winking wickedly, "We've got the old man boxed up this time, and no mistake!"

Creation of Woman

According to Hindu legends the god Vulcan created the world. When he started on woman he found he had used up all available materials, but knew that the world would be nothing without women, so he took—

The roundness of the moon.
The graceful twist of the creeping plant.
The tenderness of the willow.
The velvet of the flower.
The lightness of the feather.
The gentle gaze of the doe.
The fellest reflection of the dancing sunbeam.

The tears of the cloud.
The inconsistency of the wind.
The timidity of the hare.
The vanity of the peacock.
The hardness of the diamond.
The chill of the fish.
The color of the turtle dove.
All these he combined to form this glorious being—woman—Washington Times.

The Sea

I love that mighty empire—
The dark and restless tide,
Where slowly the great waters
In single, solemn pride—
Where the mightiness of nature
Pours forth its deathless song,
And the foaming watery mountains
So wildly rush along.

A great and solemn grandeur—
And spirit pure and free—
Broods over the azure waters,
And lends the winds a voice—
And a lofty inspiration
Breathes forth that realm of blue—
For it beams the soul of beauty—
The good, the pure, the true.

Most mighty boon of Nature!
Great type of boundless Time!
May ever roll thy numbers—
Send up thy thunder chime!
Then, the majesty of Nature
Shall claim for all its own—
And I hear its whispering spirit
In thine eternal moan!
—Howard, in *Rehabilitated Sunday Herald*.

MAN ABOUT TOWN

The other day as I was walking past a small park which is situated near my home I saw a group of young boys playing ball and an old man came along and stood under an old tree and watched them.

It was a very crude game, although that did not detract from the players' joy in any respect. Among the nine "men" on each side there were but two gloves and one of these was an old catcher's mitt which had very obviously seen better days. Most of the boys had to catch the balls with their bare hands but this did not hinder each youngster from making a gallant try for a home run.

There was no matter how much speed his legs could make. The umpire was a kid several inches taller than any of the players. He seemed to enjoy bawling out his decisions in regular big league style and since his size and greater age made it very evident that he could enforce his dictates with physical violence if necessary, there was no kicking against his decisions.

Between plays he munches an ice cream cone and the whole he was much more calm and collected and free from fear of spectators' wrath than many a big league umpire that I have seen. The outstanding player of the game was a little tow-headed chap who in the brief space of time that I stood watching the game "popped out" two opponents, threw a third out at first, and then came to bat and heckled a fearful three batters. That youngster ought to make a thundering good Twilight League player when he grows up.

"Dan" O'Brien of Manchester, N. H., dropped in to see us a few days ago. He had lived a few years ago in the days of "hot craters," had published "The Boston Globe" and "The Boston Herald," and he was now the "boy managing editor" of the "Boston Mirror." He is the oldest newspaper in the city and after many vicissitudes, since it has fallen into Dan's hands it is making a record as a live afternoon sheet.

He kept both his eyes and ears wide open, and while he was acquiring a list of friends that included every member of the Globe staff, and many others, for a not inconsiderable time, he was in the kind of paper that would like to read. He went to Manchester for his first job as a reporter on the Mirror about two years ago. The newsman has around town at once began to sit up and take notice and friends in that way tell me he has kept them in the paper ever since. Dan O'Brien has friends in Lowell as well as every other place where he has ever lived his life. He is a cracker-jack managing editor and a cracker-jack "good fellow." Some of his friends have been to look forward to the day when Webster will have a Mayor "Dan" O'Brien.

VAMPS EXIT! SNUGLERS ENTER!

MARILYN MILLER WHO IS FLO ZIEGFELD'S IDEA OF THE 1923 MODEL SNUGLER

By Newspaper Enterprise

CHICAGO, Aug. 19.—If you want to catch a rich husband this year, girls, you'll have to be "snugglers." The "snuggler" as a type of feminine beauty has supplanted the "little vamp," the "baldy doll" and all the other types of yesterday. That's the verdict of Florenz Ziegfeld, Jr., America's greatest authority on female pulchritude. "The snuggler" is going to be the ideal show girl type this year—and she means she'll be the ideal beauty type of the future as well. The musical comedy impresario says.

"The 'snuggler' is small, but not too small. She's witty and clever and has lots of pep. She's a good dancer. She has lively eyes, smiling lips and shapely limbs. "The 'snuggler' is a mixture of powder, perfume and TNT. "Her hair? Oh, it can be either bobbed or in curls. Yes, she'll wear short skirts and open work stockings. "If you want to see the 'snuggler' in real flesh and blood, take a slant at Marilyn Miller. She's my ideal of beauty. She's not a 'cutey' type, but she's full of vivacity, pep and grace."

\$1,000,000 in Russian Gold Arrives

CONSTANTINOPLE, Aug. 19.—(By the Associated Press)—Russian Bolshevik gold valued at \$1,000,000 has arrived here during the past fortnight as a result of trade exchanges. Of this amount \$800,000 worth was brought by the United States destroyer Overton from Batum for the American foreign trade corporation. This organization secured the money as a revolving credit from the three Caucasus republics and it will be used for the purchase of manufactured goods, for which raw imports will be exchanged. The Overton was the first United States warship to visit Batum since last January, when the soviet government of Georgia was established. She was sent there primarily to facilitate the work of the Near East relief.

Marshal Joffre Going to Japan

PARIS, Aug. 19.—Marshal Joffre will leave on a mission to Japan on September 2. Reports were current a few days ago that he would visit the United States upon his return from the Far East.

Calm in French Zone of Morocco

FEZ, Aug. 19.—Official reports declare that absolute calm prevails in the French zone of Morocco, even in districts near the Spanish zone, where the tribesmen have been engaged in hostilities.

MOVING BEER THROUGH U. S.

MONTREAL, Aug. 19.—The ruling of Secretary of the Treasury Mellon that liquor may be shipped from one country to another through the United States resulted yesterday in the movement southward of many thousands of casks of beer. The shipments mainly are consigned to the West Indies, the Guianas, Central and South American countries.

The beer had been held up owing to the interpretation of the prohibition law by former Attorney-General Palmer, who ruled that shipments consigned from one country to another and intended to pass through the United States violated the prohibition law.

France maintains a tax on doors and windows.

Importers of Arabian Mocha Coffee And Pure Olive Oil

We are the only importers of Arabian Coffee in this city, which we roast every day in our place. Berton Bracey's Daily Poem The Far Harbor

I MUSE on a blithe adventure over a sunlit sea,
For my mind is whirling with fancies, visions that come to me,
Suffused with an ancient magic, spell of all true romance,
And I feel a great wind blowing over the world's expanse,
A wind that will sail me bravely far from all humdrum schemes
To the golden shores of Illusion, hard by the Cape of Dreams.

I THINK of the white sails swelling, creak of the ropes and spars,
Of the foam beneath her forefoot and over her peak the stars—
The stars of a tropic heaven, leading forever south,
And the spray of a phosphorescent wave, salty upon my mouth,
Till I come in sight of the harbor, the mystic port which gleams
On the golden shores of Illusion, hard by the Cape of Dreams.

YET somehow my dream is lonely; share it, my dearest dear,
Sail with me on my magic ship over the world from here,
We shall walk on the decks together and watch blue islands rise
Out of the misty distance, part of the seas and skies,
And this shall be our adventure, lovely and fair it seems,
To the golden shores of Illusion, hard by the Cape of Dreams.

COALSPIEL No. 10

A cigarette for frivolity, a cigar for reflection and a pipe for comfort. All of which reminds us that to thoroughly enjoy either this coming winter you should have your house or office nice and warm. The good wife will make the house nice and our coal will make it warm. There are only ten days left in August to get your coal in before Sept. 1st. Take a tip from us and let us put in your coal this month as there will be a tremendous rush in September. We are prepared to take care of any orders for soft coal of the highest grade and any orders for the best hard coal mined. Orders have been coming in steadily since Aug. 1st but anticipating the big rush next month we urge you to let us put your coal in now so that all can have prompt service. We have all the best coals including Franklin which is the best coal mined having none.

Please don't delay your orders as coal will not be any cheaper and you can get better service just now than later.

Yours for a good comfortable winter with coal from our yards,

Lajoie Coal Company

110 Central Street. Tel. 637—1012 Gorham Street. Tel. 2725

THE MAYOR'S CHANGES

Mayor Perry D. Thompson has shown the results of shrewd judgment, careful consideration, and an intimate knowledge of the police needs in the promotion of the department to the recently announced. The post of sergeant selected are of the highest caliber. They require men of great ability.

SEASONED JUDGMENT, INDUSTRY AND CONSCIENTIOUS REGARD FOR THE DUTIES OF THE POSITIONS OF PUBLIC SERVANTS TO WHICH THEY HAVE BEEN CHOSEN.

Lowell is proud of the record of every one of them. In common with many citizens, The Sun extends congratulations to them on the wider opportunities for service which have been thrown open to them.

IT IS ALSO A CAUSE FOR CONGRATULATIONS THAT SUPERINTENDENT OF POLICE WELCH HAS BEEN EXCUSED BY THE MAYOR, AFTER A HEARING ON CHARGES WHICH HAD BEEN BROUGHT AGAINST HIM.

No fault can be found with Mr. Cruickshank, who brought the charges, or with any other citizens who feel that they have been aggrieved by acts of members of the police force. The department can be kept at the highest standard of efficiency by citizens showing their interest in it by bringing to the attention of the mayor any acts of members of the force which they believe to be below the highest standards. Many citizens will feel satisfaction that Superintendent Welch has been given a clean bill of health, as regards official conduct, by the mayor.

THE POLICE BUILDING

At each opening of the session of the Lowell district court a uniformed policeman offers the ancient prayer, "God save the commonwealth of Massachusetts." Without the slightest tinge of irreverence, it may be said that as long as the police headquarters and court are located in the present building, unchanged and unimproved, it would be well if, by order of the justices, there might be the added prayer, "God save the city of Lowell."

In a recent article in the columns of The Sun, some of the conditions in the Market street building, some sixty years old, were described in guarded and moderate language. In the columns of a newspaper whose columns are read in homes, the real condition of affairs in the Market st. edifice is not a matter suitable for publication. A picture of the squalor and unsanitariness, the crowding, the lack of provision for women and children, cannot be described. They exist though, even if decency forbids that that shall be fully pictured as they are.

Now that the project of making changes in the building that shall bring it somewhere near the standards of other similar places, has been started by the Lowell Bar association members, the reconstruction job should be made a thorough one.

That the French government and people are impressed with the momentous possibilities involved in the Washington disarmament conference, is indicated by the announcement that Premier Briand will head the French delegation. In France, the premier is virtually the head of the government, the president being even more of a figurehead than is the king in England. It is extremely probable that Great Britain and Italy will take the French cue and send delegations headed by their premiers and thus avoid the disadvantage of being outranked. And it would not be surprising if Japan decided that the advantage of being represented at Washington by its highest responsible official, capable of making final decisions, outweighed all other considerations.

It is stated that experiments conducted by direction of Postmaster General Hays have shown that the music of the phonograph has a tendency to speed-up work of postal employees and that they may be introduced into the post offices. When Lowell's turn comes we shall expect to receive mail an hour ahead of time after, "For He's a Jolly Good Fellow," dedicated to Hon. John F. Meehan, has been rendered a few times of a morning.

"Perhaps you noticed last night that the Boston Herald told the truth we did, and we also noticed a number of young men and young women who were also noticing it and it seemed necessary for them to sit quite close to each other to do it properly. And we noticed, too, that the moon wasn't alone in its fullness."

The headline artist is, after all, the master stylist. Here is the way one on the Boston Herald tells a pertinent story that induces thought: "Three Die in Motor Crash; Man Burns as Crowd Watches."

The Lowell man who drank denatured alcohol, supposedly a deadly poison, and survived to tell the story, evidently fared rather better than some imbibers of ordinary prohibition booze.

Republicans in congress have been discussing the number of cooks former President Wilson took with him to Paris. Finally he took "enough to spoil the broth" for awhile.

The members of the municipal council have voted to take a well-earned vacation, and "we shall meet, but we shall miss them; there will be those vacant chairs."

It would not be supposed that thin stockings would prove obstacles in the way of Cupid, but many a hussy walk, once called Love's lane, thanks to the mosquitoes, tells another story.

It may be hoped that the investigation of the arm-chair lunch prices, by the state commission on the necessities of life, will not be conducted from an arm chair.

The season of cattle shows is at hand and some city-dwellers now realize how time is many of the joys of living life compared with those of the country.

The man who wrote the lines in an ad: "He Got Everything in a Drug Store" can surely be accused of only slight exaggeration.

Not far away is the time when it will be the coal man's turn to exercise his liberality finding excuses for high prices.

Miss Haywood's wife has left him. We may expect that the "demon wealth" will look different in William's eyes in the future.

A Wakefield woman deposited her services in a bid in a bank-bank. The bank and the bid are still there, but the woman is apparently a suit club member.

"IN THEIR OWN BACK YARD"

This is Mary Pickford's first swimming picture. It was made in the pool at her Beverly Hills home, where she and Doug splash about on a pneumatic sea monster.

CRAWLS IN STREET TO GIVE THANKS

LISBON, Aug. 19.—A curious sight was witnessed in the streets of Lisbon just after dawn recently. Maria Conceicao, wife of a workman, was seen dragging herself painfully on her knees through the busy streets to the church of Our Lady of Health, thus carrying out a vow made during the illness of her husband, in case of his recovery.

The distance from her house to the church was over two miles and long before she had accomplished one-half of her pilgrimage, her knees were torn by the stones and her dress was stained with blood.

Maria's husband, a young tinsmith, fell seriously ill about six months ago and was given up by the doctors. His devoted wife tended him with untiring care and love, and when it was thought that he was dying, she prayed for a miracle that should save his life, making a vow that if he recovered she would go on her knees, as a sign of thanksgiving, to the shrine of The Lady of Health.

The husband recovered and the wife has fulfilled her vow.

SALVATION ARMY BAND CONCERT

The 40-piece Provincial Territorial band of the Salvation Army which passes through here today on its way to the monster Salvation army camp meeting to be held at Old Orchard, will stop in this city long enough to give a concert at St. Anne's church. The entertainment will begin at 7:30 o'clock. The officers of the band are as follows: Capt. Treavitt, band leader; Harold Brewer, bandmaster; Maj. Quirk, chairman. Other concerts will be given in Newburyport and Lawrence.

Profiteering Now a Crime in Cuba

HAVANA, Aug. 19.—Profiteering is now a crime under the provisions of a measure approved by the Cuban chamber of commerce yesterday. This is the first time that it has been placed in the criminal category in Latin American countries. The bill was framed for the protection of the livestock industry.

OLDEST CATHOLIC BISHOP IS DEAD

NEW YORK, Aug. 19.—A pontifical requiem mass will be celebrated at St. Patrick's cathedral Saturday for Rt. Rev. Jose M. Ignacio Montes de Oca, bishop of San Luis Potosi, Mexico, the oldest Catholic bishop in the world and titular archbishop of Cesare de Pont, who died yesterday at the residence of Monsignor Michael J. Lavelle. The aged prelate was stricken with arterio sclerosis.

The body will be entombed in Calvary cemetery temporarily and later sent to Mexico.

Canadian mounted police report that starving Indians in the Caribou tribe have been resorting to cannibalism because of the scarcity of game.

CUTICURA HEALS PAINFUL PIMPLES

And Blackheads. So Itchy Could Not Sleep. Lasted Three Months.

"My trouble was caused by dust getting into the pores of my skin, which formed pimples and blackheads. The pimples were hard and red and very painful at first, and then got so itchy I could not sleep. This lasted three months.

"Using Cuticura Soap and Ointment advertised I gave it a trial and after two weeks there was a great improvement and at the end of one month my face was healed, after using two cakes of Soap and one box of Ointment." (Signed) Miss Ethel W. Cornelius, 80 Baggot St., West Haven, Conn., August 15, 1920.

Use Cuticura for all toilet purposes. Sample Each Free by Mail. Address: "Cuticura Lab., 100 N. 2nd St., St. Louis 10, Mo." Send 10c for Cuticura Soap and Ointment. Cuticura Soap shines without wax.

10,000 SQ. MILES IN MOROCCO UNPACIFIED

MELILLA, Morocco, Aug. 19.—Ten thousand square kilometers of the Spanish zone remained to be captured when the Spanish troops in this section suffered their reverses at the hands of the Moors late in July. The entire region was overrun by fanatic tribesmen ready to fight to the last for their inhospitable land.

The strength of the Spanish forces with their native auxiliaries engaged in this formidable task before the Spanish disaster had been the subject of criticism even among the soldiers participating in the effort to pacify the Moors and the correspondent of the Associated Press heard on many occasions cutting remarks as to the peril of leaving small garrisons to defend newly acquired positions. It was pointed out that the tribesmen were able to assemble in considerable force at any given point with remarkable rapidity and a lonely garrison was liable to be cut off and overwhelmed before help could be secured from another point.

Such, however, was the situation and the high commissioner with the generals under his command was compelled to make the best of things while trying to satisfy Spanish ambitions with the report of an occasional victory.

Meanwhile, it is charged, the tribesmen are able to maintain their supplies of food and arms either from French Morocco or through the international zone at Tangier. By this means they are enabled to offer stern resistance to the Spaniards in their effort to take and hold the country lying between Melilla and Ceuta, a distance of 250 miles in a direct line, every inch of which must be fought for.

Much help cannot be expected from the small Spanish war vessels patrolling the coast, to which approach is

very difficult and dangerous, while bombardments from the warships would probably prove ineffective, because of the impossibility of seeing the object aimed at owing to the roughness of the ground.

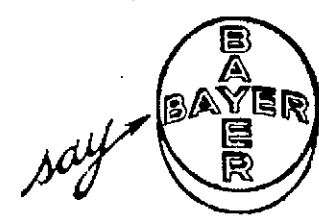

OUTDOOR MOVIES

An exceptionally large crowd attended the outdoor movies on the Lawrence Mfg. Co. playground in Aiken street last evening, the last of the series for the present week. The crowd was estimated at between 3000 and 4000. The program proved most entertaining and the Magnavox concert which came before the pictures was a lot of applause.

The United States is the greatest cattle raising country in the world.

ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacturing of Monocetate of Salicylic acid.—Adm.

LEGAL NOTICES

CITY OF LOWELL.
Notice of vote proposed at meeting
of Municipal Council.
At a meeting of the Municipal Council
held Aug. 17, 1921, the following
vote was proposed:
That the Commissioner of Public
Property and Licenses be and hereby
is authorized and empowered to enter
into contracts with the following con-
tractors for the following purposes,
said contractors having been the low-
est bidders for the work to be covered
by said contracts:
With J. J. Spillane Co. for the instal-
lation of a plumbing system in the
Crosby Street school for the sum of
\$360.
With Findlay Chisholm, doing busi-
ness as Chisholm & Co. for the instal-
lation of a plumbing system at the
Pine Street school for the sum of \$745.
It is further voted that said sums
shall be charged to the appropriation
designated. Appropriation for Build-
ing Improvements.
This notice is given pursuant to Sec.
21, Chap. 645 of the Acts of 1911.
By order of the Municipal Council,
STEPHEN FLYNN, City Clerk,
Aug. 18, 1921.

THIS IS "BULL"

This picture was taken in the bull
ring at Madrid, Spain. The spectators
were highly amused. P. S.—It wasn't
Charlie Chaplin—just another imitator.
Members of the royal family, attending
the bull fight, laughed heartily at the
antics of the amateur "Charlie."

MIGHT HAVE PREVENTED WAR

Failure to Handle Near East Problem Honestly Brought Catastrophe

Bulgarian Minister to U. S. Denounces European Statesmen

WILLIAMSTOWN, Aug. 19.—Not only would the sufferings and bloodshed of many years have been avoided, but the World war might have been prevented, if European statesmen had handled the Near East problem intelligently and honestly, M. Stephen Panaretoff, reappointed Bulgarian minister to the United States, said in his lecture today before the Institute of Politics.

"It is recognized by all now that the terrible catastrophe which has befallen Europe had its origin in the Near East," he said. All European statesmen recognized this danger long ago, he asserted, "yet those who had the power and means did virtually nothing to avert it."

"Their failure to find a peaceful issue out of the difficulties," he added, "is a blot upon the history of Europe and a disgrace to European statesmanship."

"The question was clear enough, the sore point of it was plain and their effort for at least a hundred years past to find a remedy for the disease shows that they were cognizant of it."

"Instead of looking facts in the face and acknowledging that the discontent of the Christian subjects of the sultan was due to bad administration the European powers evoked the bogey of Russian agents, provocateurs and pan-Slavist methods. If there were really such underground influences at work it was because they found receptive minds ready to submit to them. The best way to paralyze any outside intrigues against the safety of the Turkish empire was to remove the causes upon which they were founded. Ample proof of this was afforded by those territories of Turkey where the people had been endowed with some kind of home rule and where in the place of former lawlessness law and order prevailed. Turkey might still have existed as an empire if the European powers had by extending such self-government to the various provinces secured their attachment and loyalty to the sultan's person. To say that their selfishness, jealousies, and hate did not allow them to do it neither justifies nor excuses their conduct it rather makes their sins of omission and commission blacker."

EDMUND SIMPSON DEAD

Well Known Business Man and Former School Committee Member Died Yesterday

Edmund T. Simpson, one of Lowell's most prominent business men and several years ago an active figure in local political circles, died yesterday at his home, 201 Nesmith street, aged 51 years, 4 months and 1 day.

Mr. Simpson was for a long period of years a member of the firm of Simpson & Rowland, wholesale grocers, and had achieved great success in his business career. He served for

EDMUND T. SIMPSON

a number of years as a member of the school committee.

He leaves his wife, Ella W. Simpson; one daughter, Mrs. Ruth Carrington of Danville, Va.; one son, Robert Simpson of this city, and two sisters, Mrs. Edward J. Hyman and Miss Martha Simpson, also of Lowell. Mr. Simpson was a member of the class of 1890 of the Massachusetts Institute of Technology.

To Recover Money From Ponzi Investors

BOSTON, Aug. 19.—Publication of the names of persons who profited through investments in the Charles Ponzi quick rich scheme before it was exploded last summer, and who have failed to turn in their profits for division among those who were less fortunate, is planned by today that suits would be brought not only for the profits but for the entire amounts received from Ponzi, both principal and interest. The total amount receivable for the benefit of about 15,000 persons who gave their money to Ponzi on his promise to pay fifty per cent in 45 days is approximately \$6,000,000 Mr. Lowell said.

Rush Relief to Cloudburst Victims

LAS CRUCES, N. M., Aug. 19.—Relief was sent today to residents of Hatch, 38 miles north of here, who fled thinly clad to the hills when a full of water from a cloudburst early yesterday morning flooded the town and destroyed every building in it. No loss of life was reported. Today from three to seven feet of water lies in the stricken village. Officials of the United States Reclamation Service say there is no way to drain the water off except to dig a deep channel as the town lies in a basin below the level of the Arroyo.

Lloyd George Favors Welsh Home Rule

LONDON, Aug. 19.—(By the Associated Press)—An announcement in favor of Welsh home rule has been made by Premier Lloyd George, says the Liverpool Post today. The premier, who made the announcement at a dinner of Welsh nationalists, pledged himself, according to the newspaper, to support a measure of Welsh devolution if such were agreed upon by the Welsh members of parliament. The home rule favored by the Welsh nationalists means a greater degree of local self-government.

BERGDOLL SAFE FROM EXTRADITION

GENEVA, Aug. 19.—Grover Bergdoll, the American draft evader, says the Thorgvald Zellung arrived in Constantine from Munich three days ago and now is stopping in a hotel at St. Gall.

Bergdoll came from Germany to avoid extradition to the United States, the newspaper asserts. He has an American passport, it adds, and now is perfectly safe from extradition.

DEATHS

SMALL—Everett P. Small died Wednesday in Ossipee, N. H., aged 72 years. He leaves two daughters, Mrs. William Sawyer, of California, and Mrs. Edgar Olson of Lowell.

INDELLA—Mary, daughter of Tony and Palma Indella, died yesterday at the home of her parents, 135 Elm street, Lawrence. The funeral took place yesterday afternoon. Burial was in the family lot in St. Patrick's cemetery, Lowell, under the direction of Undertakers James F. O'Donnell & Sons.

HUBBARD—William J. Hubbard, a well known resident of Centralville, died Wednesday night at his home, 2 Jewett avenue. He leaves his wife, Margaret Hubbard; two daughters, Miss Edith Hubbard of Lowell and Mrs. Arthur Leaver of Pittsfield, Mass.; one son, Louis Hubbard of Boston; two brothers, Hiram Hubbard of Reading and Charles of Bangor, Me.; and one sister, Mrs. M. Ramsdell of Lowell; also three grandchildren.

GENDRON—Mrs. Ferdinand Gendron nee Sophie Mercier, aged 79 years, died this morning at the home of her daughter, Mrs. Felix Lamarche, 13 Dutton street. Besides her daughter she leaves four sons, Joseph Gendron of Farmington, N. H., Raoul and Louis Gendron of Lawrence and Oscar Gendron of Haverhill.

FUNERALS

THYNE—The funeral of John Joseph Thyne took place yesterday afternoon from 19 Hudson street. Burial took place in St. Patrick's cemetery, under the direction of Undertakers Higgins Brothers.

KING—The funeral of Harry C. King took place from the home of his wife, Mrs. Thelma King, yesterday afternoon. The services were conducted by Rev. Henry B. Mason, pastor of the Congregational church at Tewksbury Centre. Appropriate selections were sung by Miss Hazel P. Tuttle. There were many flowers. The bearers were Forrest Small, George Miller, Arthur Lach and Thomas McCausland. Burial was in the family lot in the cemetery at Tewksbury Centre. The funeral arrangements were in charge of Undertaker George W. Healey.

BAKER—The funeral of Mrs. Sadie Baker took place from her home, 135 Middlesex street, yesterday afternoon. The services were conducted by Rev. Frederick S. Beattie, assistant pastor of St. Anne's Episcopal church. The funeral offerings were numerous. The bearers were G. V. McQuade, Harrison A. Baker, Arthur Reese and Guy Constantine. Burial was in the family lot in Westland cemetery. The funeral arrangements were in charge of Undertaker George W. Healey.

FUNERAL NOTICES

BERNARDINI—The funeral of Mrs. Enrichetta Bernardini will take place Saturday morning at 9 o'clock from her home, 45 Humphrey street. Solemn high mass of requiem at St. Michael's church at 10 o'clock. Interment will be in St. Patrick's cemetery, in charge of Funeral Director, James W. McKenna.

HUBBARD—The funeral of William L. Hubbard will take place Saturday morning at 8 o'clock from his late home, 2 Jewett avenue. A funeral high mass will be celebrated in St. Michael's church, at 9 o'clock. The burial will be in the family lot in St. Patrick's cemetery. The funeral will be in charge of Undertakers Charles H. Molloy's Sons.

SMALL—Died in Ossipee, N. H., Aug. 17, Everett P. Small, aged 72 years. Funeral services will be held at the graveside in Riverside cemetery, North Chelmsford, Saturday afternoon at 2 o'clock. Friends are invited without further notice. Funeral arrangements in charge of Undertaker George W. Healey.

MULLIGAN—Died August 17, Peter J. Mulligan. Funeral will take place on Saturday morning at 8 o'clock from his late home, 18 Burns street. Solemn high mass of requiem will be sung at St. Peter's church at 9 o'clock. Burial will take place in St. Patrick's cemetery. The funeral arrangements will be in charge of Undertakers M. H. McDonough Sons.

SIMPSON—Edmund Thomas Simpson died at his home, 201 Nesmith street, Thursday morning. Funeral services will be from his home Sunday afternoon at 3 o'clock. Burial will take place in the Lowell cemetery. Undertaker Hiram C. Brown.

BUILDING ESTIMATES AND ACTUAL COSTS

When a man takes out a permit to build a house or do any other construction work, is there any method by which he can be compelled to give an accurate estimate of the cost of the work?

Public property department officials doubt it. They say that a majority of the estimates which are given when building permits are issued are below the actual cost of the contemplated construction and the builders know it, but still they refuse to make an accurate estimate.

The underlying reason for their action, of course, is the fear that the board of assessors will make use of the estimated cost which they give when it comes time to place a valuation on the property for purposes of taxation. They labor under false impression that the lower valuation they themselves place on their property, the lower their taxes will be.

However, there is no justification for this action, it is said. The assessors use the building permits merely to get an idea of the size of new property and the character of its construction. They ignore entirely the estimate which the owner places on the building. They prefer to make their own valuation after the building has actually been erected, rather than rely on the estimate of the owner, made before the building has been constructed.

Of course, many people who build are conscientious about the matter and strive to give just as accurate an estimate of the cost of what they proposed to build as they can. But many others blatantly announce that the proposed building will cost a certain figure which the public property department clerk knows at once, from the description of the proposed building, is far below the actual cost.

Of course, there is no great harm done by this method of people who take out building permits. Neither is there any gain for them when they receive their tax bills. The only real objection is that the city is not getting an accurate or reliable record of the cost of its building operations.
